GREAT INTEREST CENTERS ON MASS MEETING TONIGHT

Announcement of the Proposition to Reorganize the East Liverpool Board of Trade Caused Much Comment.

BUSINESS MEN IN GENERAL FAVOR THE MOVE

An Effort Will Probaby Be Made at Once to Induce a Boston Shoe Manufacturer to Locate In This City—A South Dakota Inventor Is Desirous of Establishing an Atombile and Bicycle Factory Here. Other Industries May Come Our Way.

The citizens' mass meeting to be held tonight at the council chamber for the purpose of reorganizing the board of trade, the announcement of which appeared exclusively in Thursday's News Review, was the leading topic of conversation in business circles today. This matter has long been discussed by those interested and who realized that the city's interests were sadly in need of a stimulus in the shape of a wide-awake board of trade.

Attorney Travis, having been assured the support of several leading citizens, has volunteered to give impetus to the movement to reorganize the board and place it on a proper standard. Interest in the matter of booming the city seems to have been sadly neglected, and it is argued by those who claim to know for a certainty that various opportunities have been overlooked, which, if they had been taken advantage of, would doubtless have added new industries to East Liverpool.

It is understood the promoters of the move to establish a new board of trade will, at the proper time make an effort to induce the Boston shoe manufacturer, who has already submitted a proposition, to locate here. As has previously been published, the Boston man agrees to build a factory that will furnish employment to 400 men in case he is given fair inducement.

T. C. Culbertson, an inventor, of Brinton, S. D., a brother of George Culbertson, of the East End, has for several months been negotiating with East Liverpool capitalists for the establishment of a factory in this city for the manufacture of automobiles, bicycles and gasoline lamps. Culbertson holds patents on all of his inventions and has gained great notoriety in the west. He is the patentee of a propelling contrivance for automobiles which is said to be a wonderful improvement over anything of the kind ever introduced and his gasoline lamps are now in use in dozens of western cities.

Mr. Culbertson has made an offer to employ 50 men and is anxious for building the factory some time this summer. It is likely his proposition will be taken up for consideration by the new board.

The indications for a large attendance at tonight's meeting are very good, and judging from the comment occasioned by the announcement of the proposed organization, it is evident enthusiasm will be far from lacking.

THE PRINTING SCALE

DIFFICULT TASK TO ARRANGE IT SATISFACTORILY.

Committee Making Progress And Will Probably Complete Its Work Tonight.

The committee which has in hand the task of forming a scale of prices to govern the printing department of pottery work has not yet completed its work, and will probably not do so before Monday.

The work is much more arduous than was at first thought, and although the committees have been holding a session each night since Monday, the progress has been slow.

It is thought that the list can be completed at tonight's meeting. The work can, at least, be pushed to a point where the last piece will have been determined upon. It will then only be necessary to arrange a few minor details in order to get the list in shape to put in operation. On Monday night, it is expected this will be done.

William Elder, of Akron, and the other members from out of town, have been working hard in order to complete the work in the shortest time possible, and no time has been lost in fixing the rates on the various items on the list. Mr. Elder expects to return to Akron tomorrow morning.

WORTH MILLIONS

Was a Pennsylvania Man Who Wandered And Was Missing 50 Years.

Youngstown, May 10.—After all trace of Peter Rigby, of Philadelphia, had been lost for 50 years the heirs in this city have found out that he died in Rio Janeiro 10 months ago. He left $2,500.000 to be divided among the heirs here, in Shenango and Venango counties ,Pa.

ROGERS' BRICK PLANT

WILL PROBABLY EXCEL THE BRADSHAW BROS.' POTTERY.

Citizens Think It Will Be of Greater Benefit—Pottery Kilns Being Torn Down.

Rogers, May 10. — (Special.)—The firing kilns, the last vestige of what was once the Bradshaw Bros.' pottery, are now being torn down and moved to Niles. With very few exceptions the people of this town are experiencing a feeling of chagrin over the removal of the old land mark, and it is the subject of much discussion.

A redeeming feature, however, is the rapid construction of the new brick works, which, when completed, will equal in a financial measure, if not excel, the plant of the Bradshaw people. Only furnace fire brick and tile will be manufactured, and of the former, 25,000 will be turned out each day. The works will furnish employment to between 40 and 50 men.

The masonry is almost completed and the carpenter work will commence next week. H. W. Weaver, of Allegheny, formerly of East Liverpool, is the contractor. John Hall, of East Liverpool, is at the head of the new company.

THE ORIGINAL POTTER

Picture of Josiah Wedgewood to Be Adopted as a Souvenir by Sons of St. George Lodge.

The Sons of St. George Lodge of East Liverpool have decided to adopt a picture of Josiah Wedgewood on their souvenir in honor of the convention in this city next August.

This drawing of the "original potter" has been sent to the lodge by Collin Bloor, of Burslem, England, who formerly resided here. The souvenir will be in the form of a placque, with the picture in the center, suitably inscribed.

SHE IS THOUGHT TO BE INSANE

Mrs. Lucille Matursh, the Assailant of Mrs. Price, to Ge Before the Probate Judge.

HAD NO DEFENSE TO MAKE

Mayor Davidson Gave the Woman a Hearing This Morning, But it Was of an Unsatisfactory Nature—Mrs. Price Was Present.

Mrs. Lucille Matursh, the Italian assailant of Mrs. William Price, was given a hearing before Mayor Davidson this morning on the charge of assault with intent to kill. Tony Ross was present and acted as interpreter.

Although in a somewhat weakened condition, Mrs. Price was present at the hearing in company with a son and daughter. Dr. Calhoun, who has been treating the injured woman, was also in attendance. Mrs. Matursh had no defense to make, and though she pleaded guilty to the charge against her, it is believed she did not comprehend what she was doing.

Mrs. Price testified that the accused woman attacked her without warning. She stated emphatically that the allegations of Mrs. Matursh regarding her alleged intimacy with the woman's husband were ridiculously false. Mrs. Price said she did not know the Italian man, and he states he does not know Mrs. Price. Thus it appears that Mrs. Matursh's motive for assaulting the aged lady was an imaginary one.

Dr. Calhoun stated that Mrs. Price's wounds were not of a dangerous nature. He said the nervous shock incident to the attack was of greater severity than the cuts and bruises. The physician did not anticipate any serious results.

Mayor Davidson asked the interpreter to get an expression from the Italian woman as to her reason for committing the assault. She reiterated her claim that she was prompted by jealousy to do the deed. Each time the interpreter asked the female a question she would plunge into a protracted and apparently meaningless prattle, all the time insisting that she had reason to be jealous of Mrs. Price, and it was impossible to get any satisfactory explanation from her.

Attorney Richard Thompson represented the plaintiff in the case and F. E. Grosshans, the defendant. Grosshans insisted that his client was mentally unbalanced, and that she was incapable of being held for the charge against her. At first Mayor Davidson had decided to bind the defendant over to common pleas court and had fixed her bond at $300. However, he later agreed to have her taken before the probate judge to stand trial for insanity.

Ross declares positively that the woman is irresponsible, and expresses the belief that if she is kept in jail much longer she will lose her reason altogether.

Mr. Matursh says his wife is crazy, and her actions strongly indicate this is true. She has been ill most of the time during her incarceration in the city prison and frequently suffers attacks of vomiting. She has eaten but little since being placed in her cell, and her infant is showing signs of developing illness.

Owing to the woman's extreme illiteracy, it is an almost impossible task for an interpreter to get any satisfactory conversation with her. Her mind is very changeable, and one moment she is appealing for her husband and at other times she wants to kill him. She will probably be taken to Lisbon Saturday morning.

CHOKED TO DEATH.

Alliance, May 10. — Leander Knowles, a veteran pension claim agent, choked to death in Miller's restaurant last evening. He had taken a bite of food, when he began choking and died in a few minutes.

WOULDN'T STAND FOR IT.

AMATEUR PHOTOGRAPHER RAN AMUCK AT CITY HALL.

Attempted to Get a Picture of the Italian Woman Prisoner, But She Mistook the Camera for a Gun.

An attempt of a local amateur photographer Thursday night to get a picture of the Italian woman who is confined in the city jail, terminated in a complete fiasco. While the artist failed utterly to accomplish his purpose, he nevertheless succeeded admirably in scaring the woman out of several inches of growth.

The photographer, in company with several other young men, gained entrance into the jail by the rear door. The camera was one of the folding kind, and the moment the proposed subject got a glimpse of the machine her suspicions became aroused and she evidenced considerable nervousness. However, when the artist had arranged the camera in position and slid it up before her cell, the female gave a frantic shriek, and seizing her baby, rushed to the rear of the iron cage.

An effort was made to induce her to pose for the photographer, but every time he attempted to operate the machine the woman would throw up her hands in terror and yell like a Sioux warrior. It was the intention of the artist to get the picture by means of a flash light, but Chief Thompson, on finding that the woman was frightened, refused to allow the proceeding to go further. He feared the flash light would frighten her into hysterics. The photographer gave up the job after a fruitless effort to assure the woman that no harm was to be done her.

It is evident she never saw a camera, and mistook the apparatus for a gatling gun. From her actions it was surmised she expected a charge of grape and canister from the "weapon" every time the artist attempted to get a focus.

DAVE BROWN ACCUSED

OF TESTIFYING AGAINST SALOON MEN BEFORE GRAND JURY.

Alleged He Caused Arrest of Those Charged With Selling to Minors.

The fact has become known that Dave Brown, the negro who was on Wednesday sentenced to a term in the penitentiary for assault, also had a hand in bringing about the indictments against the East Liverpool saloon men who were summoned before the grand jury a few days ago. It was Brown who caused the arrest of the bartenders charged with selling liquor to minors.

"Nattie" Morland is generally credited with having given the testimony to the grand jury which caused the indicting of those charged with selling to an habitual drunkard, although it is the belief of many saloon keepers that Jack Rowe also had a hand in the affair.

Rowe is alleged to have threatened a Market street bartender, who was among the number indicted, and although the young man denies that he sold liquor to Rowe, he pleaded guilty to the charge against him.

Dave Brown's assertion that he is a minor is questioned by many persons, who claim they are positive the negro is more than 21 years of age. His mother insists he is but 18 years old, but it is said the young man once testified in the mayor's court in this city that he was 18 years of age, and this was four years ago.

$70,000 DAMAGE SUIT

Resulting from an Explosion of a Ft. Pitt Gas Main.

Beaver, Pa., May 10.—The Evansville Contract company, whose dredge boat Indiana was destroyed by the explosion of the Fort Pitt Gas company's main in the river at the Legionville lock on March 13 last, entered suit against the company yesterday in the United States circuit court at Pittsburg for $70,000 damages.

The plaintiff alleges that its property was damaged [illegible]

MORE CONVICTS FOR OHIO PEN

Harry Kemp, the Salem Burglar, Gets a Sentenee of Three Years.

JOHN GALES IS TO SERVE TWO

He Was Convicted of a Robbery at East Palestine—Sheriff Takes a Batch of Prisoners to Canton And an Insane Man to Masillon.

Lisbon, May 10.—(Special.)—Harry Kemp, the Salem burglar, was convicted in 15 minutes after his case went to the jury yesterday. Kemp was today sentenced to three years in the penitentiary at hard labor.

John Gales, for robbing the Stevenson tailor store at East Palestine. Only a few witnesses were examined and the case was submitted to the jury, which, in 15 minutes found him guilty. Gales got two years in the penitentiary.

The A. M. E. church, of East Liverpool, was given authority by Judge Hole today to mortgage its church property in the sum of $1,200.

A demurrer was heard in the case of Ohio ex rel. of Richard Cole, of Salem, against J. F. Adams, county auditor and was overruled. It was asked that a writ of mandamus be issued, commanding the auditor to issue to the plaintiff an order on the county treasurer for $4. which is claimed to be due as jury fees in a case tried in a Salem court. The court held that no valid excuse could be given for the defendant not performing the act and issued a peremptory order as prayed for. The case will not be heard further in common pleas court, but a bill of exceptions will be filed today by Prosecutor Brookes, taking the case into circuit court on error.

James Blind, of Leetonia, was arraigned this morning and sentenced to three months in the Canton workhouse. He was indicted for non-support of minor children and pleaded guilty.

Roland Edwards, of Lisbon, pleaded guilty to a charge of assault and battery and was fined $15 and costs.

Sheriff Noragon left today for the Canton workhouse and the Massillon asylum. Patrick McGill, of East Liverpool; Joseph Geisse, of Wellsville, and James Blind, of Leetonia, were taken to the former institution, and Joseph Hisey, of East Palestine, to Massillon.

PATHETIC PARTING

Between a Mother And Five Little Ones, Who Go to the Children's Home.

Dr. F. K. Hutcheson, poor director, left Wellsville yesterday for Alliance with the five children of Mrs. Criswell. The little ones are to be placed in the Children's Home at Alliance. Mrs. Criswell says her husband, who is the proprietor of a merry-go-round, has abandoned her.

Mrs. Criswell stated that she could take care of herself and the baby by working, but that she was not able to earn money enough to feed and clothe herself and six little ones. She said there was nothing for her to do but have five of the children sent to the Children's Home. The parting of Mrs. Criswell and the five little ones was a pathetic one.

FELL PARALYZED.

Death of a Wheeling Man Attributed to Excitement Over Stocks.

Wheeling, W. Va., May 10.—Captain Jack F. Merriman fell paralyzed in Ward & Co.'s stock brokers agency here. He died two hours later. Over excitement by the great slump in stocks caused his death. He had been speculating in stocks.

THE MARKET STRONG

New York, May 10. — (Special.)—The market is strong this afternoon. Union Pacific rose 11 points; other stocks show substantial gains. The panic is over.

EAST END.

EAST END BASEBALL

STREET RAILWAY EMPLOYES ARRANGING A MATCH.

Ready to Meet All Comers—Other News of the Diamond.

The motormen and conductors of the East Liverpool and Wellsville street car line have challenged the employes of the Rock Springs line to meet them on the ball ground any day next week. They are willing to play for fun or for any amount the latter team may desire. The East Liverpool motormen's team is practicing daily at Columbian park, where a large crowd always assembles to witness some star sprinting by Thomas, Smith and Fowler. These gentlemen go down the line like a cyclone, and it is very unfortunate for the baseman or fielder that happens to be in their path. This team will be glad to accept a challenge from any team in their class. They expect to win most of their games by the sprinting of their heavyweights, who, when once started, can't be stopped very easily.

Yesterday afternoon a collection was taken up for the purchase of balls and bats. Every one contributed except one motorman from Pittsburg. It was impossible to get a dime out of him. A doctor who happened to be near offered to give this motorman a dime, which he accepted, and thus contributed (?) his share.

The kilnhands at the Globe pottery challenged the clay hands for a game next Friday at Rock Springs, and the clayhands accepted.

The East End Grays challenged the Dixonville team, but the latter declined to accept, claiming that the Grays were above their class.

The Laughlin team is still open for challenges.

An effort is on foot to form a team at the National plant, but so far it has been unsuccessful.

Judging from the number of teams in the field it would seem that the East End will do more ball playing than anything else this summer.

THEY CELEBRATED.

Imported Bricklayers' Only Work Done in a Downtown Saloon.

A few days ago an East End company, which was badly in need of more bricklayers than it could procure in this city, sent a representative of the company to Pittsburg with instructions to engage the services of any bricklayers he could find idle and pay their fare to this city. After a search lasting two days the representative returned with seven of the much-desired workmen. He procured a boarding place for them and guaranteed the payment of the board bills.

The men decided to celebrate their first day in the city in a fitting manner, so they repaired to a downtown saloon, where they lingered until midnight, when one of them bantered the others to return to Pittsburg. They wouldn't take a dare, and accordingly all returned to Pittsburg on the midnight train. And the company still looks for more bricklayers.

Funeral of Mrs. Hoskins.

The funeral services of the late Mrs. Joanna Hoskins will take place at the residence on First avenue Sunday morning at 9 o'clock. The remains will be taken to Wheeling on the 10 o'clock train, where interment will be made. Washington, John, Richard and Allen Hoskins, all sons of Mrs. Hoskins, arrived in the East End last evening. They will return to Zanesville Monday.

Caught Some Fine Bass.

Attorney Frank Grosshans and Dr. F. F. Davis spent yesterday fishing in Beaver creek and returned with a nice string of bass. They are the first anglers to catch anything at Beaver creek this season.

A Big Eel Captured.

John Arnold, Jr., set a trot line last night and this morning caught an eel four feet two inches long. As a result he has quit the business college and gone to fishing exclusively.

EAST END BREVITIES.

Michael Stillwell is painting his residence in Oakland.

Motorman Liebolt and wife are visiting relatives in Pittsburg.

James Dugan is visiting friends in Steubenville and Toronto today.

The work on the tenement building of the A. M. C. Co. is progressing rapidly.

The kilnmen at the Laughlin No. 2 plant are loafing today on account of a shortage of ware.

Wynkle Campbell, who is employed at the National plant, is ill at his home in Smith's Ferry.

The drilling on the well at the National pottery was begun yesterday afternoon. The casing arrived this morning.

NEW FURNACE IN BLAST.

That at Mingo Greatly Increases Trust Output.

A third furnace, which has been under construction by the National Steel company, at Mingo Junction, for more than a year past, was put into blast last week. Its capacity will be about 600 tons daily and it is now operating on Bessemer. The other two furnaces at this plant were recently remodeled and their output considerably increased.

The blowing in of this furnace further increases the pig iron output of the United States Steel corporation, and the furnace of the American Steel and Wire company on Neville island, below Pittsburg, in the Ohio river to be put into blast in about a month will increase the pig iron output of the company further by about 700 tons daily.

IN HIGH REPUTE.

The Great Author And Physician, Dr. A. W. Chase, is Remembered in East Liverpool.

All over the world Dr. A. W. Chase's recipe book is known, as also in many parts of this country his skill as a physician, and from the great success of his medicines the name will be handed down from generation to generation. Attempts are often made to sell other medicines over the reputation of the doctor—some go so far as to use the name "Chase," but they dare not use the initials A. W.—portrait or signature which is borne on every box of the genuine—the kind referred to by Mrs. George Hall, of No. 389 West Market street, East Liverpool, O., who says: "I was bilious—my head ached hard and constantly—there was a general feeling of weakness and depression. I was asked to try Dr. A. W. Chase's Nerve Pills and did so, getting them at Larkins' drug store, corner Sixth and East Market streets. The result was very good indeed, as the biliousness was overcome—the headaches cured and bodily and nerve strength furnished. Dr. A. W. Chase's Ointment I can vouch for in burns as a fine application."

Dr. A. W. Chase's Nerve Pills are sold at 50 cents a box, also Dr. A. W. Chase's Ointment at 50 cents a box at dealers, or Dr. A. W. Chase Medicine Co., Buffalo, N. Y. See that portrait and signature of A. W. Chase, M. D., are on every package.

EAST END.

EAST END BASEBALL

STREET RAILWAY EMPLOYES ARRANGING A MATCH.

Ready to Meet All Comers—Other News of the Diamond.

The motormen and conductors of the East Liverpool and Wellsville street car line have challenged the employes of the Rock Springs line to meet them on the ball ground any day next week. They are willing to play for fun or for any amount the latter team may desire. The East Liverpool motormen's team is practicing daily at Columbian park, where a large crowd always assembles to witness some star sprinting by Thomas, Smith and Fowler. These gentlemen go down the line like a cyclone, and it is very unfortunate for the baseman or fielder that happens to be in their path. This team will be glad to accept a challenge from any team in their class. They expect to win most of their games by the sprinting of their heavyweights, who, when once started, can't be stopped very easily.

Yesterday afternoon a collection was taken up for the purchase of balls and bats. Every one contributed except one motorman from Pittsburg. It was impossible to get a dime out of him. A doctor who happened to be near offered to give this motorman a dime, which he accepted, and thus contributed (?) his share.

The kilnhands at the Globe pottery challenged the clay hands for a game next Friday at Rock Springs, and the clayhands accepted.

The East End Grays challenged the Dixonville team, but the latter declined to accept, claiming that the Grays were above their class.

The Laughlin team is still open for challenges.

An effort is on foot to form a team at the National plant, but so far it has been unsuccessful.

Judging from the number of teams in the field it would seem that the East End will do more ball playing than anything else this summer.

THEY CELEBRATED.

Imported Bricklayers' Only Work Done in a Downtown Saloon.

A few days ago an East End company, which was badly in need of more bricklayers than it could procure in this city, sent a representative of the company to Pittsburg with instructions to engage the services of any bricklayers he could find idle and pay their fare to this city. After a search lasting two days the representative returned with seven of the much-desired workmen. He procured a boarding place for them and guaranteed the payment of the board bills.

The men decided to celebrate their first day in the city in a fitting manner, so they repaired to a downtown saloon, where they lingered until midnight, when one of them bantered the others to return to Pittsburg. They wouldn't take a dare, and accordingly all returned to Pittsburg on the midnight train. And the company still looks for more bricklayers.

Funeral of Mrs. Hoskins.

The funeral services of the late Mrs. Joanna Hoskins will take place at the residence on First avenue Sunday morning at 9 o'clock. The remains will be taken to Wheeling on the 10 o'clock train, where interment will be made. Washington, John, Richard and Allen Hoskins, all sons of Mrs. Hoskins, arrived in the East End last evening. They will return to Zanesville Monday.

Caught Some Fine Bass.

Attorney Frank Grosshans and Dr. F. F. Davis spent yesterday fishing in Beaver creek and returned with a nice string of bass. They are the first anglers to catch anything at Beaver creek this season.

SETS OIL MEN WILD

"Beaumont or Bust" the Cry of Those Rushing to the New Field In Texas.

BIG BOOM IN LAND VALUES

Great Excitement Over Rich Discoveries—Train Loads of Wealth-Seekers Pouring Into the Oil Country—Danger of Big Fires.

The oil fever has struck New Orleans in earnest, and thousands of persons are investing their money in hundreds of companies. Stock is being sold on every hand, and the possibilities are that the next few days will find scores more of newly incorporated organizations taking the money of the investors.

It is impossible at present to sift the wheat from the chaff, and it will not be known until the excitement is over how many of the companies are of the wildcat kind, says the New York Herald. Advertisements are all that is necessary to sell any kind of oil stock at this moment, and big and little investors are throwing their money into the treasuries of those first in the field.

Since the day the news of the Lucas gusher reached New Orleans, six other big gushers have been struck in the Beaumont vicinity. The second and third and fourth caused no end of excitement, but the striking of big wells is getting to be such a common occurrence that they are passing unnoticed.

Reports from the oilfields state that within a month half a hundred gushers will be throwing oil around Beaumont. Prices of land within a hundred miles of the oil center have increased from the value of farm property to that of New York real estate. Thousands of dollars an acre have been asked in many places, and the offerings are taken up as fast as they are made. Money seems to be plentiful, and a careful estimate places the real estate transactions at hundreds of thousands of dollars a week.

Men all over the southern states are oil crazy. Everybody is anxious to get in on the ground floor, and the railways are having all they can do to carry travelers to the Lone Star State. Every railway train out of New Orleans to Texas is crowded with men going to Beaumont to look over the ground. It reminds the old prospectors of the days of Cripple Creek and other western points in the days of the gold strikes. It is a case of "Beaumont or bust" with everybody at present. In Beaumont the situation is terrible. It is an impossibility to secure accommodation at any price, and thousands of persons are going hungry loaded down with money, oil stock or property deeds worth millions.

A new phase of the Beaumont situation serious in its possibilities was firmly met by the town council. Speculators were beginning to set up boring rings within the city limits. The striking of a gusher would have meant the inundation of the city with oil. Once on fire, Beaumont would have been another Pompeii.

Sensible of the danger to property and life, to say nothing of the possibility of finding oil beneath public edifices or in other inconvenient places, the council promptly prohibited boring of oil wells within the corporate limits. Crafty borers sought to dodge the prohibition by applying for permission to bore for artesian wells, but the council turned all such applications down.

A disappointed borer proposes to establish a company to pave the streets and line the exteriors of the houses with asbestus. Of the many corporations interested in the oil business, several are of immense proportions. A New Orleans concern was formed recently with a capital stock of $10,000,000. Prominent men are behind the concern, and it holds options on several valuable tracts of land. The entire $10,000,000 of stock was taken, and 20 per cent of the money has been subscribed. The stock is already held at par, and it is impossible to buy at that figure. Stocks that sold a few days ago for 10 cents a $1 share are worth five times that price.

Companies with capital stocks of $50,000 and up to millions are catching the dollars of the small investors. Fortunes will be made in New Orleans in oil stocks within the next few months, and fortunes may be lost. Several stocks have already been listed on the Stock Exchange, and the trading in them has been remarkable.

COUNTY AND NEIGHBORHOOD.

Wellsburg wants a curfew law.

Contractors are at work extending the W. & L. E. branch railroad from Adena to Bellaire.

The Youngstown plasterers' strike is ended, the master plasterers conceding their demands for $3.50 a day of nine hours.

Suit has been entered at Wellsburg against the Panhandle railroad for $10,000 for the death of Fred U. Sutor, an employe.

Mrs. Lydia Kenrich, an aged lady, residing in Fairfield township, while shopping in Columbiana, fell from a step and broke her hip.

The Salem Elks are preparing for an immense picnic, to be held at some point not yet fixed, during the latter part of July or the first of August.

Ex-County Commissioner John Underwood, of Fernwood, is looking up 5,000,000 feet of oak lumber for A. McDonald, the Richmond contractor.

Five suits for personal damages by reason of insecure sidewalks are pending against the city of Warren, with damages demanded aggregating $51,000.

Twenty-five employes of the W. B. Pollock company, of Youngstown, have gone to Monterey, Mexico, to build the blast furnaces for a $10,000,000 plant.

At the Sebring pottery, Miss Annie Reed used a chemical too lavishly, with the result that the acid ate into her hand, threatening to permanently deprive her of the use of the member.

Reese M. Ling, who left Massillon a lad of 16 years in 1884, to seek his fortune, has returned for a brief visit with relatives in that city. Mr. Ling is now secretary of the McCabe Milling and Mining company, which is capitalized at $1,500,000, and is wealthy.

Confirmation suits arrived this week at 282-i

RIDING ON AN AVALANCHE.

Down a Steep Canyon Without a Bruise or a Scar.

Few mountaineers go far enough into the avalanche regions to see much of them, and fewer still know the thrilling exhilaration of riding on them, says John Muir in The Atlantic. In all my wild mountaineering I have enjoyed only one avalanche ride, and the start was so sudden and the end came so soon I thought but little of the danger that goes with this sort of travel, though one thinks fast at such times.

One calm, bright morning in Yosemite, after a hearty storm had given three or four feet of fresh snow to the mountains, being eager to see as many avalanches as possible and gain wide views of the peaks and forests arrayed in their new robes before the sunshine had time to change or rearrange them, I set out early to climb by a side canyon to the top of a commanding ridge a little over 3,000 feet above the valley. But I was not to get top views of any sort that day, but instead of these something quite different, for deep trampling near the canyon head where the snow was strained started an avalanche, and I was swished back down to the foot of the canyon as if by enchantment. The plodding, wallowing ascent of about a mile had taken all day, the undoing descent perhaps about a minute.

When the snow suddenly gave way, I instinctively threw myself on my back and spread my arms to try to keep from sinking. Fortunately, though the grade of the canyon was steep, it was not interrupted by step levels or precipices big enough to cause outbounding or free plunging. On no part of the rush was I buried. I was only moderately imbedded on the surface or a little below it and covered with a hissing back streaming veil, and as the whole mass beneath or about me joined in the flight I felt no friction, though tossed here and there and lurched from side to side, and when the torrent wedged and came to rest I found myself on the top of the crumpled pile, without a single bruise or scar.

Hawthorne says that steam has spiritualized travel, notwithstanding the smoke, friction, smells and clatter of boat and rail riding. This flight in a milky way of snow flowers was the most spiritual of all my travels, and after many years the mere thought of it is still an exhilaration.

Historical Divisions of Time.

For convenience time is, by historians, usually divided into three great eras—ancient, mediæval (or middle) and modern. The ancient period is considered to extend from the earliest times down to the fall of the Roman empire in the west in A. D. 476; the mediæval from that date to the discovery of America by Columbus in 1492 and the modern from that time to the present. Some historians prefer to put the end of the mediæval period at the capture of Constantinople by the Turks, about 40 years earlier than the Columbus event. The dark ages are often held to be coeval with the mediæval era, but some authorities think that the term should be applied only to the part of the era extending from the downfall of the empire of Charlemagne, in the ninth century, onward.

Their Loyal Answer.

On one of Queen Victoria's earliest visits to London she observed to her friend, the then Earl of Albemarle, "I wonder if my good people of London are as glad to see me as I am to see them."

He pointed to the letters V. R. woven into the decorations and said, "Your majesty can see their loyal cockney answer, 'Ve are.'"

Silk Waists

Entire Sample Line of New York Importer.

Our Mr. Samler when in New York this week succeeded in purchasing the entire sample line of one of the leading importing houses of the city. Most of these were waists from Paris and brought over as patterns for their designers. On account of the size---they are all 34 and 36---we got them for about half their regular price and therefore put them on sale Saturday at prices never before marked on this class of goods.

Waists worth $8, $10, $12 and $15 for $5, $6, $7 and $8.

THE LEADER Washington St., East Liverpool, Ohio.

TORN, SOILED OR WORN.

In the producing of any Art Creation the materials employed have an equal responsibility with the skill brought to bear on them.

Our Wall Papers are made from the most complete stock with all the exclusive and dainty colorings.

They are designed by the best houses in the country and can be surpassed in beauty and variety by none.

We are prepared to hang all Wall Paper sold from our store. Both phones.

JAS. M. M'DOLE, 265 Broadway.

PEN, PENCIL AND BRUSH.

John S. Sargent, the portrait painter, has broken down from overwork, and his physician has ordered him abroad for a complete rest.

Maurice Hewitt, the novelist, has until lately been employed in the British civil service, but he has now resigned from that occupation in order to devote himself to literature.

Mrs. Humphry Ward, like the late Mary Cowden Clarke, has a great liking for Genoa the Superb. She has gone to her favorite resort near the city and is there completing some important work.

Henry Floyd, the artist, has just completed a portrait of Lady Pauncefote, the wife of the British embassador to this country, which will be hung in the drawing room of the British embassy at Washington.

Virgilio Togetti, the mural and portrait painter, who died in New York the other day, was born in Rome in 1849. His father, an artist, was made a marquis by Pius IX. One of the best examples of Virgilio's work in this country are the decorations of the late Cornelius Vanderbilt's house in New York.

SETS OIL MEN WILD

"Beaumont or Bust" the Cry of Those Rushing to the New Field In Texas.

BIG BOOM IN LAND VALUES

Great Excitement Over Rich Discoveries—Train Loads of Wealth-Seekers Pouring Into the Oil Country—Danger of Big Fires.

The oil fever has struck New Orleans in earnest, and thousands of persons are investing their money in hundreds of companies. Stock is being sold on every hand, and the possibilities are that the next few days will find scores more of newly incorporated organizations taking the money of the investors.

It is impossible at present to sift the wheat from the chaff, and it will not be known until the excitement is over how many of the companies are of the wildcat kind, says the New York Herald. Advertisements are all that is necessary to sell any kind of oil stock at this moment, and big and little investors are throwing their money into the treasuries of those first in the field.

Since the day the news of the Lucas gusher reached New Orleans, six other big gushers have been struck in the Beaumont vicinity. The second and third and fourth caused no end of excitement, but the striking of big wells is getting to be such a common occurrence that they are passing unnoticed.

Reports from the oilfields state that within a month half a hundred gushers will be throwing oil around Beaumont. Prices of land within a hundred miles of the oil center have increased from the value of farm property to that of New York real estate. Thousands of dollars an acre have been asked in many places, and the offerings are taken up as fast as they are made. Money seems to be plentiful, and a careful estimate places the real estate transactions at hundreds of thousands of dollars a week.

Men all over the southern states are oil crazy. Everybody is anxious to get in on the ground floor, and the railways are having all they can do to carry travelers to the Lone Star State. Every railway train out of New Orleans to Texas is crowded with men going to Beaumont to look over the ground. It reminds the old prospectors of the days of Cripple Creek and other western points in the days of the gold strikes. It is a case of "Beaumont or bust" with everybody at present. In Beaumont the situation is terrible. It is an impossibility to secure accommodation at any price, and thousands of persons are going hungry loaded down with money, oil stock or property deeds worth millions.

A new phase of the Beaumont situation serious in its possibilities was firmly met by the town council. Speculators were beginning to set up boring rings within the city limits. The striking of a gusher would have meant the inundation of the city with oil. Once on fire, Beaumont would have been another Pompeii.

Sensible of the danger to property and life, to say nothing of the possibility of finding oil beneath public edifices or in other inconvenient places, the council promptly prohibited boring of oil wells within the corporate limits. Crafty borers sought to dodge the prohibition by applying for permission to bore for artesian wells, but the council turned all such applications down.

A disappointed borer proposes to establish a company to pave the streets and line the exteriors of the houses with asbestus. Of the many corporations interested in the oil business, several are of immense proportions. A New Orleans concern was formed recently with a capital stock of $10,000,000. Prominent men are behind the concern, and it holds options on several valuable tracts of land. The entire $10,000,000 of stock was taken, and 20 per cent of the money has been subscribed. The stock is already held at par, and it is impossible to buy at that figure. Stocks that sold a few days ago for 10 cents a $1 share are worth five times that price.

Companies with capital stocks of $50,000 and up to millions are catching the dollars of the small investors. Fortunes will be made in New Orleans in oil stocks within the next few months, and fortunes may be lost. Several stocks have already been listed on the Stock Exchange, and the trading in them has been remarkable.

RIDING ON AN AVALANCHE.

Down a Steep Canyon Without a Bruise or a Scar.

Few mountaineers go far enough into the avalanche regions to see much of them, and fewer still know the thrilling exhilaration of riding on them, says John Muir in The Atlantic. In all my wild mountaineering I have enjoyed only one avalanche ride, and the start was so sudden and the end came so soon I thought but little of the danger that goes with this sort of travel, though one thinks fast at such times.

One calm, bright morning in Yosemite, after a hearty storm had given three or four feet of fresh snow to the mountains, being eager to see as many avalanches as possible and gain wide views of the peaks and forests arrayed in their new robes before the sunshine had time to change or rearrange them, I set out early to climb by a side canyon to the top of a commanding ridge a little over 3,000 feet above the valley. But I was not to get top views of any sort that day, but instead of these something quite different, for deep trampling near the canyon head where the snow was strained started an avalanche, and I was swished back down to the foot of the canyon as if by enchantment. The plodding, wallowing ascent of about a mile had taken all day, the undoing descent perhaps about a minute.

When the snow suddenly gave way, I instinctively threw myself on my back and spread my arms to try to keep from sinking. Fortunately, though the grade of the canyon was steep, it was not interrupted by step levels or precipices big enough to cause outbounding or free plunging. On no part of the rush was I buried. I was only moderately imbedded on the surface or a little below it and covered with a hissing back streaming veil, and as the whole mass beneath or about me joined in the flight I felt no friction, though tossed here and there and lurched from side to side, and when the torrent wedged and came to rest I found myself on the top of the crumpled pile, without a single bruise or scar.

Hawthorne says that steam has spiritualized travel, notwithstanding the smoke, friction, smells and clatter of boat and rail riding. This flight in a milky way of snow flowers was the most spiritual of all my travels, and after many years the mere thought of it is still an exhilaration.

Historical Divisions of Time.

For convenience time is, by historians, usually divided into three great eras—ancient, mediæval (or middle) and modern. The ancient period is considered to extend from the earliest times down to the fall of the Roman empire in the west in A. D. 476; the mediæval from that date to the discovery of America by Columbus in 1492 and the modern from that time to the present. Some historians prefer to put the end of the mediæval period at the capture of Constantinople by the Turks, about 40 years earlier than the Columbus event. The dark ages are often held to be coeval with the mediæval era, but some authorities think that the term should be applied only to the part of the era extending from the downfall of the empire of Charlemagne, in the ninth century, onward.

Their Loyal Answer.

On one of Queen Victoria's earliest visits to London she observed to her friend, the then Earl of Albemarle, "I wonder if my good people of London are as glad to see me as I am to see them."

He pointed to the letters V. R. woven into the decorations and said, "Your majesty can see their loyal cockney answer, 'Ve are.'"

Silk Waists

Entire Sample Line of New York Importer.

Our Mr. Samler when in New York this week succeeded in purchasing the entire sample line of one of the leading importing houses of the city. Most of these were waists from Paris and brought over as patterns for their designers. On account of the size---they are all 34 and 36---we got them for about half their regular price and therefore put them on sale Saturday at prices never before marked on this class of goods.

Waists worth $8, $10, $12 and $15 for $5, $6, $7 and $8.

THE LEADER Washington St., East Liverpool, Ohio.

Treasurer—W. A. THOMPSON.
Commissioner—EDEN REEDER.
Infirmary Director—G. W. ARMSTRONG.

EMBRACE THE OPPORTUNITY.

The public meeting to be held tonight, for the purpose of infusing new life into the moribund board of trade of this city, is one to which all citizens with the welfare of East Liverpool at heart should lend their presence and encouragement. By taking counsel together and uniting for zealous work with a common purpose in view, the business men of this city can hasten the growth of East Liverpool, rapid as it now is, and advance its prosperity, great as it is at present.

We want no fictitious boom, no sudden spasm of speculative zeal, resulting in visionary enterprises and then in collapse. We want substantial, steady and healthy growth. The only way for a town to induce such growth is to encourage manufactures—the more the better, provided they are of the sort calculated to benefit a community. In these days industrial plants do not come to a city uninvited; they go where inducements are offered. There are enterprises now seeking locations; there always are. East Liverpool may get some of them if she extends a proper invitation at a proper time; but they will certainly never come her way if she sits down, folds her hands and waits for them. In these days nothing worth having comes to those who do not ask for it.

Numerous neighboring cities, by advertising their advantages and holding out inducements, have secured important industrial plants in the past two or three years—plants which will be an important element in their future growth and prosperity. East Liverpool has equal advantages to offer and needs only to go about it in the right way to secure new industries. Let us go about it.

MAKING TRAMPS WORK.

The testimony of Hon. T. L. Kennedy, of New Brighton, Pa., a member of the Pennsylvania legislature, is such as should interest those who believe that some other punishment than simple confinement in jail is necessary in the case of common drunkards, tramps and disorderly persons. "Beaver county," he says, "was at one time greatly afflicted with the hobo. Our local authorities have recently taken hold of the matter in a most practical manner. They have put the tramps and other vagrants to work on the public roads and breaking stone, and this has been found to work very satisfactorily. In my opinion the hobo problem can be met in every instance by the local authorities under existing laws."

What has been done in Pennsylvania ought to be possible in Ohio. As has been suggested by Mayor Davidson, there is need of providing work for petty offenders in East Liverpool. The proposition requires no argument. When are we to have an ordinance on the subject and a municipal stonepile?

A SUGGESTION.

The announcement was made in the News Review on Tuesday last that Charles M. Schwab, the head of the great steel combination, is to be in Chester next week to visit the mill owned by the company in that town. Would it not be a good idea for the board of trade meeting tonight to appoint a committee to wait upon him and tender him not only the hospitalities of Chester, but of East Liverpool as well? Mr. Schwab is a thorough business man and would doubtless be interested in looking over a thoroughly business-like community. He has spent a great deal of his life among iron and steel mills, and he might find the sights of a pottery town both novel and interesting. East Liverpool does not have the opportunity of entertaining such a captain of industry every day. It could do no harm to extend to him a cordial invitation to remain among us as long as his manifold duties will permit, and while he is here some of our citizens might drop a hint as to the possibilities of East Liverpool as a manufacturing center which might redound to our benefit hereafter.

The Wall street bulls and bears are rending each other desperately. The wise man will stay out of the melee.

Judge Hole is teaching careless saloonkeepers caution. His lessons come high, but they are evidently needed.

Let's have a board of trade that believes in expansion for East Liverpool and will work for it.

Don't you wish you had bought Northern Pacific?

FRIENDS AND VISITORS.

Jesse Fisher was a Beaver visitor yesterday.

Mrs. Amanda Morse, of Ironton, is visiting relatives on Jackson street.

William Wallbank left yesterday afternoon for a business trip to Sebring.

Miss Araminta McLane left yesterday afternoon for a visit at Pittsburg.

Bobbie Smurthwaite has joined forces with the Southside base ball team.

E. A. Albright returned to Sebring this morning after a short visit in this city.

Frank Sells left Thusrady night for Olean, N. Y., where he will visit for several weeks.

Mrs. Robert Twaddle and Mrs. George Obney are spending a few days at Brilliant.

Miss Laura Conkle left this morning for a visit at Salem. She will go from there to Ada, O.

Albert Van Wey, a Pittsburg commercial traveler, is visiting friends and customers here today.

Mrs. R. Nichols returned to her home in Toronto this morning after a visit with relatives in this city.

Isabelle, the 2-year-old daughter of Mr. and Mrs. Thomas McCann, Sixth street, is ill with the measles.

A little child of Mr. and Mrs. Oliver T. F. Manley left this morning for Pittsburg to take charge of a restaurant, which he recently purchased. Dickey is very ill at their home in the West End, with convulsions. Mr. Dickey is working at Lisbon and will probably be called home at once.

The finest line of Fur and Straw Hats in the city arrived this week at THE SURPRISE CLOTHING HOUSE. 282-i

Try the new remedy for costiveness, Chamberlain's Stomach and Liver Tablets. Every box guaranteed. Price, 25 cents. For sale by Alvin H. Bulger, druggist.

PUT DOWN BY THE FIRM.

Impression About the Laughlin Plant Well Corrected.

Though it has been repeatedly stated in the News Review that the well at the Laughlin plant in the East End was put down at the expense of the firm, the impression has got abroad that it was put down by the pottery hands. Such is not the case. The firm, when it learned the desire of its employes for a well, went to work and had it put down and paid for the work.

Green beans at Murphys'. 282-h

For strawberries, pineapples, cucumbers, lettuce, radishes, water cress, green beans, new potatoes, mint, celery, new cabbage, cauliflower, spinach and everything that is in market at Frank E. Oyster & Co. 282-h

PUT DOWN BY THE FIRM.

Impression About the Laughlin Plant Well Corrected.

Though it has been repeatedly stated in the News Review that the well at the Laughlin plant in the East End was put down at the expense of the firm, the impression has got abroad that it was put down by the pottery hands. Such is not the case. The firm, when it learned the desire of its employes for a well, went to work and had it put down and paid for the work.

DROWNED BOY'S CORPSE FOUND

Body of an Unknown Lad Picked Up In the Ohio River on the South Side.

HAD BEEN IN THE WATER LONG

The Clothing Showed That the Little Unfortunate Had Belonged to a Well-to-Do Family—Supposed to Have Been a Flood Victim.

The body of an unknown boy, apparently about 10 years of age, was found floating in the river just above the residence of Eramus Marshall in Chester at 11 o'clock today. The body was badly decomposed, and it was impossible to recognize the features of the face. It had evidently been in the water for several weeks. The left hand had either been amputated during life or disconnected since the body had been in the water. The clothes strongly indicate that the lad had belonged to a well-to-do family.

Nothing of the coat remained, but a pair of black corduroy trousers which the boy wore were almost as good as new. They were of a fine quality, and finished with white buttons. He also wore a pair of fine shoes that were but slightly damaged.

The body was first discovered by Noss Bros. as it floated near the shore past their saw mill. They procured a skiff as soon as possible and started after the body, which they overtook when nearly opposite Marshall's residence. A rope was placed around the neck of the corpse and it was taken to the shore and tied up.

As there was no coroner in Chester the duty of holding an inquest devolved upon 'Squire Johnston, who was still at his home in the country about two miles east of Chester. William Clendenning was left in charge of the body and a messenger sent after the 'squire. In the meantime a considerable number of people had gathered at the river shore. None of them cared to view the mutilated corpse long and nobody was curious enough to examine it very closely. It was at first reported that a Chester boy had been drowned, and there was a good deal of excitement over the affair until the truth became known.

Most people think the floater is the body of a lad who fell from a raft on the river at Pittsburg during the recent flood.

The body can doubtless be easily identified by the clothing.

'Squire Johnston empaneled a jury at 1 o'clock today. They examined the body and returned a verdict of "death by drowning."

The boy wore around his neck a leather string with two medals attached and a "gospel" leather bag.

One of these silver medals bore these words: "My Guardian Angel, My Guide; on the other side, "St. Joseph, Model of Purity, Pray for Us." On the other medal were these words: "Mother of God, Counsel, Pray for Me," on the other side "Holy Crucifix. Venerated at Genozzano."

The jury completed its work at about 2:30 and the body was taken in charge by Undertaker Bowers. The body will probably be buried at once.

MAKING THE BRIDGE SAFE.

Steps Taken for Protection of the Public on Circus Day.

Superintendent Pauley has placed a sign on each end of the bridge, giving notice that on May 16, between the hours of 12:30 and 2:30 p. m. during the day, and 10:30 and 12 m. at night, no vehicles, horses or other animals will be permitted on the bridge. This is to prevent any accidents that might result from allowing vehicles and foot passengers to mix up on the bridge during the crowded hours of circus day.

When the Ringling Bros.' circus was held in Chester several bad accidents on the bridge were narrowly averted. At that time a startling report was circulated to the effect that the bridge "spread" several inches when the elephants and other circus animals were crossing. This time the elephants and people will not cross at the same time.

Guests from Kansas.

Henry Dever and wife, of Rice county, Kansas, arrived in Chester this morning and are visiting at the home of Mr. Dever's brother, William, who resides here. Mr. Dever has been in Kansas for 30 years. He likes the west very much and will try to persuade his brother to return with him.

LOST TWO TEETH.

Mishap to a Boy While Playing Ball.

Allan Criss had two front teeth knocked out while playing ball this morning. The youngster collided with Raymond Pippin and received the injury as a result.

CHESTER NEWS NOTES.

One of the heating furnaces was removed from the mill today.

Mrs. Edgar E. Pauley is visiting her mother, Mrs Jennie Coolhoff, of Arlington avenue, Allegheny.

HE ENJOYED IT.

Justice McCarron Says His Stay at the Cleveland Hospital Was a Pleasant One.

Justice McCarron, who recently returned from a Cleveland hospital, says his health was never better than at present. He is unsparing in his words of praise as to the treatment he received at the hands of the female nurses of the institution. The justice declares that some of the girls were as near being angels as is possible to be. All they lacked, he says, were the necessary wings.

One of the young ladies who waited on the 'squire made such a favorable impression on him that he almost wishes he could get sick again for a little while, so that he could go back to the hospital. In telling his experience to a reporter the magistrate says he was much surprised to find the attendants and doctors so agreeable. He had always labored under the impression that a hospital was a sort of prison and that the subjects for treatment had troubles of their own. To his delight, however, Mr. McCarron found the circumstances to be quite the reverse, and he says he really enjoyed his stay at the Cleveland institution.

HOME AFFAIRS.

Brief Notes of a Personal Nature And of Matters About Town.

Work at the Freight Station—Taylor Norris and T. M. Pyles have accepted positions at the outbound platform of the freight station as rollers. They went to work this morning.

In New Homes—Sam Brothers has moved his family to his new home on McKinnon avenue, which was recently completed. J. C. Cain, of Beaver Falls, moved his family to the Aley property on Bank street.

His Case Hopeless—The condition of Samuel Derrington, of Fifth street, who has been ill for some time, is worse than ever. The doctors say he may survive through half the summer, but that he will never be able to leave his bed.

Card Party—Mrs. W. C. Lynch, of Thompson avenue, entertained a party of ladies at cards yesterday afternoon. The first prize, a salad set, was won by Mrs. W. R. Clark. The consolation prize, a fine bunch of carnations, went to Mrs. F. W. Milligan.

Child's Heavy Fall—A two-year-old child of Mr. and Mrs. Diehl, of Fourth street, accidentally fell from a lower story window Thursday evening to the brick pavement. The tot alighted on its head and was badly bruised. The skull was not crushed, however.

New Arrivals—The household goods of E. H. Yonker, from Point Pleasant, W. Va., and those of William Roush, from New Haven, W. Va., were brought to the city last night by the steamer Greenwood. Those of Charles Fisher, from Salineville, and R. Sittingians, from Freedom, Pa., were received at the freight station today.

Belmont Club Reception—Invitations are out for the first annual reception of the Belmont club, to be held at Rock Springs Park Thursday evening, May 23. There will be dancing from 8 to 12. The committee having charge is composed of Arthur E. Bowlder, Lawrence S. Bloor, Geo. H. Stewart, Harry R. Dickey, Ralph K. Mackintosh and Charles R. Marshall.

CORRECT DRESS FOR MEN.

Summer Flannels, Fancy Worsteds, Unfinished Worsteds, Cassimeres, Thibets in all the swell green and olive effects, neat stripes, checks, plaids and interwoven checks.

We Cut Down Tailor Bills.

Suits that are made right. Shoulders padded. The collar set close to the neck and stiff and soft front coat, the same exactness that is required in well made clothes and our prices are much lower than those asked by merchant tailors. You will do yourself a favor if you will examine them.

Take a suit home and submit it to the approval of your family, then, if you want to, bring it back and get your money.

Little Fellows Suits.

IS YOUR BOY WELL DRESSED? HE SHOULD BE. HE CAN BE. IT IS NOT A MATTER OF LARGE EXPENSE.

Many of the neat little fellows you see wear our Vestee Suits, at $2. Why not dress up your boy and make him proud of himself, as good as any boy. Our better grade good clothes at small cost, $2.50, $3, $3.50, $4, $4.50 and $5, in Norfolk, double-breasted and Junior style.

THE NATIONAL GAME

PLUMBERS RAN UP A BIG SCORE, BENEDICTS WINNING.

Belmont Club And High School Teams On the Diamond Today.

The married and single plumbers played a very interesting game of ball at Rock Springs park yesterday afternoon. They lined up as follows:

Married.		Single.
Davidson	Catcher	Jackson
Smith	Pitcher	Zange
Darrah	Shortstop	Ivory
Laughlin	First base	Stewart
Holmes	Second base	Brown
Kemper	Third base	Hall
Bence	Right field	Riske
Helm	Center field	Kinsey
Fowler	Left field	Edwards

The game was won by the married men by a score of 29 to 25, and they are now arranging for a game with the street railway motormen to be played at Rock Springs park next Tuesday afternoon.

The Belmont club and the high school base ball teams are playing a game at Rock Springs park this afternoon. The game was called at 4 o'clock and the teams lined up as follows:

Belmont.		High School.
March	Catcher	Cripps
Toothman	Pitcher	E. Gardner
Cook	Shortstop	D. Rigby
Hawkins	First base	F. Rigby
McIntosh	Second base	Schepp
Stewart	Third base	F. Gardner
Kife	Left field	Clinton
Wallover	Center field	Cartwright
Marshall	Right field	Young

Joe Herbert and Homer West umpire the game.

Houck Has Been Indicted.

Mt. Vernon, O., May 10.—The grand jury has returned an indictment against George W. Houck for murder in the first degree on two counts. Houck is charged with having beaten Sarah Jane Hess to death with a club at Bladensburg, March 10. The murdered woman was a widow 70 years of age. It was the most brutal murder ever perpetrated in this part of the state.

Ground to Pieces By Train.

Bellaire, O., May 10.—Joseph Gilbert, of this city, while on his way to Benwood, W. Va., over the Baltimore & Ohio railroad bridge, was ground to pieces by a passenger train. He stepped from one track to avoid a freight train and in doing so placed himself in front of the passenger train.

Caught 90 Fish—Thomas Collins and Milt Simms were fishing at Beaver creek yesterday and made a good catch. They secured 90 fish.

CANTON'S CARRIE NATION

Belabored Her Husband And Partially Wrecked the Saloon Where She Found Him.

Canton, May 10.—Mrs. Anna Burrell, a Canton woman, has blossomed out into a veritable Carrie Nation. It appears that Mrs. Burrel, who is a very hardworking woman who has had the arduous task of providing for a husband and eight hungry children, went into the saloon of Chris Schauwecker on the lookout for her husband. She had previously warned her husband not to go into that particular saloon and also had warned its proprietor not to allow him there. Therefore, when she entered the saloon and found her worser half there her indignation knew no bounds.

The memory of her needy children and her husband's ruin stung her to fury and she smote him over the head with an umbrella which she carried, and then went after the place. She demolished a show case, a glass screen, a window and other breakable things and then left with her humbled spouse, leaving the surprised German staring in open-mouthed wonder at the door by which she had departed.

Mrs. Edgar E. Pauley left this morning for a visit with her parents at Pittsburg.

RAILROAD COMBINES

Community of Interest Plan Extended to Nearly All the Big Lines.

UNDER SEVEN MEN'S CONTROL

Eight Great Groups Managed by Magnates Who Work Together in Harmony—J. Pierpont Morgan Practically Dominates Southern Lines.

The growth of the community of interest idea in the ownership of the railroads of the United States has been one of the most important features of the country's industrial development.

The Common Carrier of Atlanta, Ga., paints in its April issue a very striking grouping of the railroads included in the community of ownership. The mileage of the groups is as follows:

	Mileage.	
Vanderbilt	19,517	
Harriman	20,245	
Morgan	19,073	
Pennsylvania	18,220	
Gould	16,074	
Hill	10,373	
Belmont	4,430	
Belmont-Morgan	532	108,464
Independent		37,977

The constituent lines in the several combinations or groups are:

I—VANDERBILT GROUP.

	Miles.
New York Central lines	10,016
Delaware, Lackawanna and Western	951
Chicago and Northwestern	8,550
Total	19,517

II—MORGAN GROUP.

Southern railway	6,807
Mobile and Ohio	879
Queen and Crescent	1,115
Central of Georgia	1,835
Georgia Southern and Florida	285
Macon and Birmingham	97
Philadelphia and Reading	1,891
Lehigh Valley	1,104
Erie	2,271
Central of New Jersey	677
Atlantic Coast line	1,812
Total	19,073

III—HARRIMAN GROUP.

Illinois Central	5,000
Union Pacific	3,029
Oregon Railway and Navigation company	1,137
Oregon Short Line	1,498
Chicago and Alton	918
Southern Pacific	7,723
Kansas City Southern	833
Chicago Terminal Transfer	107
Total	20,245

IV—PENNSYLVANIA GROUP.

Pennsylvania system	10,031
Buffalo, Rochester and Pittsburg	650
West New York and Pennsylvania	633
Chesapeake and Ohio	1,476
Norfolk and Western	1,671
Baltimore and Ohio system	3,156
Long Island	603
Total	18,220

V—GOULD GROUP.

Missouri Pacific	5,326

BIG TELEPHONE TRUST.

Plan to Organize a $90,000,000 Combination.

John I. Sabin, president of the Pacific States Telephone and Telegraph company, is in New York concluding negotiations for the organization of a $90,000,000 telephone trust, according to information which came from San Francisco the other night, says a Chicago dispatch to the Philadelphia Press.

It is said that Mr. Sabin is to be the president of a telephone combination which will not only control the companies which operate in all the large cities, but will take the active management of their affairs out of the hands of local officers and operate the various companies as branches of the trust.

The American Telephone and Telegraph company is understood to have controlling interest in the stocks of the telephone companies in Chicago, New York, Philadelphia, Boston, Buffalo, St. Louis, Pittsburg, Cincinnati, Denver, Duluth, St. Paul, Minneapolis, Milwaukee, Detroit and scores of other cities. The new trust, it is estimated, will own 1,901,000 miles of wire, connecting 101,000 telephones.

THE RIVER RISING.

A Barge Stage Is Possible And Much Coal Is Awaiting Shipment.

There may be a good barge stage in the Ohio tomorrow, as heavy rains have been falling in the upper valleys for the past two days. The water was rising slowly at Pittsburg this morning, but it is not known how much water will come. It will be appreciated by the river men, as there are 5,000,000 bushels of coal loaded and a number of tows are there awaiting the rise. The marks at the wharf today registered 7 feet and stationary. The Greenwood and Lorena passed up last night, the Queen City will go up tonight and the Greenwood will go down. The towboat Hornet passed up yesterday with a tow of empties.

The government is removing the dike at dam No. 3 on the Ohio river at the foot of the trap, and pilots say that the place will prove a dangerous one to steamboats. The taking away of the dike will cause a strong current and may be the cause of accidents.

MADE MAN AND WIFE.

Miss Iva E. Campbell Wedded to Mr. Benjamin Hodgson.

Miss Iva Estella Campbell, daughter of Mr. and Mrs. Samuel Campbell, of Avondale street, was married Wednesday evening to Benjamin Hodgson, son of B. H. Hodgson, of Norton street. Rev. Clark Crawford performed the ceremony at the home of the bride's parents.

At the conclusion of the ceremony the wedding party was invited to the dining room, where an elaborate supper was spread. A crowd of young people gathered on the outside of the house and indulged in a charivari of an ear-splitting nature.

Thursday evening a reception was tendered the newly wedded couple at the home of the groom's parents, and was a most enjoyable function. Mr. and Mrs. Hodgson will reside in this city. Both are prominent in social circles.

RAILROAD COMBINES

Community of Interest Plan Extended to Nearly All the Big Lines.

UNDER SEVEN MEN'S CONTROL

Eight Great Groups Managed by Magnates Who Work Together in Harmony—J. Pierpont Morgan Practically Dominates Southern Lines.

The growth of the community of interest idea in the ownership of the railroads of the United States has been one of the most important features of the country's industrial development.

The Common Carrier of Atlanta, Ga., paints in its April issue a very striking grouping of the railroads included in the community of ownership. The mileage of the groups is as follows:

	Mileage.	
Vanderbilt	19,517	
Harriman	20,245	
Morgan	19,073	
Pennsylvania	18,220	
Gould	16,074	
Hill	10,373	
Belmont	4,430	
Belmont-Morgan	532	108,464
Independent		37,977

The constituent lines in the several combinations or groups are:

I—VANDERBILT GROUP.

	Miles.
New York Central lines	10,016
Delaware, Lackawanna and Western	951
Chicago and Northwestern	8,550
Total	19,517

CIVIL WAR CHARGES.

THE ASSAULT AT GETTYSBURG AND KENESAW MOUNTAIN.

A Veteran's Opinion of the Two Brilliant And Exciting Engagements.

"Shortly after the battle of Chickamauga," said Captain Fitch, "I was appointed chief quartermaster of the signal corps of the department of the Cumberland, stationed at Chattanooga. On taking account of the quartermaster's stores I found that I was in need of some light wagons to be used in the mountainous country, and the only way to get them was to go to Nashville and have them made, so I went to Nashville and had five light wagons made by the quartermaster's department. When I got back to Chattanooga with the wagons, I put a citizen teamster in charge of the wagons and mules.

"The teamster, being a green hand, did not know that mules would eat anything within their reach and innocently tied them to the wheels of the wagons. Not long after that I got an order to be ready to march, and on going out to inspect my outfit I found that the mules had eaten the spokes of the wheels nearly off, so that the wagons were ready to fall down of their own accord. As I could not use them I had no recourse but to drop them from my returns, and, being obliged to assign a reason for so dropping them, I gave the true one—viz, 'Eaten by mules.'

"Shortly afterward I got a letter from the quartermaster general sarcastically inquiring if Lieutenant Fitch had observed whether the mules had eaten the tires or not. I replied that I presumed they had, as they seemed to be thoroughly tired the next day. The quartermaster general wrote back, 'Any further trifling with this department on the part of Lieutenant Fitch will probably result in his being retired to private life.' Thereupon I dropped the subject, but my first report was correct."

"At Chickamauga," said the major, "Longstreet's men ran over our headquarters teams. Every mule in one of the teams went down, and the wagon stood an obstruction in the road. Five minutes later every mule was on its feet, and a wounded teamster yelled at them to pull out. They started without more ado, swept along the road after our broken regiments and, turning at just the right point, came into our new lines and stopped where the headquarters flag had been stuck in the ground. The driver reported later and drove into Chattanooga.

"One of these mules the night before had pulled the blanket off our division commander, had run over the lines of soldiers sleeping in close battle order, had raided the Confederate pickets and had returned to our bivouac under a furious fire. The men of the brigade took a solemn vow to shoot the mischievous mule at daylight, but when daylight came they had other things to shoot at, and the mule was forgotten until he came in at the head of the team attached to the headquarters wagon. Then the boys who had witnessed the charge and the escape of the driverless team counted the mule's deviltry as nothing."

"That charge of Longstreet, by the way," said the colonel, "was one of the great charges of the war, and it was as successful as any as a breaker of lines. Of course we think of Pickett's charge at Gettysburg in a class to itself, but I have often wondered whether the Union assault on the Confederate position at Kenesaw mountain June 27, 1864, should not be put in the list with the Confederate charge at Gettysburg. Pickett's charge was of course the more spectacular, and the assaulting force was more compact, but while it broke the Union line at one point it was driven back in disastrous retreat.

"The direct assault on the fortified line on Kenesaw was made by three brigades, no better troops than Pickett's Virginians, but it must be remembered that while they failed to pierce the Confederate line they held their position and did not retreat. Their loss was correspondingly as heavy as Pickett's at Gettsburg. Sherman's idea was to show his own army as well as the Confederate army that he could make a frontal attack. If the assault had been made and the assaulting column had retired, as did Pickett's column at Gettysburg, the effect on the army would not have been as it was when the regiments that led the assault clung to their position not more than 30 paces from the Confederate parapets.

"The attack failed except in that it was an illustration of the spirit of the Union troops in assault. Lee's purpose at Gettysburg was undoubtedly to drive Pickett's 16,000 men like a wedge through the Union lines. The failure of the attempt led to the retreat of the whole Confederate army. Sherman's purpose at Kenesaw was to capture the Confederate fortifications. The attack led to the retreat not of Sherman's army, but of the Confederate army, and I have always held that the ground over which the Union regiments of that day swept forward ought to be as precious to the men of McCook's, Harker's and Mitchell's brigades as is the ground at Gettysburg to the men of Pickett's brigades." — Chicago Inter Ocean.

MAY BUILD AT MONACA

Rival to the Crucible Steel Co. Is Making Arrangements for Building a Plant.

The Colonial Steel company of America is the name of the latest rival to the Crucible Steel company of America. It is the company formed by James W. Brown, formerly of Howe, Brown & Co., who recently retired from the combination. Mr. Brown will have associated with him in the new venture George A. Howe, who was secretary of Howe, Brown & Co., Limited. In the latter company, which sold its property to the crucible combine, Mr. Brown was chairman.

The Colonial Steel company of America will start with a capital of $1,000,000, which subsequently is to be increased, possibly seven fold. Papers for application for a charter will be filed at Harrisburg. Besides Mr. Brown and Mr. Howe others of the former partners of Howe, Brown & Co., Limited, are associated in the new venture. Plans for the plant of the company are being completed by a Pittsburg engineer and architect.

The new plant will likely be located at South Monaca, Pa., about 25 miles from Pittsburg on the Lake Erie railroad. An option on 150 acres of river frontage has been secured. The property is known as the Cooper farm, which is owned by a syndicate represented by H. C. Fry, former president of the National Glass company.

One bond for Eight Hundred and Sixty-four, ($864.00) Dollars, dated July 1, 1901, due July 1, 1903.

One bond for Nine Hundred Eighteen ($918.00) Dollars, dated July 1, 1901, due July 1, 1904.

One bond for Nine Hundred and Seventy-two ($972.00) Dollars, dated July 1, 1901, due July 1, 1905.

One bond for Ten Hundred Twenty-nine ($1029.00) Dollars, dated July 1, 1901, due July 1, 1906.

WEST MARKET STREET IMPROVEMENT BONDS.

One bond for One Hundred Ten ($110.00) Dollars, dated July 1, 1901, due July 1, 1902.

One bond for One Hundred Seventeen ($117.00) Dollars, dated July 1, 1901, due July 1, 1903.

One bond for One Hundred and Twenty-five ($125.00) Dollars, dated July 1, 1901, due July 1, 1904.

One bond for One Hundred and Thirty-two ($132.00) Dollars, dated July 1, 1901, due July 1, 1905.

One bond for One Hundred Thirty-nine ($139.00) Dollars, dated July 1, 1901, due July 1, 1906.

These bonds are issued in anticipation of the collection of the special assessment for the improvement of the above named streets and may be reduced in amount by the payment of assessment before the date of issue. They will bear interest at the rate of six (6) per cent per annum, payable annually, both principal and interest payable at the office of the City Treasurer.

Bidders will be required to state in writing and in figures, the gross amount they will pay for the bonds bid for in addition to the accrued interest at the date of delivery, and no bid will be accepted for less than the par and accrued interest at date of delivery.

Each proposal must be accompanied by a certified check on some national bank for two (2) per cent of the amount of the bid, check to be made payable to the order of the clerk of said city, as a guarantee that if the bid is accepted, the bonds will be promptly paid for when delivered, otherwise said deposit to be forfeited to said city.

The City Council reserves the right to reject any or all bids.

Proposals should be addressed to

J. N. HANLEY,
City Clerk.

CIVIL WAR CHARGES.

THE ASSAULT AT GETTYSBURG AND KENESAW MOUNTAIN.

A Veteran's Opinion of the Two Brilliant And Exciting Engagements.

"Shortly after the battle of Chickamauga," said Captain Fitch, "I was appointed chief quartermaster of the signal corps of the department of the Cumberland, stationed at Chattanooga. On taking account of the quartermaster's stores I found that I was in need of some light wagons to be used in the mountainous country, and the only way to get them was to go to Nashville and have them made, so I went to Nashville and had five light wagons made by the quartermaster's department. When I got back to Chattanooga with the wagons, I put a citizen teamster in charge of the wagons and mules.

"The teamster, being a green hand, did not know that mules would eat anything within their reach and innocently tied them to the wheels of the wagons. Not long after that I got an order to be ready to march, and on going out to inspect my outfit I found that the mules had eaten the spokes of the wheels nearly off, so that the wagons were ready to fall down of their own accord. As I could not use them I had no recourse but to drop them from my returns, and, being obliged to assign a reason for so dropping them, I gave the true one—viz, 'Eaten by mules.'

"Shortly afterward I got a letter from the quartermaster general sarcastically inquiring if Lieutenant Fitch had observed whether the mules had eaten the tires or not. I replied that I presumed they had, as they seemed to be thoroughly tired the next day. The quartermaster general wrote back, 'Any further trifling with this department on the part of Lieutenant Fitch will probably result in his being retired to private life.' Thereupon I dropped the subject, but my first report was correct."

"At Chickamauga," said the major, "Longstreet's men ran over our headquarters teams.' Every mule in one of the teams went down, and the wagon stood an obstruction in the road. Five minutes later every mule was on its feet, and a wounded teamster yelled at them to pull out. They started without more ado, swept along the road after our broken regiments and, turning at just the right point, came into our new lines and stopped where the headquarters flag had been stuck in the ground. The driver reported later and drove into Chattanooga.

"One of these mules the night before had pulled the blanket off our division commander, had run over the lines of soldiers sleeping in close battle order, had raided the Confederate pickets and had returned to our bivouac under a furious fire. The men of the brigade took a solemn vow to shoot the mischievous mule at daylight, but when daylight came they had other things to shoot at, and the mule was forgotten until he came in at the head of the team attached to the headquarters wagon. Then the boys who had witnessed the charge and the escape of the driverless team counted the mule's deviltry as nothing."

"That charge of Longstreet, by the way," said the colonel, "was one of the great charges of the war, and it was as successful as any as a breaker of lines. Of course we think of Pickett's charge at Gettysburg in a class to itself, but I have often wondered whether the Union assault on the Confederate position at Kenesaw mountain June 27, 1864, should not be put in the list with the Confederate charge at Gettysburg. Pickett's charge was of course the more spectacular, and the assaulting force was more compact, but while it broke the Union line at one point it was driven back in disastrous retreat.

"The direct assault on the fortified line on Kenesaw was made by three brigades, no better troops than Pickett's Virginians, but it must be remembered that while they failed to pierce the Confederate line they held their position and did not retreat. Their loss was correspondingly as heavy as Pickett's at Gettsburg. Sherman's idea was to show his own army as well as the Confederate army that he could make a frontal attack. If the assault had been made and the assaulting column had retired, as did Pickett's column at Gettysburg, the effect on the army would not have been as it was when the regiments that led the assault clung to their position not more than 30 paces from the Confederate parapets.

"The attack failed except in that it was an illustration of the spirit of the Union troops in assault. Lee's purpose at Gettysburg was undoubtedly to drive Pickett's 16,000 men like a wedge through the Union lines. The failure of the attempt led to the retreat of the whole Confederate army. Sherman's purpose at Kenesaw was to capture the Confederate fortifications. The attack let to the retreat not of Sherman's army, but of the Confederate army, and I have always held that the ground over which the Union regiments of that day swept forward ought to be as precious to the men of McCook's, Harker's and Mitchell's brigades as is the ground at Gettysburg to the men of Pickett's brigades." —Chicago Inter Ocean.

MAY BUILD AT MONACA

Rival to the Crucible Steel Co. Is Making Arrangements for Building a Plant.

The Colonial Steel company of America is the name of the latest rival to the Crucible Steel company of America. It is the company formed by James W. Brown, formerly of Howe, Brown & Co., who recently retired from the combination. Mr. Brown will have associated with him in the new venture George A. Howe, who was secretary of Howe, Brown & Co., Limited. In the latter company, which sold its property to the crucible combine, Mr. Brown was chairman.

The Colonial Steel company of America will start with a capital of $1,000,000, which subsequently is to be increased, possibly seven fold. Papers for application for a charter will be filed at Harrisburg. Besides Mr. Brown and Mr. Howe others of the former partners of Howe, Brown & Co., Limited, are associated in the new venture. Plans for the plant of the company are being completed by a Pittsburg engineer and architect.

The new plant will likely be located at South Monaca, Pa., about 25 miles from Pittsburg on the Lake Erie railroad. An option on 150 acres of river frontage has been secured. The property is known as the Cooper farm, which is owned by a syndicate represented by H. C. Fry, former president of the National Glass company.

OFFICE OF CITY CLERK,
EAST LIVERPOOL, OHIO,
May 2, 1901.

SEALED PROPOSALS will be received at this office until 12 o'clock, noon, of Thursday, June 6, 1901, for the purchase, with accrued interest at delivery, of the following street improvement bonds of said city:

PENNSYLVANIA AVENUE AND KOSSUTH STREET IMPROVEMENT BONDS.

One bond for Eight Hundred Sixteen ($816.00) Dollars, dated July 1, 1901, due July 1, 1902.

One bond for Eight Hundred and Sixty-four, ($864.00) Dollars, dated July 1, 1901, due July 1, 1903.

One bond for Nine Hundred Eighteen ($918.00) Dollars, dated July 1, 1901, due July 1, 1904.

One bond for Nine Hundred and Seventy-two ($972.00) Dollars, dated July 1, 1901, due July 1, 1905.

One bond for Ten Hundred Twenty-nine ($1029.00) Dollars, dated July 1, 1901, due July 1, 1906.

WEST MARKET STREET IMPROVEMENT BONDS.

One bond for One Hundred Ten ($110.00) Dollars, dated July 1, 1901, due July 1, 1902.

One bond for One Hundred Seventeen ($117.00) Dollars, dated July 1, 1901, due July 1, 1903.

One bond for One Hundred and Twenty-five ($125.00) Dollars, dated July 1, 1901, due July 1, 1904.

One bond for One Hundred and Thirty-two ($132.00) Dollars, dated July 1, 1901, due July 1, 1905.

One bond for One Hundred Thirty-nine ($139.00) Dollars, dated July 1, 1901, due July 1, 1906.

These bonds are issued in anticipation of the collection of the special assessment for the improvement of the above named streets and may be reduced in amount by the payment of assessment before the date of issue. They will bear interest at the rate of six (6) per cent per annum, payable annually, both principal and interest payable at the office of the City Treasurer.

Bidders will be required to state in writing and in figures, the gross amount they will pay for the bonds bid for in addition to the accrued interest at the date of delivery, and no bid will be accepted for less than the par and accrued interest at date of delivery.

Each proposal must be accompanied by a certified check on some national bank for two (2) per cent of the amount of the bid, check to be made payable to the order of the clerk of said city, as a guarantee that if the bid is accepted, the bonds will be promptly paid for when delivered, otherwise said deposit to be forfeited to said city.

The City Council reserves the right to reject any or all bids.

Proposals should be addressed to
J. N. HANLEY,
City Clerk.

BOLTON'S LAST YEAR.

The Way He Spent It Preparing For His Death.

"Billy Bolton, the Lansingburg brewer, was a very rich man and one with a host of friends," said an up state man to the New York Sun. "His brewery in Lansingburg was a profitable concern, and he practically owned about all the saloons in that town.

"One day after a consultation his physicians told him that he had Bright's disease and that he surely would not live more than a year. Billy took their word for it and made up his mind to make the fur fly while life was left. He had never traveled much, and so he decided to go around the world.

"He took with him a congenial friend and plenty of money, and away they went. They left a trail of fire and ashes through all the capitals of Europe and the queer and strange places of Asia and Africa. After nine months they came back, and Bolton brought with him the most marvelous collection of souvenirs and presents that any man not a professional collector ever brought into this country. The duties amounted to $3,000.

"Arrived in Lansingburg, Billy hired the town hall, sent his packing boxes filled with these oriental and European treasures up to the hall and had them all taken out and put on exhibition as though for a church fair. Upon each article he marked the name of some friend whom he wished to remember with a gift. There were hundreds in this category, but Billy had presents for them all.

"On the day appointed for the presentation he invited his army of friends to the town hall. To each he turned over the present selected for him, and amid the cheers of his grateful and admiring fellow townsmen the hall was stripped of its beautiful things.

"When the last present had been placed in the hands of its recipient, Billy went back to his home and lay down to die. Within the year his physicians' prophecy came true, and the town gave him the finest funeral that any man ever had."

OUR QUAIL FOR SWEDEN.

Over 5,000 American Birds to Be Shipped This Spring.

Consul Nelson, at Bergen, reports to the state department at Washington that the import of American quail into Sweden by Count Claes Lewenhaupt of Fosstorjo has awakened lively interest. More than 5,000 quail, representing a sum of about $3,500, have been ordered for the spring, and still more orders are expected. The birds will be sent in cages, 50 in each cage, constructed especially for this purpose.

The small lot of American quail which was set free on Count Lewenhaupt's estate at Claestorp last spring has endured the winter very well, and it appears that Sweden has good prospects of an increase in its game birds.

VICTIMS OF CANNIBALS.

Rev. James Chalmers and Rev. Oliver Tomkins Met an Awful Fate.

Brisbane, Queensland, May 10.—A searching party, which has returned from New Guinea, discovered the half eaten remains of the Rev. James Chalmers and the Rev. Oliver Tomkins, of the London Missionary society, and their followers, who were massacred in April by natives of Fly River, New Guinea, after a tribal fight.

Similar, but Different.

"Do you think I am capable of acting a part?" asked the stagestruck youth.

"I do," replied the busy manager, "and the farther apart we are when you act the better it will suit me."—Chicago News.

Consul Nelson, at Bergen, reports to the state department at Washington that the import of American quail into Sweden by Count Claes Lewenhaupt of Fosstorjo has awakened lively interest. More than 5,000 quail, representing a sum of about $3,500, have been ordered for the spring, and still more orders are expected. The birds will be sent in cages, 50 in each cage, constructed especially for this purpose.

The small lot of American quail which was set free on Count Lewenhaupt's estate at Claestorp last spring has endured the winter very well, and it appears that Sweden has good prospects of an increase in its game birds.

VICTIMS OF CANNIBALS.

Rev. James Chalmers and Rev. Oliver Tomkins Met an Awful Fate.

Brisbane, Queensland, May 10.—A searching party, which has returned from New Guinea, discovered the half eaten remains of the Rev. James Chalmers and the Rev. Oliver Tomkins, of the London Missionary society, and their followers, who were massacred in April by natives of Fly River, New Guinea, after a tribal fight.

Similar, but Different.

"Do you think I am capable of acting a part?" asked the stagestruck youth.

"I do," replied the busy manager, "and the farther apart we are when you act the better it will suit me."—Chicago News.

ATTRACTIONS OF Y. M. C. A. ROOMS

Great Improvements Wrought Throughout the Building In a Brief Time.

GENEROUS CITIZENS HAVE AIDED

Thorough Renovation at Considerable Cost—The Organization Prospering As Never Before—Important Plans for Good Work.

During the past two months a very noticeable activity has been apparent at the Young Men's Christian Association rooms in this city, and the change in appearance of the outside of the building seemed to warrant a closer inspection and inquiry into the work which, after being closed for some months, had apparently taken a new and very vigorous life.

It was found that the entire work was being done by donation; that, when Mr. M. C. Wright, the present general secretary, was engaged it was the opinion of the friends of the association that the rooms must be made attractive and the only practical way in which this could be attained was by donations. Mr. A. H. Bulger offered to pay for the papering and painting of the parlor and afterwards five combination drop chandeliers for parlor and hall. The D. M. Ogilvie Co. donated the cost of the papering and painting and chandelier for the reading room; W. A. Hill, paper for hall and J. Corey labor; Joseph W. Manor paper, paint and labor for office and labor of wainscoting game room; W. F. and J. T. Smith lumber for wainscoting game room; W. A. and Louis Weaver paper and labor for game room; Robert Hall, A. H. Bulger, D. M. Ogilvie Co., S. P. Ankrim, J. L. Gray, Dr. Clarke, George Heiss, J. C. Bence and John McShane inlaid linoleum for reading room; Robert Hall lumber and labor of new platform and for dropping floor in front of both and in dressing room, also cement for the floor; the S. G. Hard Co. shades for parlor and reading room. The Y. W. S. C. E. of the First Presbyterian church body Brussels carpet for parlor; W. A. Hill carpet for office; S. P. Ankrim and Enoch Elden awnings; J. V. Harris jardiniere and pedestal; J. C. Peterson palm; the Milligan Hardware and Supply company paint for exterior of building; G. T. Brunt $10 toward painting. The young men donated the money for putting down

A CORNER OF THE READING ROOM.

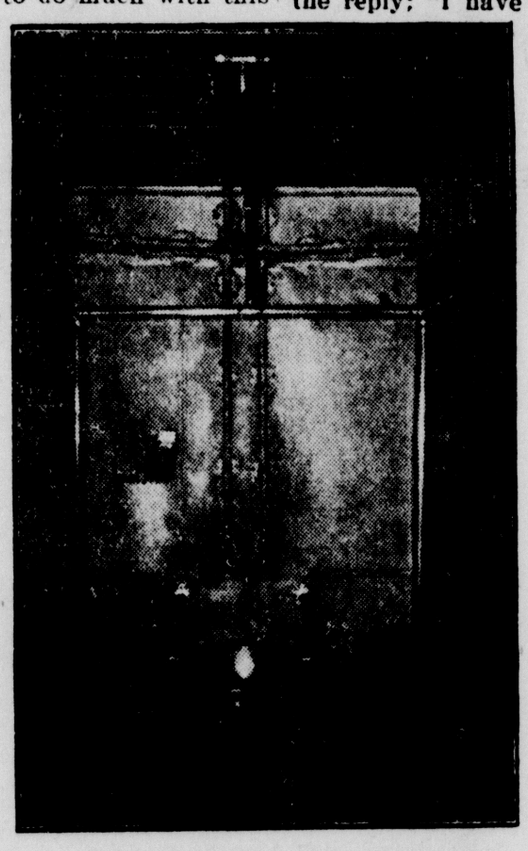
carpet in front of baths and in dressing room. From this list it will be seen that the work done has been considerable, in fact it represents about $575, and the general secretary says that there is still considerable to do, that he expects a cork carpet for the hall and already has in sight nice furniture for the parlor.

The rooms are very attractive. On account of a reputation for dirt which the baths possessed they were all thoroughly cleaned, enameled white, and the woodwork painted white and varnished and the entire locker room and bath room woodwork is now being painted the same color. This with the beautiful tile floor makes the bath rooms and accessories clean and attractive. The secretary is evidently a good housekeeper.

The reading room is well supplied with current literature, trade journals and daily papers, and, like the rest of the rooms, is kept beautifully clean.

There has been no work done in the gymnasium outside of thorough cleansing. The gym is fairly well equipped and the boys are making constant use of it. In the fall some necessary repairs will be made, but they are not extensive.

The plans for the future are still immature, but they include evening classes and a series of socials, literary and otherwise, the plan being to make the upper room a sort of social center for the young men—and their girls—during the fall and winter. The nucleus of a glee club is also in sight, and (probably) an orchestra, but the secretary is too busy filling up the membership list to do much with this



THE NEEDLE BATH.

at present.

The association, whatever its mistakes in the past, certainly deserves the hearty support of the public at the present time, and the friends of the movement look forward to a time when East Liverpool will have an association building fully equipped for the needs of the town and doing a vigorous work among the young men—especially the homeless young men of town.

A GLYMPSE OF THE GYMNASIUM.

That the present general secretary is the "right man in the right place" is confidently believed by the board of directors and by those who have met him. He has been here but two months, and, if his past is an earnest of his future work, the fact is proven. With a strong personality he impresses those with whom he is brought in contact, and not only the young men, but the boys speak of him in the warmest terms. His "Boys' Band" has grown from 16 to 49 in four weeks and 12 of the boys have professed conversion in the past six weeks; 43 men, in the Sunday meetings, have signified a desire to lead a better life. Considering the fact that the work had to be built anew, the result so far has been marvelous, especially when it is considered that $3,265 was raised in two days and collected in the next two. Citizens must have an unbounded confidence in the future of the work to make such a subscription.

Tale of a Frugal Bishop.

"There used to be in a city in which I lived," said a Cleveland man, "a certain bishop who, while possessed of the highest principles and whose aims and ambitions in life were of the highest character, at the same time united with these a penuriousness in money matters that caused innumerable stories illustrative of this failing to be tacked upon him. One of these related to a certain church conference which the bishop and other dignitaries of the church at one time attended.

"At one of the meetings the bishop in endeavoring to open a letter neatly with his penknife was so unfortunate as to allow the latter to slip and to cut a finger severely. The injured member bled profusely, and a hasty search for court plaster ensued. There being none forthcoming, a clergyman standing by fished out his cardcase and, extracting from it a 5 cent stamp, the smallest priced stamp he had, offered it to the bishop to use as a substitute for the much needed court plaster.

"The bishop accepted it gratefully and in his turn took out his own card case. In it he placed the 5 cent stamp and then, producing a 1 cent specimen of his own, he pasted it over the still bleeding wound."—New York Tribune.

Mulcting Wagner.

Wagner when a young man wrote a sonata which had a fair success, but in after life he made every effort to suppress it. Going to the publisher, he said, "Have you any copies of that miserable thing still unsold?" "Yes," was the reply; "I have quite a number of them in stock." "Send them to me at once, with a bill," said the composer. A thousand copies were soon afterward delivered at his door. The bill was a big one, but it was paid, somewhat grudgingly, and Wagner thought he had done with the thing. What was his surprise, then, at receiving two or three months later on another consignment, this time of 500 copies.

"I thought you had only a thousand of these things," he protested. "That was all I had in stock," explained the dealer, "but these have been returned by my agents, to whom I wrote that you wished to have the sonata suppressed." Wagner winced, but there was nothing for it but to pay the bill. And thereafter whenever business was dull with this crafty publisher a few hundred copies of the sonata would be struck off on shopworn paper and delivered at the composer's door, with a memorandum to the effect that they had just come back from remote places where they had been sent for sale.

John Allen's Pair.

When the house voted to prohibit liquor selling in army canteens, John Allen of Mississippi was not recorded. Some good women of Mississippi noted the fact that he did not vote and called on him for an explanation, knowing that Mr. Allen had been at one time quite active in the Congressional Temperance society. Mr. Allen replied that he was paired on the canteen question. "You see, ladies," he said, "the situation was this: My wife thinks very much as you do about this legislation in regard to the canteen. I have some doubts as to whether congress will really promote temperance among soldiers in this way. So I paired my judgment with my wife's conscience and decided not to vote."—St. Louis Globe-Democrat.

A BATTLE ROYAL FOUGHT BY GIANTS OF WALL STREET

Yesterday an Eventful and Trying Day in the Stock Market.

A PANIC ON THE EXCHANGE

The Cornering of Northern Pacific the Impelling Cause of the Crisis.

THE GAMBLERS WERE HIT HARD.

Many In Obulent Circumstances Reduced to Penury In About 15 Minutes—Many Were Outside People Who Had Invested Their Small Hordings—Hysterical and Fainting Women Driven Away in Cabs. Bankers Finally Tried to Protect the Market by Loaning $16,000,000 at 6 Per Cent—$25,000,000 to $30,000,000 Loaned on Private Account at That Rate—The Situation Thursday Was Due to Struggle For Control of the Northern Pacfic, Large Blocks of Which Stock Were Under Speculative Control by a Third Party—Each Side Was Afraid to Loan to the Shorts.

New York, May 10.—Last night closed upon the eventful trying day in the stock market without definite settlement as to the Northern Pacific, the central figure in the fierce struggle. It was anticipated that there would be an agreement for settlement with the shorts, but it was evidently not finally concluded. Shortly after the market closed it was semi-officially announced that a basis of settlement had been practically agreed upon and that it would be clinched before nightfall. About 5 o'clock, however, Kuhn, Loeb & Co., whom the street accepts as masters of the situation, announced that nothing could or would be said as to the stock that day. There was a spirit of compromise and conciliation in the air, but until it should bear the fruit of definite settlement the situation in Northern Pacific was felt to be a menace to the whole market. Kuhn, Loeb & Co., and the men enlisted with them in the Harriman syndicate, seemed disposed to a reasonable peace, and on the outside the strongest influences of the financial world were moving determinedly for a truce that will protect the market, avert panic and restore confidence. In addition to an arrangement with the shorts, it is believed the settlement of the fight will also involve the future relations of the Union Pacific, Northern Pacific, Great Northern and Burlington. Men close to the Harriman-Kuhn, Loeb & Co. group insisted that the deal for the sale of the Burlington to the Great Northern would be carried through. Granting that Harriman-Kuhn, Loeb & Co. and their associates are dominant in Northern Pacific, it is assumed that they will claim and win a voice in Burlington future. It is believed that the settlement with the shorts in Northern Pacific will be made at 200 or under. Kuhn, Loeb & Co. say they deprecate the policy of the third interest in taking enormous profits from the shorts, and their friends avow regret that outsiders suffered. A settlement with the shorts would clear the situation materially, but there would still remain the greater problem in railroad politics of the future of the road itself. On that point the following statement from a member of the Harriman syndicate is significant:

"Northern Pacific is in control of Kuhn, Loeb & Co. The only thing that can affect this control will be the possible inability of certain people to deliver the stock to them. J. P. Morgan & Co. are in the same position."

Some Details of the Market.

New York, May 10.—The threatening condition of affairs which developed in the stock market Wednesday culminated Thursday in a severe twist in Wall street. The corner in Northern Pacific was the impelling cause of the crisis, owing to the threat contained in the ruinous terms forced upon the shorts in that stock that disastrous liquidation would be forced at other points. Strenuous efforts were made by powerful financial interests in the country to avert the threatened trouble, and almost unlimited supporting orders were placed in the market for the opening, in anticipation of the heavy selling which was to come. Reassuring expressions were disseminated from the principal parties in interest to the Northern Pacific controversy, designed to dissuade alarmed holders from precipitate selling of their stocks, but all these precautions proved unavailing in face of the unmistakable index afforded by the price of Northern Pacific that the common in that stock was intact and therefore that the bitter controversy over the control of the property was still unsettled.

When Northern Pacific began selling at 200 and 300 and 500, and even as high as 700 on regular transactions and at 1,000 for cash, the appearing of the largest shortages at those terms weakened the whole market, and prices crumbled away with the utmost violence during the second hour.

Reckless Regard of Price.

The volume of blocks unloaded and the reckless disregard of the price which they brought were without precendent in the memory of the oldest trader. Before any check had come to the tremendous liquidation Delaware and Hudson had lost 59 points, Manhattan 39, Union Pacific 38, Rock Island 35½, Atchison 32½, St. Paul 30½, Missouri Pacific 32 and a long list of other stocks from 5 to 30 points. The predominance of the Northern Pacific corner on the situation was demonstrated by the quick rally in the market when announcement was made that the contending interests in Northern Pacific would not require deliveries of stock Thursday. Pretty broad intimations were also thrown out that such delivery would not be required so long as present conditions last. The exemption of Northern Pacific from the usual clearing house requirements of delivery still further allayed apprehension.

The quotations of the stock fell back to 300, both for cash and on regular transactions, after these annauncements, and there was a scramble to cover on the part of professional shorts. There were large numbers of bargain hunters also in the market. The combined effect of this buying was reflected in rallies extending in Delaware and Hudson to 55, Manhattan 34, Rock Island 33, Atchison 30, United States Steel preferred 20, actually carrying the stock 2⅛ points over Wednesday's close; Missouri Pacific 28, Louisville 23, Amalgamated Copper 22, St. Paul 21, and a large number of other stocks from 5 to 20 points. This rally was not fully held. The market became much quieter during the latter part of the day, but the extreme feverishness and nervousness continued. Even the action of the bankers by agreement in lending $16,000,000 on the exchange at 6 per cent failed to relieve the close from such very erratic movements and renewed bad breaks in prices. The extension of shrinkage in the value of securities and the corresponding increase in credits made money very stringent, and 60 per cent was bid at one time by those seeking accommodation. The action of the associated banks forced the rate down to 6 per cent. The feverish tone of the market at the close and the fact that the controversy which has precipitated the trouble was still unsettled, left the feeling of uneasiness retaining large force in the financial district.

Heavy Loans by Individual Banks.

There were very heavy loans placed also by individual banks, ranging in some cases to $25,000,000 and $30,000,000. Through the early part of the day bankers enacted the market rate for loans. But with the growing need to suppress the panic they offered the rate down to 6 per cent. Old customers of the banks were not charged over 6 per cent at any time, but when outsiders came in asking for new loans the law of supply and demand was allowed to run its course. The state of excitement was very apparent all through the financial district during the period of the panic, but there were few sensational scenes. Now and then a white faced woman would peer from a cab outside a broker's office and would be driven off in a fainting condition after receiving a message from the interior. Wherever any near approach could be made to a ticker or to a board on which quotations were posted there were great throngs of excited spectators scrambling for a view of the course of the market. But the real stress of the occasion came upon men who were shut up in either their private offices or those of brokers who were struggling and even fighting on the floor of the exchange. The outside country could obtain little idea of the actual occurrences on the exchange, as the brokers are remote from the public galleries in their temporary quarters in the Produce Exchange and are half shut off from view by the 16 foot wall. In the brokers' offices sat many men who were reduced to absolute ruin as a result of about 15 minutes' proceedings on the exchange. Some of these have been made opulent within a few weeks past as a result of the unparalleled rise of prices. With the true gambling spirit they have replaced all their winnings in new ventures on each successful turn. Thursday's drop therefore wiped them all out. In many cases one could see the gambler's fortitude with which the chances of gain were accepted. But the glittering attraction of this market has brought into it a constantly increasing assortment of more staid and inexperienced speculators; men and women who have brought long standing hordes from secret places and from saving bank deposits with the determination to make one successful stroke and then retire with the proceeds. The demonstrations from this class, which includes many women speculators, furnished the hysterical scenes and sensations of the day.

The Casualties Were Great.

The casualties were great and the field of battle was strewn with the wounded and may be with the dying. But of actual fatalities none was recorded of importance during the day. During the height of the panic rumors of insolvencies were bandied be reported. But no confirmations could be had of the intimations of financial wrecks.

The indications at the close of the day were strong that the principal damage had been wrought upon the speculative class or upon holders of securities on margin for whatever purpose.

Announcements by J. P. Morgan & Co. and Fuhn, Loeb & Co., who respectively represent the two contesting parties in Northern Pacific, that they would not require deliveries of the stock Thursday, meant a respite of one day at least from ruin for the shorts in the stock. Later in the day Street & Noron announced that they also would not require deliveries of the stock. This firm has been credited with acting for James R. Keene and bought 200,000 shares of Northern Pacific on Monday last, loaning 150,000 shares that night and calling in the greater part of it the next day, thus disclosing the corner in the stock. The theory that Mr. Keene's campaign had been directed towards a squeeze of the shorts was somewhat shaken by this leniency towards his victims.

Selling of bonds to protect stock holdings made that department of the market weak in sympathy with stocks.

U. S. new 4s advanced ¼ on the last call.

He Hacked Off His Leg.

Caught in a bear trap on the banks of the Athabasca, near Milford, Me., John McLeod, a lumber scaler, was obliged to take out his jackknife and cut off his leg. The trap was too heavy to move and was sprung in such a way that he could not reach over and release it. He was far from any human being, and the only way out of it seemed to be to cut off the leg.

That was done easily, because the leg upon which he operated was of wood. But when he stumped back to camp it made him mad to hear the jeers of the French-Canadian cook of the lumber crew.

"Why you no take off you whole wood laig, ah? You get out um thrap and no spile you wood laig 'tall, ah?"

Such a way out of his difficulty had not occurred to McLeod before.

Skill In Throwing Off Mail Bags.

The busiest clerk in any crew or car is the one who is detailed to receive and throw off the sacks and pouches. To lift a heavy mail sack and throw it from a car moving at the rate of a mile a minute is a matter of good target shooting. "Looks easy enough," commented one of the veteran clerks at the letter case, "and it does seem as if a man should be able to hit a station platform without much difficulty, but you see that station is passed and gone in about one second. Then, the suction of a train running at this speed is something terrific, and until the knack of throwing a pouch is learned a man is liable to feed the wheels with a few letters."—Saturday Evening Post.

Origin of the Word Sterling.

The origin of the word "sterling" is very curious. Among the early minters of coin in northern Europe were the dwellers of eastern Germany. They were so skillful in their calling that numbers of them were invited to England to manufacture the metal money of the kingdom. The strangers were known as "easterlings." After a time the word became "sterling," and in this abbreviated form it has come to imply what is genuine in money, plate or character.

Quits.

He—You women have such a ridiculous habit of screaming "Oh!" on every occasion.

She—And you men have such a ridiculous habit of saying "I" on every occasion.—Indianapolis Press.

A BATTLE ROYAL FOUGHT BY GIANTS OF WALL STREET

Yesterday an Eventful and Trying Day in the Stock Market.

A PANIC ON THE EXCHANGE

The Cornering of Northern Pacific the Impelling Cause of the Crisis.

THE GAMBLERS WERE HIT HARD.

Many In Obulent Circumstances Reduced to Penury In About 15 Minutes—Many Were Outside People Who Had Invested Their Small Hordings—Hysterical and Fainting Women Driven Away in Cabs. Bankers Finally Tried to Protect the Market by Loaning $16,000,000 at 6 Per Cent—$25,000,000 to $30,000,000 Loaned on Private Account at That Rate—The Situation Thursday Was Due to Struggle For Control of the Northern Pacfic, Large Blocks of Which Stock Were Under Speculative Control by a Third Party—Each Side Was Afraid to Loan to the Shorts.

New York, May 10.—Last night closed upon the eventful trying day in the stock market without definite settlement as to the Northern Pacific, the central figure in the fierce struggle. It was anticipated that there would be an agreement for settlement with the shorts, but it was evidently not finally concluded. Shortly after the market closed it was semi-officially announced that a basis of settlement had been practically agreed upon and that it would be clinched before nightfall. About 5 o'clock, however, Kuhn, Loeb & Co., whom the street accepts as masters of the situation, announced that nothing could or would be said as to the stock that day. There was a spirit of compromise and conciliation in the air, but until it should bear the fruit of definite settlement the situation in Northern Pacific was felt to be a menace to the whole market. Kuhn, Loeb & Co., and the men enlisted with them in the Harriman syndicate, seemed disposed to a reasonable peace, and on the outside the strongest influences of the financial world were moving determinedly for a truce that will protect the market, avert panic and restore confidence. In addition to an arrangement with the shorts, it is believed the settlement of the fight will also involve the future relations of the Union Pacific, Northern Pacific, Great Northern and Burlington. Men close to the Harriman-Kuhn, Loeb & Co. group insisted that the deal for the sale of the Burlington to the Great Northern would be carried through. Granting that Harriman-Kuhn, Loeb & Co. and their associates are dominant in Northern Pacific, it is assumed that they will claim and win a voice in Burlington future. It is believed that the settlement with the shorts in Northern Pacific will be made at 200 or under. Kuhn, Loeb & Co. say they deprecate the policy of the third interest in taking enormous profits from the shorts, and their friends avow regret that outsiders suffered. A settlement with the shorts would clear the situation materially, but there would still remain the greater problem in railroad politics of the future of the road itself. On that point the following statement from a member of the Harriman syndicate is significant:

"Northern Pacific is in control of Kuhn, Loeb & Co. The only thing that can affect this control will be the possible inability of certain people to deliver the stock to them. J. P. Morgan & Co. are in the same position."

Some Details of the Market.

New York, May 10.—The threatening condition of affairs which developed in the stock market Wednesday culminated Thursday in a severe twist in Wall street. The corner in Northern Pacific was the impelling cause of the crisis, owing to the threat contained in the ruinous terms forced upon the shorts in that stock that disastrous liquidation would be forced at other points. Strenuous efforts were made by powerful financial interests in the country to avert the threatened trouble, and almost unlimited supporting orders were placed in the market for the opening, in anticipation of the heavy selling which was to come. Reassuring expressions were disseminated from the principal parties in interest to the Northern Pacific controversy, designed to dissuade alarmed holders from precipitate selling of their stocks, but all these precautions proved unavailing in face of the unmistakable index afforded by the price of Northern Pacific that the common in that stock was intact and therefore that the bitter controversy over the control of the property was still unsettled.

When Northern Pacific began selling at 200 and 300 and 500, and even as high as 700 on regular transactions and at 1,000 for cash, the appalling possibilities of the forced covering of the largest shortages at those terms weakened the whole market, and prices crumbled away with the utmost violence during the second hour.

Reckless Regard of Price.

The volume of blocks unloaded and the reckless disregard of the price which they brought were without precendent in the memory of the oldest trader. Before any check had come to the tremendous liquidation Delaware and Hudson had lost 59 points, Manhattan 39, Union Pacific 38, Rock Island 35½, Atchison 32½, St. Paul 30½, Missouri Pacific 32 and a long list of other stocks from 5 to 30 points. The predominance of the Northern Pacific corner on the situation was demonstrated by the quick rally in the market when announcement was made that the contending interests in Northern Pacific would not require deliveries of stock Thursday. Pretty broad intimations were also thrown out that such delivery would not be required so long as present conditions last. The exemption of Northern Pacific from the usual clearing house requirements of delivery still further allayed apprehension.

The quotations of the stock fell back to 300, both for cash and on regular transactions, after these annauncements, and there was a scramble to cover on the part of professional shorts. There were large numbers of bargain hunters also in the market. The combined effect of this buying was reflected in rallies extending in Delaware and Hudson to 55, Manhattan 34, Rock Island 33, Atchison 30, United States Steel preferred 20, actually carrying the stock 2⅛ points over Wednesday's close; Missouri Pacific 28, Louisville 23, Amalgamated Copper 22, St. Paul 21, and a large number of other stocks from 5 to 20 points. This rally was not fully held. The market became much quieter during the latter part of the day, but the extreme feverishness and nervousness continued. Even the action of the bankers by agreement in lending $16,000,000 on the exchange at 6 per cent failed to relieve the close from such very erratic movements and renewed bad breaks in prices. The extension of shrinkage in the value of securities and the corresponding increase in credits made money very stringent, and 60 per cent was bid at one time by those seeking accommodation. The action of the associated banks forced the rate down to 6 per cent. The feverish tone of the market at the close and the fact that the controversy which has precipitated the trouble was still unsettled, left the feeling of uneasiness retaining large force in the financial district.

Heavy Loans by Individual Banks.

There were very heavy loans placed also by individual banks, ranging in some cases to $25,000,000 and $30,000,000. Through the early part of the day bankers enacted the market rate for loans. But with the growing need to suppress the panic they offered the rate down to 6 per cent. Old customers of the banks were not charged over 6 per cent at any time, but when outsiders came in asking for new loans the law of supply and demand was allowed to run its course. The state of excitement was very apparent all through the financial district during the period of the panic, but there were few sensational scenes. Now and then a white faced woman would peer from a cab outside a broker's office and would be driven off in a fainting condition after receiving a message from the interior. Wherever any near approach could be made to a ticker or to a board on which quotations were posted there were great throngs of excited spectators scrambling for a view of the course of the market. But the real stress of the occasion came upon men who were shut up in either their private offices or those of brokers who were struggling and even fighting on the floor of the exchange. The outside country could obtain little idea of the actual occurrences on the exchange, as the brokers are remote from the public galleries in their temporary quarters in the Produce Exchange and are half shut off from view by the 16 foot wall. In the brokers' offices sat many men who were reduced to absolute ruin as a result of about 15 minutes' proceedings on the exchange. Some of these have been made opulent within a few weeks past as a result of the unparalleled rise of prices. With the true gambling spirit they have replaced all their winnings in new ventures on each successful turn. Thursday's drop therefore wiped them all out. In many cases one could see the gambler's fortitude with which the chances of gain were accepted. But the glittering attraction of this market has brought into it a constantly increasing assortment of more staid and inexperienced speculators; men and women who have brought long standing hordes from secret places and from saving bank deposits with the determination to make one successful stroke and then retire with the proceeds. The demonstrations from this class, which includes many women speculators, furnished the hysterical scenes and sensations of the day.

The Casualties Were Great.

The casualties were great and the field of battle was strewn with the wounded and may be with the dying. But of actual fatalities none was recorded of importance during the day. During the height of the panic rumors of insolvencies were bandied about more quickly than they could be reported. But no confirmations could be had of the intimations of financial wrecks.

The indications at the close of the day were strong that the principal damage had been wrought upon the speculative class or upon holders of securities on margin for whatever purpose.

Announcements by J. P. Morgan & Co. and Fuhn, Loeb & Co., who respectively represent the two contesting parties in Northern Pacific, that they would not require deliveries of the stock Thursday, meant a respite of one day at least from ruin for the shorts in the stock. Later in the day Street & Noron announced that they also would not require deliveries of the stock. This firm has been credited with acting for James R. Keene and bought 200,000 shares of Northern Pacific on Monday last, loaning 150,000 shares that night and calling in the greater part of it the next day, thus disclosing the corner in the stock. The theory that Mr. Keene's campaign had been directed towards a squeeze of the shorts was somewhat shaken by this leniency towards his victims.

Selling of bonds to protect stock holdings made that department of the market weak in sympathy with stocks.

U. S. new 4s advanced ¼ on the last call.

He Hacked Off His Leg.

Caught in a bear trap on the banks of the Athabasca, near Milford, Me., John McLeod, a lumber scaler, was obliged to take out his jackknife and cut off his leg. The trap was too heavy to move and was sprung in such a way that he could not reach over and release it. He was far from any human being, and the only way out of it seemed to be to cut off the leg.

That was done easily, because the leg upon which he operated was of wood. But when he stumped back to camp it made him mad to hear the jeers of the French-Canadian cook of the lumber crew.

"Why you no take off you whole wood laig, ah? You get out um thrap and no spile you wood laig 'tall, ah?"

Such a way out of his difficulty had not occurred to McLeod before.

Skill In Throwing Off Mail Bags.

The busiest clerk in any crew or car is the one who is detailed to receive and throw off the sacks and pouches. To lift a heavy mail sack and throw it from a car moving at the rate of a mile a minute is a matter of good target shooting. "Looks easy enough," commented one of the veteran clerks at the letter case, "and it does seem as if a man should be able to hit a station platform without much difficulty, but you see that station is passed and gone in about one second. Then, the suction of a train running at this speed is something terrific, and until the knack of throwing a pouch is learned a man is liable to feed the wheels with a few letters."—Saturday Evening Post.

Origin of the Word Sterling.

The origin of the word "sterling" is very curious. Among the early minters of coin in northern Europe were the dwellers of eastern Germany. They were so skillful in their calling that numbers of them were invited to England to manufacture the metal money of the kingdom. The strangers were known as "easterlings." After a time the word became "sterling," and in this abbreviated form it has come to imply what is genuine in money, plate or character.

WILSON WAS ROBBED

Secretary of Agriculture Lost His Pocket Book to a Western Thief.

MAN WHO GOT IT CAUGHT

The Purse Recovered—Another Member of Presidential Party Had Like Experience—President Reviewed Floral Parade at Los Angeles.

Los Angeles, Cal., May 10.—The president and members of his party returned in their train last night and were to leave about 3 o'clock today for Delmonte, where they will spend Sunday. Stops were to be made on the way at Ventura, Santa Barbara and San Luis Obispo.

From a broad, blue canopied pavilion, surrounded by the members of his cabinet, the governor of Ohio and notables from many states, President McKinley Thursday reviewed the floral parade of the Los Angeles carnival. There were enormous crowds many coming from neighboring towns.

Mrs. McKinley did not witness the show, but she drove along Briadway and received the plaudits of the multitude just before the procession appeared. The president rode at the head of the parade in a carriage drawn by six spirited white horses with yellow satin harness. At the head of each horse walked a Spanish cabillero in green velvet and much gold braid. The carriage was a mass of white carnations and yellow coreopisis blossoms. A troop of cavalry, with yellow horse hair plumes waving above their helmets and wreaths of flowers across their shoulders, and blanke trolls of red carnations behind their saddles, headed by a band playing the Star Spangled Banner, preceded the carriage of the chief magistrate to the reviewing stand. As each carriage reached the reviewing stand the ladies in it arose and smilingly saluted the president with deep courtesies. The president was kept on his feet most of the time returning these greetings. He apparently enjoyed the experience hugely. Each lady carried a bag of rose leaves for use as confetti, and after saluting the president she threw a handful of the soft petals into his box. Before the parde was over he was ankle deep in rose leaves.

In the morning, previous to the floral parade, the president and his party were driven through the resident section of Los Angeles. In the afternoon the ladies of the president's party went to Passadena and took a drive there, while the president made a trip to the National Soldiers' home near Santa Monica. It is about 18 miles distant and he made the journey in electric cars. About 3,000 of the president's old comrades of the Civil War greeted him there. The old soldiers gave the president a remarkable demonstration. He was introduced by the governor at the home and made a speech.

Considerable excitement was caused by the discovery after the speaking that a pickpocket who had been at work in the crowd had relieved Secretary Wilson and Colonel Charles A. Moore of their pocket books. Later the thief was arrested. Several pocketbooks were found on his person, a gold nugget that Mr. Moore's son had obtained at the Congress mine in Arizona, and Secretary Wilson's pocketbook, which contained $175. The thief proved to be a pickpocket well known to the police.

Upon his return to Los Angeles late in the afternoon the president received Governor Nash and the Ohio congressional delegation at the hotel. There was no public function in the evening. The president and Mrs. McKinley dined at the residence of Homer Laughlin.

RESIGNATION ACCEPTED.

Heresy Charges Were Not Pressed Against Gilbert.

Chicago, May 10.—Heresy charges will not be established against Prof. George H. Gilbert, of Chicago Theological seminary, but he will no longer be connected with that institution. His resignation, which was tendered more than a year ago, was accepted by the board of of directors of the seminary. He gets half pay for one year. No action was taken on the heresy charge. It was not mentioned in the report made public by the board of directors, which is as follows:

"Your committee to whom was referred the resignation of Prof. George H. Gilbert respectfully recommends that the resignation be accepted as on the whole for the best interests of Prof. Gilbert and the seminary.

"In taking this action we desire to place on record our sense of appreciation of the eminent ability of Prof. Gilbert in the line of study he has made his own, his reverent spirit, his unaffected piety, his whole-hearted devotion to his work, his conscientious loyalty to truth as it has been permitted to him."

SOME NEWS IN BRIEF.

William Libengood, of Chestnut ridge, Westmoreland county, went insane and tried to kill his family.

Captain John F. Merriam was fatally stricken with paralysis during the excitement in a Wheeling bucket shop. He died two hours after the stroke.

The smallpox quarantine of Cumberland against the infected district of Bedford county, Pa., is being made more rigid. Mayor Warren C. White has ordered guards placed on the Valley road, the Bedford road and the Baltimore pike.

A meteor fell near Hyndman, Pa., and exploded when within 200 feet of the ground. Windows in the upper part of the town were rattled, and the explosion was heard several miles. The explosion accurred a short distance above the Close planing mill.

The new Cumberland Presbyterian church at Bentleyville, Pa., has been rebuilt and made almost new and has been rededicated. Among those taking part was the Rev. W. F. Silveus, of Pittsburg.

WARNED BY A BISHOP.

Gambling, Whether at the Club or in Stock Market, Leads to Downfall, Said Lawrence.

Boston, May 10.—"What will you give," asked Bishop Lawrence at the diocesan convention here, "for the future of the boy whose pin money is the gain at his father's game at the club?"

The bishop was uttering a solemn warning against national sins. He said:

"What we have got to keep ever before us is this, that if this nation is to be a moral force, if it is to have character, if, indeed, it is to survive at all, the spiritual powers must keep pace with the material increase. The fundamental virtues—truth, honesty, purity, obedience and charity—must be in control. The giant without the power of self-mastery will be the cause of his own downfall.

"One has only to listen for a moment to the shouts in the stock market during the past few weeks to be impressed with the danger in which our young men and women, our boys and girls, stand—the temptation to gamble, to get something for nothing, to try to make money fast, to hazard what is of value simply for the pleasure of the hazard. You see that I am not drawing fine distinctions, much less am I making the stock market the scapegoat for an increasing popular danger and vice."

After discussing gambling the bishop animadverted on impure literature. He said:

"The disintegration of mind and character that takes place in a young woman who goes to doubtful plays and reads doubtful novels unfits her for worship and for high and enobling thoughts."

APPEAL TO CATHOLICS.

Asked to Help the Chuch and Members at Jacksonville, Fla.

Jacksonville, Fla., May 10.—Right Rev. John Moore, bishop of St. Augustine, and Very Rev. William J. Kenny, vicar general of the diocese, issued an appeal to the Roman Catholic people of the United States and Canada, calling upon them to aid the Catholics of this place. The appeal recites the destruction of the church of the Immaculate Conception, the only one in the city; the parochial residence, St. Mary's orphanage and St. Joseph's convent, representing a total loss of about $125,000, and stated that today the Catholics of this city find themselves witnout a place to worship in; without a home for the priests; without a home for the sisters, and without a home for the orphans or a school for the children, and that in view of the utter impoverisnment and destitution of the Catholics here, unless they receive help from the outside Catholic world, it will be impossible to continue the work of Catholic progress of this community.

They called upon the Catholic people of the United States to help them out in this greatcalamity, and asked that contributions be sent to Very Rev. William J. Kenney, vicar general of this diocese, Jacksonville, Fla.

THE DEMAND ON CHINA.

Indemnity Claim of 450,000,000 Taels Was to Be Presented.

Pekin, May 10.—An indemnity claim of 450,000,000 taels was to be presented to the Chinese plenipotentiaries last evening. Official Chinese throughout the empire had been communicating with the court and giving advice. Most of them seemed to favor a loan guaranteed by the foreign powers. Others, prominent among whom is Chang Chi Tung, believed in raising the money in every possible way without a loan, and in paying off the entire demand within five years.

The court considered methods of raising 20,000,000 extra annually and provisionally approves the plan, but the Chinese plenipotentiaries have instructions to obtain a reduction of the indemnity demand as far as possible.

Whatever the final demands of the powers may be it was not believed that the opposition will be much more than a matter of form.

The ministers of the powers met Thursday morning and decided that the Chinese should be given to understand that the amount did not constitute the claim, but was the total of the expenses, including private claims considered fair, and was meant more to obtain an opinon from official sources as to China's ability to pay and also as to what means she would employ.

POWER OF IMAGINATION.

A Druggist's Story of How It Worked In One Case.

"The power of imagination," said a New York druggist, "is past comprehension. Not long since a domestic in the employ of a prominent family came into the store in great haste with a prescription which called for two grains of morphine in two ounces of aqua pura—that is, distilled water—the accompanying direction reading, 'A teaspoonful every hour until the pain is allayed.' The patient for whom it was intended was the head of the family, who was suffering from a severe attack of nervous neuralgia.

"Now, it so happened that the family physician who had written the prescription was behind the counter when the messenger arrived, having dropped in, as was his wont, on the way to his office. While I was putting up the prescription we chatted and laughed and joked and passed the time of day as only professional men are capable of doing. I filled the bottle, corked it carefully and labeled it properly, and when the retreating form of the domestic had disappeared out of the store door returned to my companionable physician visitor. As I did so I saw to my amazement the two grains of morphine reposing upon the prescription scales.

"'Doctor,' I ejaculated, 'I've given that girl nothing but distilled water. The morphine is here; look at it. What shall I do?'

"'Do?' he replied, with admirable sang froid. 'Do? Why, nothing at all. I'll wager you that the aqua pura will work as well without the opiate as with it.'

"'Agreed,' said I. And do you know," concluded the pharmacist, "the doctor was right, and the patient with the nervous neuralgia—an exceptionally intelligent and college bred man—was sleeping as peacefully as a babe after the second dose of the 'mixture.' Faith is everything where medicine is concerned."—Exchange.

STALKED BY VULTURES.

While a Man Was Trailing a Buck the Birds Followed the Man.

I met with a curious and not altogether pleasant experience, writes an Anglo-Indian correspondent who has done a good deal of large and small game shooting in India, when I was one day stalking a black buck. Between me and my quarry lay a large flat field of black cotton soil bordered by a very low, straggling and thinly growing hedge of small babul trees. My only way to get a shot was to cross this, keeping the bushiest tree between me and the buck, who had not much to browse on and was therefore seldom motionless. I proceeded to do the hundred yards on the flat of my stomach. This on loose, hard baked black cotton soil was no joke. I pushed my rifle on ahead; then, wriggling past it until the muzzle was near my knee, I would pass it on in front again, and so on.

Progress was slow, and I was so absorbed that I failed to observe shadows crossing and recrossing my path and circling round until I had gone some 50 yards. Then the whirring of wings attracted my ears, and almost at the same moment a vulture landed on the ground not 20 yards away. I looked up. The air was alive with these repulsive looking birds. Then it flashed across me that I was being stalked! Doubtless these birds were attracted by my extraordinary method of procedure and mistook me for a wounded or dying man making a final effort to reach some shady spot. This was especially possible, as the experience occurred in a famine district where deaths by the wayside were not infrequent. By looking up I had evidently shown myself to the buck, for he was now off at full tilt. I therefore took pot shot at the vulture at 20 yards, but did not allow for the sighting sufficiently and missed him. The thought of being waited for by a flock of vultures while very much alive and well was, to say the least, uncanny.—Pall Mall Gazette.

Burden Bearers of the East.

In the east the camel today, as in the days of Solomon, is the principal beast of burden in peace and in war. Across the pitiless desert he strides, his great pack nodding as he swings along. Down the old, old trail that winds through the hills of Lebanon, blinking, they come in pairs, bringing cedars to the sea. But the most remarkable of all freighters is the eastern hamal, the human burden bearer. All or nearly all the freight of Constantinople is handled by the hamal. He wears on his back a regular pack saddle, thin at the top, where it rests on his shoulders, and thick at the bottom, where it ends at his hips. A broad band circles his forehead, and when he leans forward the saddle presents a flat, level surface.—Munsey's Magazine.

Comparing Notes.

Mrs. Slowboy—My husband's so lazy that if it wasn't for me I don't believe he would get up in time to go to bed.

Mrs. Rounder—My husband's different. He scarcely goes to bed in time to get up.—Chicago News.

When Lot's wife was turned to salt he probably started to look for a fresh one.—Kansas City Star.

LULLABY.

We've wandered all about the upland fallows,
We've watched the rabbits at their play,
But now good night, goodby to soaring swallows,
Now good night, goodby, dear day.

Poppy heads are closing fast, pigeons circle home at last;
Sleep, liebchen, sleep, the bats are calling;
Pansies never miss the light, but sweet babes must sleep at night;
Sleep, liebchen, sleep, the dew is falling.

Even wind among the quiet willows
Rests, and the sea is silent too.
See soft white linen, cool, such cool white pillows
Wait in the darkling room for you.

All the little chicks are still; now the moon peeps down the hill;
Sleep, liebchen, sleep, the owls are hooting.
Ships have hung their lanthorns out; little mice dare creep about;

—Ford M. Hueffer in Littell's Living Age.

THE OCEAN SCORCHER.

He Who Brags About How Many Times He Has "Crossed."

The ocean scorcher, the woman or man who was forever bragging about how many times he had "crossed," is, thank heaven, on the decrease. Fashion has at last set the seal of her disapproval on him, and he is rapidly becoming obsolete. The fashion is now never to mention the number of times one has been to Europe. "The last time I was over" is the way to refer to an over the water experience if you wish to be in the vogue. Of course you may, if you truthfully can, say "the time before last I was over" or "the tenth time I crossed" or "during my seventh trip through Europe," but a great majority, you will find, say "the last time I was over." It is safer—when one has been over but once.

Pin many of these travelers so fond of relating their European experiences down to the figures, and you will find that "the last time I was over" bears close relation to the little boy who said he was next to the head of his class, to have it transpire later that the class consisted of himself and a little girl. "The last time I was over" may, like as not, have been the first. Still anything is better than the ocean scorcher and his bragging. To him it didn't matter where he hadn't been or what he hadn't seen or anything, but simply how many times he had crossed.

The one time on record that any one was known to get ahead of these scorchers was when a lot of them were sitting swapping lies on a certain steamship deck and a nonscorcher, having learned that the star scorcher's record was 188 runs, remarked, "There's a man on board who has crossed 566 times." Then, as the excitement caused by the news somewhat subsided: "He's never been anywhere except to the two ports Liverpool and New York. He's never seen anything, he's never done anything, but just cross the ocean 566 times—he's the ship's barber."—New York Sun.

Captain John Smith never during his lifetime succeeded in convincing the English that Virginia was not an island. In vain he wrote home, "Virginia is no isle, as many doe imagine."

WILSON WAS ROBBED

Secretary of Agriculture Lost His Pocket Book to a Western Thief.

MAN WHO GOT IT CAUGHT

The Purse Recovered—Another Member of Presidential Party Had Like Experience—President Reviewed Floral Parade at Los Angeles.

Los Angeles, Cal., May 10.—The president and members of his party returned in their train last night and were to leave about 3 o'clock today for Delmonte, where they will spend Sunday. Stops were to be made on the way at Ventura, Santa Barbara and San Luis Obispo.

From a broad, blue canopied pavilion, surrounded by the members of his cabinet, the governor of Ohio and notables from many states, President McKinley Thursday reviewed the floral parade of the Los Angeles carnival. There were enormous crowds many coming from neighboring towns.

Mrs. McKinley did not witness the show, but she drove along Briadway and received the plaudits of the multitude just before the procession appeared. The president rode at the head of the parade in a carriage drawn by six spirited white horses with yellow satin harness. At the head of each horse walked a Spanish caballero in green velvet and much gold braid. The carriage was a mass of white carnations and yellow coreopisis blossoms. A troop of cavalry, with yellow horse hair plumes waving above their helmets and wreaths of flowers across their shoulders, and blanke trolls of red carnations behind their saddles, headed by a band playing the Star Spangled Banner, preceded the carriage of the chief magistrate to the reviewing stand. As each carriage reached the reviewing stand the ladies in it arose and smilingly saluted the president with deep courtesies. The president was kept on his feet most of the time returning these greetings. He apparently enjoyed the experience hugely. Each lady carried a bag of rose leaves for use as confetti, and after saluting the president she threw a handful of the soft petals into his box. Before the parde was over he was ankle deep in rose leaves.

In the morning, previous to the floral parade, the president and his party were driven through the resident section of Los Angeles. In the afternoon the ladies of the president's party went to Passadena and took a drive there, while the president made a trip to the National Soldiers' home near Santa Monica. It is about 18 miles distant and he made the journey in electric cars. About 3,000 of the president's old comrades of the Civil War greeted him there. The old soldiers gave the president a remarkable demonstration. He was introduced by the governor at the home and made a speech.

Considerable excitement was caused by the discovery after the speaking that a pickpocket who had been at work in the crowd had relieved Secretary Wilson and Colonel Charles A. Moore of their pocket books. Later the thief was arrested. Several pocketbooks were found on his person, a gold nugget that Mr. Moore's son had obtained at the Congress mine in Arizona, and Secretary Wilson's pocketbook, which contained $175. The thief proved to be a pickpocket well known to the police.

Upon his return to Los Angeles late in the afternoon the president received Governor Nash and the Ohio congressional delegation at the hotel. There was no public function in the evening. The president and Mrs. McKinley dined at the residence of Homer Laughlin.

RESIGNATION ACCEPTED.

Heresy Charges Were Not Pressed Against Gilbert.

Chicago, May 10.—Heresy charges will not be established against Prof. George H. Gilbert, of Chicago Theological seminary, but he will no longer be connected with that institution. His resignation, which was tendered more than a year ago, was accepted by the board of of directors of the seminary. He gets half pay for one year. No action was taken on the heresy charge. It was not mentioned in the report made public by the board of directors, which is as follows:

"Your committee to whom was referred the resignation of Prof. George H. Gilbert respectfully recommends that the resignation be accepted as on the whole for the best interests of Prof. Gilbert and the seminary.

"In taking this action we desire to place on record our sense of appreciation of the eminent ability of Prof. Gilbert in the line of study he has made his own, his reverent spirit, his unaffected piety, his whole-hearted devotion to his work, his conscientious loyalty to truth as it has been permitted to him."

SOME NEWS IN BRIEF.

William Libengood, of Chestnut ridge, Westmoreland county, went insane and tried to kill his family.

Captain John F. Merriam was fatally stricken with paralysis during the excitement in a Wheeling bucket shop. He died two hours after the stroke.

The smallpox quarantine of Cumberland against the infected district of Bedford county, Pa., is being made more rigid. Mayor Warren C. White has ordered guards placed on the Valley road, the Bedford road and the Baltimore pike.

A meteor fell near Hyndman, Pa., and exploded when within 200 feet of the ground. Windows in the upper part of the town were rattled, and the explosion was heard several miles. The explosion accurred a short distance above the Close planing mill.

The new Cumberland Presbyterian church at Bentleyville, Pa., has been rebuilt and made almost new and has been rededicated. Among those taking part was the Rev. W. F. Silveus, of Pittsburg.

WARNED BY A BISHOP.

Gambling, Whether at the Club or In Stock Market, Leads to Downfall, Said Lawrence.

Boston, May 10.—"What will you give," asked Bishop Lawrence at the diocesan convention here, "for the future of the boy whose pin money is the gain at his father's game at the club?"

The bishop was uttering a solemn warning against national sins. He said:

"What we have got to keep ever before us is this, that if this nation is to be a moral force, if it is to have character, if, indeed, it is to survive at all, the spiritual powers must keep pace with the material increase. The fundamental virtues—truth, honesty, purity, obedience and charity—must be in control. The giant without the power of self-mastery will be the cause of his own downfall.

"One has only to listen for a moment to the shouts in the stock market during the past few weeks to be impressed with the danger in which our young men and women, our boys and girls, stand—the temptation to gamble, to get something for nothing, to try to make money fast, to hazard what is of value simply for the pleasure of the hazard. You see that I am not drawing fine distinctions, much less am I making the stock market the scapegoat for an increasing popular danger and vice."

After discussing gambling the bishop animadverted on impure literature. He said:

"The disintegration of mind and character that takes place in a young woman who goes to doubtful plays and reads doubtful novels unfits her for worship and for high and enobling thoughts."

APPEAL TO CATHOLICS.

Asked to Help the Chuch and Members at Jacksonville, Fla.

Jacksonville, Fla., May 10.—Right Rev. John Moore, bishop of St. Augustine, and Very Rev. William J. Kenny, vicar general of the diocese, issued an appeal to the Roman Catholic people of the United States and Canada, calling upon them to aid the Catholics of this place. The appeal recites the destruction of the church of the Immaculate Conception, the only one in the city; the parochial residence, St. Mary's orphanage and St. Joseph's convent, representing a total loss of about $125,000, and stated that today the Catholics of this city find themselves without a place to worship in; without a home for the priests; without a home for the sisters, and without a home for the orphans or a school for the children, and that in view of the utter impoverisnment and destitution of the Catholics here, unless they receive help from the outside Catholic world, it will be impossible to continue the work of Catholic progress of this community.

They called upon the Catholic people of the United States to help them out in this greatcalamity, and asked that contributions be sent to Very Rev. William J. Kenney, vicar general of this diocese, Jacksonville, Fla.

THE DEMAND ON CHINA.

Indemnity Claim of 450,000,000 Taels Was to Be Presented.

Pekin, May 10.—An indemnity claim of 450,000,000 taels was to be presented to the Chinese plenipotentiaries last evening. Official Chinese throughout the empire had been communicating with the court and giving advice. Most of them seemed to favor a loan guaranteed by the foreign powers. Others, prominent among whom is Chang Chi Tung, believed in raising the money in every possible way without a loan, and in paying off the entire demand within five years.

The court considered methods of raising 20,000,000 extra annually and provisionally approves the plan, but the Chinese plenipotentiaries have instructions to obtain a reduction of the indemnity demand as far as possible.

Whatever the final demands of the powers may be it was not believed that the opposition will be much more than a matter of form.

The ministers of the powers met Thursday morning and decided that the Chinese should be given to understand that the amount did not constitute the claim, but was the total of the expenses, including private claims considered fair, and was meant more to obtain an opinon from official sources as to China's ability to pay and also as to what means she would employ.

RAMSEY AT THE HEAD

Gould Interests Elect Him President of the Wheeling and Lake Erie.

RUMOR OF A PENDING DEAL

Negotiations Asserted to Be Under Consideration Retween W. & L. E. and Pennsylvania—Gould Representatives Refused to Discuss It.

New York, May 10.—The board of directors of the Wheeling and Lake Erie railroad, which was taken in charge by the Gould interests last week, met and elected officers for the ensuing year. Joseph Ramsey, Jr., was chosen president, as determined upon by the Gould combine. Alvin W. Krecht is made vice president; H. B. Hensen, treasurer, and Myron T. Herrick, of Cleveland, chairman of the board. The executive committee will consist of George J. Gould, Alvin W. Krecht and W. E. Connor. One of the directors who was seen after the meeting said that no matter affecting the policy of the road had been brought up for discussion. It was persistently rumored in Wall street that an understanding exists between the Pennsylvania and the Wheeling and Lake Erie, regarding a traffic arrangement from the Toledo Terminal. One news bureau printed the announcement Wednesday as authoritative. Representatives of the Gould syndicate emphatically refused to discuss the proposition when seen Thursday afternoon. In another quarter, however, it was declared that negotiations were pending between the Wheeling and Lake Erie and the Pennsylvania. This informant said: "I do not believe the Wabash will build into Pittsburg."

VOTE WAS INVESTIGATED.

Bill That Was Reported Passed Failed In Pennsylvania House.

Harrisburg, May 10.—The roll call on the final passage in the house Wednesday of the Presque Isle bill was investigated at Thursday's session and showed that of the 106 members recorded in the affirmative four had not voted and that the vote of another was not recorded. The bill was then reconsidered and beaten by 98 to 62, 103 votes being necessary to passage. The measure gave to the city of Erie the land and water front on the southern shore of Presque Isle bay and on the shores of the peninsula forming the northern side of the bay.

There were also other proceedings.

The house adjourned, about 3 p. m. being the time selected to meet.

Among the senate bills passed finally was this one:

Extending to cities of the second and third class the act of May 24, 1887, authorizing the city of Philadelphia to appropriate not more than $500 annually for the support and maintenance of each company of the national guard using and occupying an armory building, rooms or quarters within that city, in addition to the annual appropriation by the legislature.

There were also other proceedings.

Adjourned, about 8 p. m. being the time selected to meet.

Because of the small attendance at last night's session of the house the order of business, which was senate bills on third reading, was dispensed with and the calendar of second reading bills, except appropriation bills, was taken up for consideration.

Several bills on second reading were passed. There were also other proceedings.

Adjourned until this morning, about

Contests of Eggs.

From the remotest ages the egg has been looked upon as the symbol of creation, or new birth. According to the Persians, the world was hatched from an egg at that season of the year which corresponds to the vernal equinox. Hence the Parsees still exchange gifts of colored eggs at the new year festival, which they celebrate at this date. Among the Jews the egg entered into all the mysterious ceremonies called apocalyptic and occupied a prominent position on the household table during the paschal season. Christianity invested the paschal egg with a new significance—namely, that of the resurrection of Christ, and it was colored red in allusion to his blood shed for sinners on the cross.

A curious custom in mediæval churches, for priests and choristers to join in a game of ball at Eastertide, took its rise from the Easter egg, which was thrown from one to the other of the choristers in the nave of the church while an anthem was being sung. As a missed egg meant a smashed egg, the more durable handball was substituted.

But the smashing of eggs continued as a form of outdoor sport. Survivals are to be found among all Teutonic and Anglo-Saxon people. A popular game in England and Germany consists in hitting one egg against another, the egg that survives uncracked winning for its owner the weaker antagonist, until an entire basket of eggs may have changed ownership. Another game is to trundle eggs down a hill or slope, those which reach the bottom uncracked being similarly victorious over the others.

DE WET'S ESCAPE.

How the Boer Commander Slipped Through the British Cordon.

A correspondent in Cape Colony gives an amusing account of how General De Wet slipped through the cordon which the British had drawn around him and recrossed the Orange river on his return from his last raid into the Colony, says the New York Sun.

A British column, it seems, was camped at a place called Woepsfontein, about ten miles from Colesberg, and an outpost of five men was stationed away on the right flank on a farm about ten miles nearer the Orange river. The officer commanding the outpost with two men took up a position on a kopje commanding the road coming through a drift on the Sea Cow river, while three men remained below. The night was cloudy, but moonlit—just the night for De Wet.

Presently the silence was broken by the sound of a voice in the distance singing "Daisy, Daisy, give me your answer true," and a number of voices joined in the chorus of the well known ditty. But who were the singers? "They must surely be some of our own men belonging to another column," said one of the outpost. The sound of the hoofs of many horses was heard drawing nearer. Then they passed along the road below the kopje toward Colesberg bridge. The three men at the foot lay quiet, and so did those on the kopje, but presently one of the passersby came straight to the men below and nearly tumbled over one of them.

"Hello!" he exclaimed. "What are you doing here? Why, he's a Britisher! Hands up!"

The Britisher's hands went up, and in a moment he and his companions were prisoners. Then those on the hills were discovered, and one of the Boers called out:

"Come down out of that! You have nothing to fear! We are British!"

"Are you?" replied the officer. "Then send a couple of unarmed fellows to fetch me."

Firing then began, and the captured men, who were let go after the Boers had crossed the Orange river at Leliefontein just below Colesberg bridge, told when they got back how one of the British bullets nearly struck De Wet, who was speaking to them at the time. De Wet sprang to one side and said, "Stand a little this way" as he changed his position.

The writer says that a dozen colonels and about 25,000 men would have given anything to be where that outpost was that night. The officer did not remain long on the kopje with his two men when he found what was happening, but mounted and galloped back to camp at Woepsfontein to report. In due time the sun rose, and the column started westward to Hamelfontein, where it arrived at midday, by which time De Wet, in the opposite direction, was probably crossing the Orange river at Leliefontein.

A conference was held by the commanders of the two columns, after which the Woepsfontein column with its cumbersome convoy returned to its camping place by the same way it had come in the morning. By the time it got back the report was brought in that De Wet had crossed the river.

A Rabelais Hoax.

Rabelais, being out of money, once tricked the police into taking him from Marseilles to Paris on a charge of treason. He made up some packages of brick dust and labeled them "Poison for the royal family." The officers took Rabelais 700 miles, only to be told at the end of their journey that it was April 1 and the affair was a hoax. Of course, as Rabelais was the privileged wit of the royal family, he was forgiven.

CHINA'S PLOT WITH RUSSIA.

Yung Lu Planned to Break Up the Concert of the Powers.

Advices received at Victoria by the steamer Tosa Maru include a private dispatch from a high Chinese official with the Chinese court at Hsian or Singan to a Chinese of Shanghai, a translation of which is published in The North China Daily News. It throws some new light on the Manchurian intrigues and the proceedings between Russia and China, which, according to the dispatch, were carried out by Chinese officials with the hope of provoking a European war. The translation of a portion of the dispatch reads:

"Although it is well known that Li Hung Chang has always been a Russophile, still, for the sake of impartiality, I must say from my personal knowledge of the affair, that the accusation which rumor has spread about, that Li Hung Chang was the chief mover in the Russo-Chinese intrigues about the cession of Manchuria to Russia, is incorrect. In this matter Li Hung Chang was merely obeying the orders of the reactionists at Hsian under the direction of the arch intriguer and anti-foreigner, Yung Lu. It seems that when Yung Lu found Manchuria at the mercy of the Russians and very likely to be annexed by them at the end of the present troubles with foreign powers, he conceived the idea of luring the Russians away from the concert of the powers by promising the Muscovite special privileges in all the Manchurian provinces if Russia would take the lead in withdrawing her troops from Peking and Chi-li provinces."

A famous ink long used in Germany was made of a combination of chromate of potash with a solution of logwood in the proportions of one part of he former to 1,000 parts of the latter.

Going Into a Safer Business.

It was Cassidy's first morning as newspaper carrier. From side to side of the avenue he hurried, dropping the moist sheets in vestibules and running them in the space between the door and sill. Finally he came to a house that was separated from the sidewalk by an urn studded yard. Cassidy opened the iron gate and walked up the stone path. He knelt in the vestibule and started running the paper under the door. An upper window was raised, and a woman's voice called:

"Is that you, Harry? You are awful late. I hear the milk carts rattling."

Cassidy thought it best to remain quiet. The voice continued:

"You needn't think I'm coming down at such an hour! The idea of you, a married man, coming home at such a time! Lost your key, as usual? Well, catch this one."

A heavy piece of brass shot two stories. There was a heavy fall, and the vestibule resembled a pressroom.

Some one found Cassidy smoking his pipe in the "accident ward."

"Going back to the carrier route?" they asked.

"Niver once more," responded Cassidy. "Oi'm goin back to wur-ruk in th' quarry. Thor's no fallin kaes thor; only dynomited rocks."—Chicago News

A Startler.

A gentleman whose hearing is defective is the owner of a dog that is the terror of the neighborhood in which he lives.

The other day he was accosted by a friend, who said:

"Good morning, Mr. H. Your wife made a very pleasant call on us last evening."

"I'm very sorry," came the startling reply. "I'll see that it don't occur again, for I'm going to chain her up in future."—London Telegraph.

SUPPLEE'S REAL ESTATE AGENCY,

East End, East Liverpool, Ohio.

Four-roomed house on Pennsylvania Avenue, lot 40x100 feet. Price $1,000.

Four-roomed house on Ohio Avenue, good as new, with front and rear porch; lot 30x80 feet, shade trees, city water and gas. Price $1,675.

Three-roomed house on Railroad street, room on lot for two more houses; nice location, near street car track. Price $900.

Six-roomed house at Rallston's Crossing, house in good repair; lot extends from street railway to C. & P. R. R. Price $1,800.

Six-roomed house corner Ohio Avenue and Chestnut Street, lot fronts 80 feet on street railway and 50 feet on Ohio Avenue; city water and gas in house; room for two more houses on lot. Price $2,000.

Good six-roomed house in Supplee Land Co.'s Addition, good drilled water well in yard, house has two porches and vestibule: lot fronts 40 feet on C. & P. R. R.; convenient to Klondike Pottery. Inquire at office for price.

Six-roomed house on St. George Street, only 200 feet from street railway; lot fronts 50 feet on St. George Street and corners on two alleys; house has city water and gas. Price $1.800.

Four lots in East End Land Co.'s Addition, fronting on north side of Harvey Avenue, corner Putnam Avenue. Corner lot $200; three other lots adjoining $150 each. Lots are directly on line of new street railway extension.

Lot 50x80 feet on Ohio Avenue fronting street railway; nicest residence location in East End. Price $800.

Lot 30x100 feet on Erie Street near new school house; city water and gas in street. Price $300.

Announcement of the Proposition to Reorganize the East Liverpool Board of Trade Caused Much Comment.

BUSINESS MEN IN GENERAL FAVOR THE MOVE

An Effort Will Probaby Be Made at Once to Induce a Boston Shoe Manufacturer to Locate In This City—A South Dakota Inventor Is Desirous of Establishing an Atombile and Bicycle Factory Here. Other Industries May Come Our Way.

The citizens' mass meeting to be held tonight at the council chamber for the purpose of reorganizing the board of trade, the announcement of which appeared exclusively in Thursday's News Review, was the leading topic of conversation in business circles today. This matter has long been discussed by those interested and who realized that the city's interests were sadly in need of a stimulus in the shape of a wide-awake board of trade.

Attorney Travis, having been assured the support of several leading citizens, has volunteered to give impetus to the movement to reorganize the board and place it on a proper standard. Interest in the matter of booming the city seems to have been sadly neglected, and it is argued by those who claim to know for a certainty that various opportunities have been overlooked, which, if they had been taken advantage of, would doubtless have added new industries to East Liverpool.

It is understood the promoters of the move to establish a new board of trade will, at the proper time make an effort to induce the Boston shoe manufacturer, who has already submitted a proposition, to locate here. As has previously been published, the Boston man agrees to build a factory that will furnish employment to 400 men in case he is given fair inducement.

T. C. Culbertson, an inventor, of Brinton, S. D., a brother of George Culbertson, of the East End, has for several months been negotiating with East Liverpool capitalists for the establishment of a factory in this city for the manufacture of automobiles, bicycles and gasoline lamps. Culbertson holds patents on all of his inventions and has gained great notoriety in the west. He is the patentee of a propelling contrivance for automobiles which is said to be a wonderful improvement over anything of the kind ever introduced and his gasoline lamps are now in use in dozens of western cities.

Mr. Culbertson has made an offer to employ 50 men and is anxious for building the factory some time this summer. It is likely his proposition will be taken up for consideration by the new board.

The indications for a large attendance at tonight's meeting are very good, and judging from the comment occasioned by the announcement of the proposed organization, it is evident enthusiasm will be far from lacking.

THE PRINTING SCALE

DIFFICULT TASK TO ARRANGE IT SATISFACTORILY.

Committee Making Progress And Will Probably Complete Its Work Tonight.

The committee which has in hand the task of forming a scale of prices to govern the printing department of pottery work has not yet completed its work, and will probably not do so before Monday.

The work is much more arduous than was at first thought, and although the committees have been holding a session each night since Monday, the progress has been slow.

It is thought that the list can be completed at tonight's meeting. The work can, at least, be pushed to a point where the last piece will have been determined upon. It will then only be necessary to arrange a few minor details in order to get the list in shape to put in operation. On Monday night, it is expected this will be done.

William Elder, of Akron, and the other members from out of town, have been working hard in order to complete the work in the shortest time possible, and no time has been lost in fixing the rates on the various items on the list. Mr. Elder expects to return to Akron tomorrow morning.

WORTH MILLIONS

Was a Pennsylvania Man Who Wandered And Was Missing 50 Years.

Youngstown, May 10.—After all trace of Peter Rigby, of Philadelphia, had been lost for 50 years the heirs in this city have found out that he died in Rio Janeiro 10 months ago. He left $2,500,000 to be divided among the heirs here, in Shenango and Venango counties ,Pa.

ROGERS' BRICK PLANT

WILL PROBABLY EXCEL THE BRADSHAW BROS.' POTTERY.

Citizens Think It Will Be of Greater Benefit—Pottery Kilns Being Torn Down.

Rogers, May 10. — (Special.)—The firing kilns, the last vestige of what was once the Bradshaw Bros.' pottery, are now being torn down and moved to Niles. With very few exceptions the people of this town are experiencing a feeling of chagrin over the removal of the old land mark, and it is the subject of much discussion.

A redeeming feature, however, is the rapid construction of the new brick works, which, when completed, will equal in a financial measure, if not excel, the plant of the Bradshaw people. Only furnace fire brick and tile will be manufactured, and of the former, 25,000 will be turned out each day. The works will furnish employment to between 40 and 50 men.

The masonry is almost completed and the carpenter work will commence next week. H. W. Weaver, of Allegheny, formerly of East Liverpool, is the contractor. John Hall, of East Liverpool, is at the head of the new company.

THE ORIGINAL POTTER

Picture of Josiah Wedgewood to Be Adopted as a Souvenir by Sons of St. George Lodge.

The Sons of St. George Lodge of East Liverpool have decided to adopt a picture of Josiah Wedgewood on their souvenir in honor of the convention in this city next August.

This drawing of the "original potter" has been sent to the lodge by Collin Bloor, of Burslem, England, who formerly resided here. The souvenir will be in the form of a placque, with the picture in the center, suitably inscribed.

SHE IS THOUGHT TO BE INSANE

Mrs. Lucille Matursh, the Assailant of Mrs. Price, to Ge Before the Probate Judge.

HAD NO DEFENSE TO MAKE

Mayor Davidson Gave the Woman a Hearing This Morning, But it Was of an Unsatisfactory Nature—Mrs. Price Was Present.

Mrs. Lucille Matursh, the Italian assailant of Mrs. William Price, was given a hearing before Mayor Davidson this morning on the charge of assault with intent to kill. Tony Ross was present and acted as interpreter.

Although in a somewhat weakened condition, Mrs. Price was present at the hearing in company with a son and daughter. Dr. Calhoun, who has been treating the injured woman, was also in attendance. Mrs. Matursh had no defense to make, and though she pleaded guilty to the charge against her, it is believed she did not comprehend what she was doing.

Mrs. Price testified that the accused woman attacked her without warning. She stated emphatically that the allegations of Mrs. Matursh regarding her alleged intimacy with the woman's husband were ridiculously false. Mrs. Price said she did not know the Italian man, and he states he does not know Mrs. Price. Thus it appears that Mrs. Matursh's motive for assaulting the aged lady was an imaginary one.

Dr. Calhoun stated that Mrs. Price's wounds were not of a dangerous nature. He said the nervous shock incident to the attack was of greater severity than the cuts and bruises. The physician did not anticipate any serious results.

Mayor Davidson asked the interpreter to get an expression from the Italian woman as to her reason for committing the assault. She reiterated her claim that she was prompted by jealousy to do the deed. Each time the interpreter asked the female a question she would plunge into a protracted and apparently meaningless prattle, all the time insisting that she had reason to be jealous of Mrs. Price, and it was impossible to get any satisfactory explanation from her.

Attorney Richard Thompson represented the plaintiff in the case and F. E. Grosshans the defendant. Grosshans insisted that his client was mentally unbalanced, and that she was incapable of being held for the charge against her. At first Mayor Davidson had decided to bind the defendant over to common pleas court and had fixed her bond at $300. However, he later agreed to have her taken before the probate judge to stand trial for insanity.

Ross declares positively that the woman is irresponsible, and expresses the belief that if she is kept in jail much longer she will lose her reason altogether.

Mr. Matursh says his wife is crazy, and her actions strongly indicate this is true. She has been ill most of the time during her incarceration in the city prison and frequently suffers attacks of vomiting. She has eaten but little since being placed in her cell, and her infant is showing signs of developing illness.

Owing to the woman's extreme illiteracy, it is an almost impossible task for an interpreter to get any satisfactory conversation with her. Her mind is very changeable, and one moment she is appealing for her husband and at other times she wants to kill him. She will probably be taken to Lisbon Saturday morning.

CHOKED TO DEATH.

Alliance, May 10. — Leander Knowles, a veteran pension claim agent, choked to death in Miller's restaurant last evening. He had taken a bite of food, when he began choking and died in a few minutes.

WOULDN'T STAND FOR IT.

AMATEUR PHOTOGRAPHER RAN AMUCK AT CITY HALL.

Attempted to Get a Picture of the Italian Woman Prisoner, But She Mistook the Camera for a Gun.

An attempt of a local amateur photographer Thursday night to get a picture of the Italian woman who is confined in the city jail, terminated in a complete fiasco. While the artist failed utterly to accomplish his purpose, he nevertheless succeeded admirably in scaring the woman out of several inches of growth.

The photographer, in company with several other young men, gained entrance into the jail by the rear door. The camera was one of the folding kind, and the moment the proposed subject got a glimpse of the machine her suspicions became aroused and she evidenced considerable nervousness. However, when the artist had arranged the camera in position and slid it up before her cell, the female gave a frantic shriek, and seizing her baby, rushed to the rear of the iron cage.

An effort was made to induce her to pose for the photographer, but every time he attempted to operate the machine the woman would throw up her hands in terror and yell like a Sioux warrior. It was the intention of the artist to get the picture by means of a flash light, but Chief Thompson, on finding that the woman was frightened, refused to allow the proceeding to go further. He feared the flash light would frighten her into hysterics. The photographer gave up the job after a fruitless effort to assure the woman that no harm was to be done her.

It is evident she never saw a camera, and mistook the apparatus for a gatling gun. From her actions it was surmised she expected a charge of grape and canister from the "weapon" every time the artist attempted to get a focus.

DAVE BROWN ACCUSED

OF TESTIFYING AGAINST SALOON MEN BEFORE GRAND JURY.

Alleged He Caused Arrest of Those Charged With Selling to Minors.

The fact has become known that Dave Brown, the negro who was on Wednesday sentenced to a term in the penitentiary for assault, also had a hand in bringing about the indictments against the East Liverpool saloon men who were summoned before the grand jury a few days ago. It was Brown who caused the arrest of the bartenders charged with selling liquor to minors.

"Nattie" Morland is generally credited with having given the testimony to the grand jury which caused the indicting of those charged with selling to an habitual drunkard, although it is the belief of many saloon keepers that Jack Rowe also had a hand in the affair.

Rowe is alleged to have threatened a Market street bartender, who was among the number indicted, and although the young man denies that he sold liquor to Rowe, he pleaded guilty to the charge against him.

Dave Brown's assertion that he is a minor is questioned by many persons, who claim they are positive the negro is more than 21 years of age. His mother insists he is but 18 years old, but it is said the young man once testified in the mayor's court in this city that he was 18 years of age, and this was four years ago.

$70,000 DAMAGE SUIT

Resulting from an Explosion of a Ft. Pitt Gas Main.

Beaver, Pa., May 10.—The Evansville Contract company, whose dredge boat Indiana was destroyed by the explosion of the Fort Pitt Gas company's main in the river at the Legionville lock on March 13 last, entered suit against the company yesterday in the United States circuit court at Pittsburg for $70,000 damages.

The plaintiff alleges that its property was damaged [illegible]

MORE CONVICTS FOR OHIO PEN

Harry Kemp, the Salem Burglar, Gets a Sentenee of Three Years.

JOHN GALES IS TO SERVE TWO

He Was Convicted of a Robbery at East Palestine—Sheriff Takes a Batch of Prisoners to Canton And an Insane Man to Masillon.

Lisbon, May 10.—(Special.)—Harry Kemp, the Salem burglar, was convicted in 15 minutes after his case went to the jury yesterday. Kemp was today sentenced to three years in the penitentiary at hard labor.

John Gales, for robbing the Stevenson tailor store at East Palestine. Only a few witnesses were examined and the case was submitted to the jury, which, in 15 minutes found him guilty. Gales got two years in the penitentiary.

The A. M. E. church, of East Liverpool, was given authority by Judge Hole today to mortgage its church property in the sum of $1,200.

A demurrer was heard in the case of Ohio ex rel. of Richard Cole, of Salem, against J. F. Adams, county auditor and was overruled. It was asked that a writ of mandamus be issued, commanding the auditor to issue to the plaintiff an order on the county treasurer for $4. which is claimed to be due as jury fees in a case tried in a Salem court. The court held that no valid excuse could be given for the defendant not performing the act and issued a peremptory order as prayed for. The case will not be heard further in common pleas court, but a bill of exceptions will be filed today by Prosecutor Brookes, taking the case into circuit court on error.

James Blind, of Leetonia, was arraigned this morning and sentenced to three months in the Canton workhouse. He was indicted for non-support of minor children and pleaded guilty.

Roland Edwards, of Lisbon, pleaded guilty to a charge of assault and battery and was fined $15 and costs.

Sheriff Noragon left today for the Canton workhouse and the Massillon asylum. Patrick McGill, of East Liverpool; Joseph Geisse, of Wellsville, and James Blind, of Leetonia, were taken to the former institution, and Joseph Hisey, of East Palestine, to Massillon.

PATHETIC PARTING

Between a Mother And Five Little Ones, Who Go to the Children's Home.

Dr. F. K. Hutcheson, poor director, left Wellsville yesterday for Alliance with the five children of Mrs. Criswell. The little ones are to be placed in the Children's Home at Alliance. Mrs. Criswell says her husband, who is the proprietor of a merry-go-round, has abandoned her.

Mrs. Criswell stated that she could take care of herself and the baby by working, but that she was not able to earn money enough to feed and clothe herself and six little ones. She said there was nothing for her to do but have five of the children sent to the Children's Home. The parting of Mrs. Criswell and the five little ones was a pathetic one.

FELL PARALYZED.

Death of a Wheeling Man Attributed to Excitement Over Stocks.

Wheeling, W. Va., May 10.—Captain Jack F. Merriman fell paralyzed in Ward & Co.'s stock brokers agency here. He died two hours later. Over excitement by the great slump in stocks caused his death. He had been speculating in stocks.

THE MARKET STRONG

New York, May 10. — (Special.)—The market is strong this afternoon. Union Pacific rose 11 points; other stocks show substantial gains. The panic is over.

Patent Leathers and Patent Kids in New Spring Styles.

Many of our Customers have been good enough to say that **Our Shoes** of last year were Perfect—that improvement was impossible, Yet we think some of the **New Spring Shapes** More Graceful; and we have succeeded in bringing the workmanship to even a higher degree of elegance than formerly.

P. S. This week's Specials, Ladies' and Gents' Patent Leathers at $3.00, worth $3.50.

W. H. GASS — 220 Diamond — W. H. GASS

EAST END.

EAST END BASEBALL

STREET RAILWAY EMPLOYES ARRANGING A MATCH.

Ready to Meet All Comers—Other News of the Diamond.

The motormen and conductors of the East Liverpool and Wellsville street car line have challenged the employes of the Rock Springs line to meet them on the ball ground any day next week. They are willing to play for fun or for any amount the latter team may desire. The East Liverpool motormen's team is practicing daily at Columbian park, where a large crowd always assembles to witness some star sprinting by Thomas, Smith and Fowler. These gentlemen go down the line like a cyclone, and it is very unfortunate for the baseman or fielder that happens to be in their path. This team will be glad to accept a challenge from any team in their class. They expect to win most of their games by the sprinting of their heavyweights, who, when once started, can't be stopped very easily.

Yesterday afternoon a collection was taken up for the purchase of balls and bats. Every one contributed except one motorman from Pittsburg. It was impossible to get a dime out of him. A doctor who happened to be near offered to give this motorman a dime, which he accepted, and thus contributed (?) his share.

The kilnhands at the Globe pottery challenged the clay hands for a game next Friday at Rock Springs, and the clayhands accepted.

The East End Grays challenged the Dixonville team, but the latter declined to accept, claiming that the Grays were above their class.

The Laughlin team is still open for challenges.

An effort is on foot to form a team at the National plant, but so far it has been unsuccessful.

Judging from the number of teams in the field it would seem that the East End will do more ball playing than anything else this summer.

THEY CELEBRATED.

Imported Bricklayers' Only Work Done in a Downtown Saloon.

A few days ago an East End company, which was badly in need of more bricklayers than it could procure in this city, sent a representative of the company to Pittsburg with instructions to engage the services of any bricklayers he could find idle and pay their fare to this city. After a search lasting two days the representative returned with seven of the much-desired workmen. He procured a boarding place for them and guaranteed the payment of the board bills.

The men decided to celebrate their first day in the city in a fitting manner, so they repaired to a downtown saloon, where they lingered until midnight, when one of them bantered the others to return to Pittsburg. They wouldn't take a dare, and accordingly all returned to Pittsburg on the midnight train. And the company still looks for more bricklayers.

Funeral of Mrs. Hoskins.

The funeral services of the late Mrs. Joanna Hoskins will take place at the residence on First avenue Sunday morning at 9 o'clock. The remains will be taken to Wheeling on the 10 o'clock train, where interment will be made. Washington, John, Richard and Allen Hoskins, all sons of Mrs. Hoskins, arrived in the East End last evening. They will return to Zanesville Monday.

Caught Some Fine Bass.

Attorney Frank Grosshans and Dr. F. F. Davis spent yesterday fishing in Beaver creek and returned with a nice string of bass. They are the first anglers to catch anything at Beaver creek this season.

A Big Eel Captured.

John Arnold, Jr., set a trot line last night and this morning caught an eel four feet two inches long. As a result he has quit the business college and gone to fishing exclusively.

EAST END BREVITIES.

Michael Stillwell is painting his residence in Oakland.

Motorman Liebolt and wife are visiting relatives in Pittsburg.

James Dugan is visiting friends in Steubenville and Toronto today.

The work on the tenement building of the A. M. C. Co. is progressing rapidly.

The kilnmen at the Laughlin No. 2 plant are loafing today on account of a shortage of ware.

Wynkle Campbell, who is employed at the National plant, is ill at his home in Smith's Ferry.

The drilling on the well at the National pottery was begun yesterday afternoon. The casing arrived this morning.

NEW FURNACE IN BLAST.

That at Mingo Greatly Increases Trust Output.

A third furnace, which has been under construction by the National Steel company, at Mingo Junction, for more than a year past, was put into blast last week. Its capacity will be about 600 tons daily and it is now operating on Bessemer. The other two furnaces at this plant were recently remodeled and their output considerably increased.

The blowing in of this furnace further increases the pig iron output of the United States Steel corporation, and the furnace of the American Steel and Wire company on Neville island, below Pittsburg, in the Ohio river to be put into blast in about a month will increase the pig iron output of the company further by about 700 tons daily.

WM. S. SCULL & CO., Camden, N. J.

IN HIGH REPUTE.

The Great Author And Physician, Dr. A. W. Chase, is Remembered in East Liverpool.

All over the world Dr. A. W. Chase's recipe book is known, as also in many parts of this country his skill as a physician, and from the great success of his medicines the name will be handed down from generation to generation. Attempts are often made to sell other medicines over the reputation of the doctor—some go so far as to use the name "Chase," but they dare not use the initials A. W.—portrait or signature which is borne on every box of the genuine—the kind referred to by Mrs. George Hall, of No. 389 West Market street, East Liverpool, O., who says: "I was bilious—my head ached hard and constantly—there was a general feeling of weakness and depression. I was asked to try Dr. A. W. Chase's Nerve Pills and did so, getting them at Larkins' drug store, corner Sixth and East Market streets. The result was very good indeed, as the biliousness was overcome—the headaches cured and bodily and nerve strength furnished. Dr. A. W. Chase's Ointment I can vouch for in burns as a fine application."
Dr. A. W. Chase's Nerve Pills are sold at 50 cents a box, also Dr. A. W Chase's Ointment at 50 cents a box at dealers, or Dr. A. W. Chase Medicine Co., Buffalo, N. Y. See that portrait and signature of A. W. Chase, M. D., are on every package.

SETS OIL MEN WILD

"Beaumont or Bust" the Cry of Those Rushing to the New Field In Texas.

BIG BOOM IN LAND VALUES

Great Excitement Over Rich Discoveries—Train Loads of Wealth-Seekers Pouring Into the Oil Country—Danger of Big Fires.

The oil fever has struck New Orleans in earnest, and thousands of persons are investing their money in hundreds of companies. Stock is being sold on every hand, and the possibilities are that the next few days will find scores more of newly incorporated organizations taking the money of the investors.

It is impossible at present to sift the wheat from the chaff, and it will not be known until the excitement is over how many of the companies are of the wildcat kind, says the New York Herald. Advertisements are all that is necessary to sell any kind of oil stock at this moment, and big and little investors are throwing their money into the treasuries of those first in the field.

Since the day the news of the Lucas gusher reached New Orleans, six other big gushers have been struck in the Beaumont vicinity. The second and third and fourth caused no end of excitement, but the striking of big wells is getting to be such a common occurrence that they are passing unnoticed.

Reports from the oilfields state that within a month half a hundred gushers will be throwing oil around Beaumont. Prices of land within a hundred miles of the oil center have increased from the value of farm property to that of New York real estate. Thousands of dollars an acre have been asked in many places, and the offerings are taken up as fast as they are made. Money seems to be plentiful, and a careful estimate places the real estate transactions at hundreds of thousands of dollars a week.

Men all over the southern states are oil crazy. Everybody is anxious to get in on the ground floor, and the railways are having all they can do to carry travelers to the Lone Star State. Every railway train out of New Orleans to Texas is crowded with men going to Beaumont to look over the ground. It reminds the old prospectors of the days of Cripple Creek and other western points in the days of the gold strikes. It is a case of "Beaumont or bust" with everybody at present. In Beaumont the situation is terrible. It is an impossibility to secure accommodation at any price, and thousands of persons are going hungry loaded down with money, oil stock or property deeds worth millions.

A new phase of the Beaumont situation serious in its possibilities was firmly met by the town council. Speculators were beginning to set up boring rings within the city limits. The striking of a gusher would have meant the inundation of the city with oil. Once on fire, Beaumont would have been another Pompeii.

Sensible of the danger to property and life, to say nothing of the possibility of finding oil beneath public edifices or in other inconvenient places, the council promptly prohibited boring of oil wells within the corporate limits. Crafty borers sought to dodge the prohibition by applying for permission to bore for artesian wells, but the council turned all such applications down.

A disappointed borer proposes to establish a company to pave the streets and line the exteriors of the houses with asbestus. Of the many corporations interested in the oil business, several are of immense proportions. A New Orleans concern was formed recently with a capital stock of $10,000,000. Prominent men are behind the concern, and it holds options on several valuable tracts of land. The entire $10,000,000 of stock was taken, and 20 per cent of the money has been subscribed. The stock is already held at par, and it is impossible to buy at that figure. Stocks that sold a few days ago for 10 cents a $1 share are worth five times that price.

Companies with capital stocks of $50,000 and up to millions are catching the dollars of the small investors. Fortunes will be made in New Orleans in oil stocks within the next few months, and fortunes may be lost. Several stocks have already been listed on the Stock Exchange, and the trading in them has been remarkable.

Graduates in Theology.

Pittsburg, May 10.—The graduating class of the Western Theological seminary held its commencement exercises in the chapel of that institution, in Allegheny, yesterday forenoon. Rev. John Calvin Holliday, of Zanesville, O., delivered the address. Fourteen young ministers constitute the class. Harvey B. Marks, of Hooks-town, Pa., is a member of it.

RIDING ON AN AVALANCHE.

Down a Steep Canyon Without a Bruise or a Scar.

Few mountaineers go far enough into the avalanche regions to see much of them, and fewer still know the thrilling exhilaration of riding on them, says John Muir in The Atlantic. In all my wild mountaineering I have enjoyed only one avalanche ride, and the start was so sudden and the end came so soon I thought but little of the danger that goes with this sort of travel, though one thinks fast at such times.

One calm, bright morning in Yosemite, after a hearty storm had given three or four feet of fresh snow to the mountains, being eager to see as many avalanches as possible and gain wide views of the peaks and forests arrayed in their new robes before the sunshine had time to change or rearrange them, I set out early to climb by a side canyon to the top of a commanding ridge a little over 3,000 feet above the valley. But I was not to get top views of any sort that day, but instead of these something quite different, for deep trampling near the canyon head where the snow was strained started an avalanche, and I was swished back down to the foot of the canyon as if by enchantment. The plodding, wallowing ascent of about a mile had taken all day, the undoing descent perhaps about a minute.

When the snow suddenly gave way, I instinctively threw myself on my back and spread my arms to try to keep from sinking. Fortunately, though the grade of the canyon was steep, it was not interrupted by step levels or precipices big enough to cause outbounding or free plunging. On no part of the rush was I buried. I was only moderately imbedded on the surface or a little below it and covered with a hissing back streaming veil, and as the whole mass beneath or about me joined in the flight I felt no friction, though tossed here and there and lurched from side to side, and when the torrent wedged and came to rest I found myself on the top of the crumpled pile, without a single bruise or scar.

Hawthorne says that steam has spiritualized travel, notwithstanding the smoke, friction, smells and clatter of boat and rail riding. This flight in a milky way of snow flowers was the most spiritual of all my travels, and after many years the mere thought of it is still an exhilaration.

Historical Divisions of Time.

For convenience time is, by historians, usually divided into three great eras—ancient, mediæval (or middle) and modern. The ancient period is considered to extend from the earliest times down to the fall of the Roman empire in the west in A. D. 476; the mediæval from that date to the discovery of America by Columbus in 1492 and the modern from that time to the present. Some historians prefer to put the end of the mediæval period at the capture of Constantinople by the Turks, about 40 years earlier than the Columbus event. The dark ages are often held to be coeval with the mediæval era, but some authorities think that the term should be applied only to the part of the era extending from the downfall of the empire of Charlemagne, in the ninth century, onward.

Their Loyal Answer.

On one of Queen Victoria's earliest visits to London she observed to her friend, the then Earl of Albemarle, "I wonder if my good people of London are as glad to see me as I am to see them."

He pointed to the letters V. R. woven into the decorations and said, "Your majesty can see their loyal cockney answer, 'Ve are.'"

Wholesale Reductions

This is the season when the demand for Canned Fruits and Vegetables is the greatest. We have thousands of cases of these goods that we are determined to sell. Silk Waists

Entire Sample Line of New York Importer.

Our Mr. Samler when in New York this week succeeded in purchasing the entire sample line of one of the leading importing houses of the city. Most of these were waists from Paris and brought over as patterns for their designers. On account of the size---they are all 34 and 36---we got them for about half their regular price and therefore put them on sale Saturday at prices never before marked on this class of goods.

Waists worth $8, $10, $12 and $15 for $5, $6, $7 and $8.

THE LEADER Washington St., East Liverpool, Ohio.

TORN, SOILED OR WORN.

In the producing of any Art Creation the materials employed have an equal responsibility with the skill brought to bear on them.

Our Wall Papers are made from the most complete stock with all the exclusive and dainty colorings.

They are designed by the best houses in the country and can be surpassed in beauty and variety by none.

We are prepared to hang all Wall Paper sold from our store. Both phones.

JAS. M. M'DOLE,
265 Broadway.

PEN, PENCIL AND BRUSH.

John S. Sargent, the portrait painter, has broken down from overwork, and his physician has ordered him abroad for a complete rest.

Maurice Hewitt, the novelist, has until lately been employed in the British civil service, but he has now resigned from that occupation in order to devote himself to literature.

Mrs. Humphry Ward, like the late Mary Cowden Clarke, has a great liking for Genoa the Superb. She has gone to her favorite resort near the city and is there completing some important work.

Henry Floyd, the artist, has just completed a portrait of Lady Pauncefote, the wife of the British embassador to this country, which will be hung in the drawing room of the British embassy at Washington.

Virgilio Togetti, the mural and portrait painter, who died in New York the other day, was born in Rome in 1849. His father, an artist, was made a marquis by Pius IX. One of the best examples of Virgilio's work in this country are the decorations of the late Cornelius Vanderbilt's house in New York.

EMBRACE THE OPPORTUNITY.

The public meeting to be held tonight, for the purpose of infusing new life into the moribund board of trade of this city, is one to which all citizens with the welfare of East Liverpool at heart should lend their presence and encouragement. By taking counsel together and uniting for zealous work with a common purpose in view, the business men of this city can hasten the growth of East Liverpool, rapid as it now is, and advance its prosperity, great as it is at present.

We want no fictitious boom, no sudden spasm of speculative zeal, resulting in visionary enterprises and then in collapse. We want substantial, steady and healthy growth. The only way for a town to induce such growth is to encourage manufactures—the more the better, provided they are of the sort calculated to benefit a community. In these days industrial plants do not come to a city uninvited; they go where inducements are offered. There are enterprises now seeking locations; there always are. East Liverpool may get some of them if she extends a proper invitation at a proper time; but they will certainly never come her way if she sits down, folds her hands and waits for them. In these days nothing worth having comes to those who do not ask for it.

Numerous neighboring cities, by advertising their advantages and holding out inducements, have secured important industrial plants in the past two or three years—plants which will be an important element in their future growth and prosperity. East Liverpool has equal advantages to offer and needs only to go about it in the right way to secure new industries. Let us go about it.

MAKING TRAMPS WORK.

The testimony of Hon. T. L. Kennedy, of New Brighton, Pa., a member of the Pennsylvania legislature, is such as should interest those who believe that some other punishment than simple confinement in jail is necessary in the case of common drunkards, tramps and disorderly persons. "Beaver county," he says, "was at one time greatly afflicted with the hobo. Our local authorities have recently taken hold of the matter in a most practical manner. They have put the tramps and other vagrants to work on the public roads and breaking stone, and this has been found to work very satisfactorily. In my opinion the hobo problem can be met in every instance by the local authorities under existing laws."

What has been done in Pennsylvania ought to be possible in Ohio. As has been suggested by Mayor Davidson, there is need of providing work for petty offenders in East Liverpool. The proposition requires no argument. When are we to have an ordinance on the subject and a municipal stonepile?

A SUGGESTION.

The announcement was made in the News Review on Tuesday last that Charles M. Schwab, the head of the great steel combination, is to be in Chester next week to visit the mill owned by the company in that town. Would it not be a good idea for the board of trade meeting tonight to appoint a committee to wait upon him and tender him not only the hospitalities of Chester, but of East Liverpool as well? Mr. Schwab is a thorough business man and would doubtless be interested in looking over a thoroughly business-like community. He has spent a great deal of his life among iron and steel mills, and he might find the sights of a pottery town both novel and interesting. East Liverpool does not have the opportunity of entertaining such a captain of industry every day. It could do no harm to extend to him a cordial invitation to remain among us as long as his manifold duties will permit, and while he is here some of our citizens might drop a hint as to the possibilities of East Liverpool as a manufacturing center which might redound to our benefit hereafter.

The Wall street bulls and bears are rending each other desperately. The wise man will stay out of the melee.

Judge Hole is teaching careless saloonkeepers caution. His lessons come high, but they are evidently needed.

Let's have a board of trade that believes in expansion for East Liverpool and will work for it.

Don't you wish you had bought Northern Pacific?

FRIENDS AND VISITORS.

Jesse Fisher was a Beaver visitor yesterday.

Mrs. Amanda Morse, of Ironton, is visiting relatives on Jackson street.

William Wallbank left yesterday afternoon for a business trip to Sebring.

Miss Araminta McLane left yesterday afternoon for a visit at Pittsburg.

Bobbie Smurthwaite has joined forces with the Southside base ball team.

E. A. Albright returned to Sebring this morning after a short visit in this city.

Frank Sells left Thusrady night for Olean, N. Y., where he will visit for several weeks.

Mrs. Robert Twaddle and Mrs. George Obney are spending a few days at Brilliant.

Miss Laura Conkle left this morning for a visit at Salem. She will go from there to Ada, O.

Albert Van Wey, a Pittsburg commercial traveler, is visiting friends and customers here today.

Mrs. R. Nichols returned to her home in Toronto this morning after a visit with relatives in this city.

Isabelle, the 2-year-old daughter of Mr. and Mrs. Thomas McCann, Sixth street, is ill with the measles.

A little child of Mr. and Mrs. Oliver T. F. Manley left this morning for Pittsburg to take charge of a restaurant, which he recently purchased. Dickey is very ill at their home in the West End, with convulsions. Mr. Dickey is working at Lisbon and will probably be called home at once.

The finest line of Fur and Straw Hats in the city arrived this week at THE SURPRISE CLOTHING HOUSE. 282-i

PUT DOWN BY THE FIRM.

Impression About the Laughlin Plant Well Corrected.

Though it has been repeatedly stated in the News Review that the well at the Laughlin plant in the East End was put down at the expense of the firm, the impression has got abroad that it was put down by the pottery hands. Such is not the case. The firm, when it learned the desire of its employes for a well, went to work and had it put down and paid for the work.

DROWNED BOY'S CORPSE FOUND

Body of an Unknown Lad Picked Up In the Ohio River on the South Side.

HAD BEEN IN THE WATER LONG

The Clothing Showed That the Little Unfortunate Had Belonged to a Well-to-Do Family—Supposed to Have Been a Flood Victim.

The body of an unknown boy, apparently about 10 years of age, was found floating in the river just above the residence of Eramus Marshall in Chester at 11 o'clock today. The body was badly decomposed, and it was impossible to recognize the features of the face. It had evidently been in the water for several weeks. The left hand had either been amputated during life or disconnected since the body had been in the water. The clothes strongly indicate that the lad had belonged to a well-to-do family.

Nothing of the coat remained, but a pair of black corduroy trousers which the boy wore were almost as good as new. They were of a fine quality, and finished with white buttons. He also wore a pair of fine shoes that were but slightly damaged.

The body was first discovered by Noss Bros. as it floated near the shore past their saw mill. They procured a skiff as soon as possible and started after the body, which they overtook when nearly opposite Marshall's residence. A rope was placed around the neck of the corpse and it was taken to the shore and tied up.

As there was no coroner in Chester the duty of holding an inquest devolved upon 'Squire Johnston, who was still at his home in the country about two miles east of Chester. William Clendenning was left in charge of the body and a messenger sent after the 'squire. In the meantime a considerable number of people had gathered at the river shore. None of them cared to view the mutilated corpse long and nobody was curious enough to examine it very closely. It was at first reported that a Chester boy had been drowned, and there was a good deal of excitement over the affair until the truth became known.

Most people think the floater is the body of a lad who fell from a raft on the river at Pittsburg during the recent flood.

The body can doubtless be easily identified by the clothing.

'Squire Johnston empaneled a jury at 1 o'clock today. They examined the body and returned a verdict of "death by drowning."

The boy wore around his neck a leather string with two medals attached and a "gospel" leather bag.

One of these silver medals bore these words: "My Guardian Angel, My Guide; on the other side, "St. Joseph, Model of Purity, Pray for Us." On the other medal were these words: "Mother of God, Counsel, Pray for Me," on the other side "Holy Crucifix. Venerated at Genozzano."

The jury completed its work at about 2:30 and the body was taken in charge by Undertaker Bowers. The body will probably be buried at once.

MAKING THE BRIDGE SAFE.

Steps Taken for Protection of the Public on Circus Day.

Superintendent Pauley has placed a sign on each end of the bridge, giving notice that on May 16, between the hours of 12:30 and 2:30 p. m. during the day, and 10:30 and 12 m. at night, no vehicles, horses or other animals will be permitted on the bridge. This is to prevent any accidents that might result from allowing vehicles and foot passengers to mix up on the bridge during the crowded hours of circus day.

When the Ringling Bros.' circus was held in Chester several bad accidents on the bridge were narrowly averted. At that time a startling report was circulated to the effect that the bridge "spread" several inches when the elephants and other circus animals were crossing. This time the elephants and people will not cross at the same time.

Guests from Kansas.

Henry Dever and wife, of Rice county, Kansas, arrived in Chester this morning and are visiting at the home of Mr. Dever's brother, William, who resides here. Mr. Dever has been in Kansas for 30 years. He likes the west very much and will try to persuade his brother to return with him.

LOST TWO TEETH.

Mishap to a Boy While Playing Ball.

Allan Criss had two front teeth knocked out while playing ball this morning. The youngster collided with Raymond Pippin and received the injury as a result.

CHESTER NEWS NOTES.

One of the heating furnaces was removed from the mill today.

Mrs. Edgar E. Pauley is visiting her mother, Mrs. Jennie Coolhoff, of Arlington avenue, Allegheny.

HE ENJOYED IT.

Justice McCarron Says His Stay at the Cleveland Hospital Was a Pleasant One.

Justice McCarron, who recently returned from a Cleveland hospital, says his health was never better than at present. He is unsparing in his words of praise as to the treatment he received at the hands of the female nurses of the institution. The justice declares that some of the girls were as near being angels as is possible to be. All they lacked, he says, were the necessary wings.

One of the young ladies who waited on the 'squire made such a favorable impression on him that he almost wishes he could get sick again for a little while, so that he could go back to the hospital. In telling his experience to a reporter the magistrate says he was much surprised to find the attendants and doctors so agreeable. He had always labored under the impression that a hospital was a sort of prison and that the subjects for treatment had troubles of their own. To his delight, however, Mr. McCarron found the circumstances to be quite the reverse, and he says he really enjoyed his stay at the Cleveland institution.

HOME AFFAIRS.

Brief Notes of a Personal Nature And of Matters About Town.

Work at the Freight Station—Taylor Norris and T. M. Pyles have accepted positions at the outbound platform of the freight station as rollers. They went to work this morning.

In New Homes—Sam Brothers has moved his family to his new home on McKinnon avenue, which was recently completed. J. C. Cain, of Beaver Falls, moved his family to the Aley property on Bank street.

His Case Hopeless—The condition of Samuel Derrington, of Fifth street, who has been ill for some time, is worse than ever. The doctors say he may survive through half the summer, but that he will never be able to leave his bed.

Card Party—Mrs. W. C. Lynch, of Thompson avenue, entertained a party of ladies at cards yesterday afternoon. The first prize, a salad set, was won by Mrs. W. R. Clark. The consolation prize, a fine bunch of carnations, went to Mrs. F. W. Milligan.

Child's Heavy Fall—A two-year-old child of Mr. and Mrs. Diehl, of Fourth street, accidentally fell from a lower story window Thursday evening to the brick pavement. The tot alighted on its head and was badly bruised. The skull was not crushed, however.

New Arrivals—The household goods of E. H. Yonker, from Point Pleasant, W. Va., and those of William Roush, from New Haven, W. Va., were brought to the city last night by the steamer Greenwood. Those of Charles Fisher, from Salineville, and R. Sittingians, from Freedom, Pa., were received at the freight station today.

Belmont Club Reception—Invitations are out for the first annual reception of the Belmont club, to be held at Rock Springs Park Thursday evening, May 23. There will be dancing from 8 to 12. The committee having charge is composed of Arthur E. Bowlder, Lawrence S. Bloor, Geo. H. Stewart, Harry R. Dickey, Ralph K. Mackintosh and Charles R. Marshall.

CORRECT DRESS FOR MEN.

Summer Flannels, Fancy Worsteds, Unfinished Worsteds, Cassimeres, Thibets in all the swell green and olive effects, neat stripes, checks, plaids and interwoven checks.

We Cut Down Tailor Bills.

Suits that are made right. Shoulders padded. The collar set close to the neck and stiff and soft front coat, the same exactness that is required in well made clothes and our prices are much lower than those asked by merchant tailors. You will do yourself a favor if you will examine them.

Take a suit home and submit it to the approval of your family, then, if you want to, bring it back and get your money.

Little Fellows Suits.

IS YOUR BOY WELL DRESSED? HE SHOULD BE. HE CAN BE. IT IS NOT A MATTER OF LARGE EXPENSE.

Many of the neat little fellows you see wear our Vestee Suits, at $2. Why not dress up your boy and make him proud of himself, as good as any boy. Our better grade good clothes at small cost, $2.50, $3, $3.50, $4, $4.50 and $5, in Norfolk, double-breasted and Junior style.

THE NATIONAL GAME

PLUMBERS RAN UP A BIG SCORE, BENEDICTS WINNING.

Belmont Club And High School Teams On the Diamond Today.

The married and single plumbers played a very interesting game of ball at Rock Springs park yesterday afternoon. They lined up as follows:

Married.		Single.
Davidson	Catcher	Jackson
Smith	Pitcher	Zange
Darrah	Shortstop	Ivory
Laughlin	First base	Stewart
Holmes	Second base	Brown
Kemper	Third base	Hall
Bence	Right field	Riske
Helm	Center field	Kinsey
Fowler	Left field	Edwards

The game was won by the married men by a score of 29 to 25, and they are now arranging for a game with the street railway motormen to be played at Rock Springs park next Tuesday afternoon.

The Belmont club and the high school base ball teams are playing a game at Rock Springs park this afternoon. The game was called at 4 o'clock and the teams lined up as follows:

Belmont.		High School.
March	Catcher	Cripps
Toothman	Pitcher	E. Gardner
Cook	Shortstop	D. Rigby
Hawkins	First base	F. Rigby
McIntosh	Second base	Schepp
Stewart	Third base	F. Gardner
Kife	Left field	Clinton
Wallover	Center field	Cartwright
Marshall	Right field	Young

Joe Herbert and Homer West umpire the game.

Houck Has Been Indicted.

Mt. Vernon, O., May 10.—The grand jury has returned an indictment against George W. Houck for murder in the first degree on two counts. Houck is charged with having beaten Sarah Jane Hess to death with a club at Bladensburg, March 10. The murdered woman was a widow 70 years of age. It was the most brutal murder ever perpetrated in this part of the state.

Ground to Pieces By Train.

Bellaire, O., May 10.—Joseph Gilbert, of this city, while on his way to Benwood, W. Va., over the Baltimore & Ohio railroad bridge, was ground to pieces by a passenger train. He stepped from one track to avoid a freight train and in doing so placed himself in front of the passenger train.

Caught 90 Fish—Thomas Collins and Milt Simms were fishing at Beaver creek yesterday and made a good catch. They secured 90 fish.

CANTON'S CARRIE NATION

Belabored Her Husband And Partially Wrecked the Saloon Where She Found Him.

Canton, May 10.—Mrs. Anna Burrell, a Canton woman, has blossomed out into a veritable Carrie Nation. It appears that Mrs. Burrel, who is a very hardworking woman who has had the arduous task of providing for a husband and eight hungry children, went into the saloon of Chris Schauwecker on the lookout for her husband. She had previously warned her husband not to go into that particular saloon and also had warned its proprietor not to allow him there. Therefore, when she entered the saloon and found her worser half there her indignation knew no bounds.

The memory of her needy children and her husband's ruin stung her to fury and she smote him over the head with an umbrella which she carried, and then went after the place. She demolished a show case, a glass screen, a window and other breakable things and then left with her humbled spouse, leaving the surprised German staring in open-mouthed wonder at the door by which she had departed.

Mrs. Edgar E. Pauley left this morning for a visit with her parents at Pittsburg.

RAILROAD COMBINES

Community of Interest Plan Extended to Nearly All the Big Lines.

UNDER SEVEN MEN'S CONTROL

Eight Great Groups Managed by Magnates Who Work Together in Harmony—J. Pierpont Morgan Practically Dominates Southern Lines.

The growth of the community of interest idea in the ownership of the railroads of the United States has been one of the most important features of the country's industrial development.

The Common Carrier of Atlanta, Ga., paints in its April issue a very striking grouping of the railroads included in the community of ownership. The mileage of the groups is as follows:

	Mileage.
Vanderbilt	19,517
Harriman	20,245
Morgan	19,073
Pennsylvania	18,220
Gould	16,074
Hill	10,373
Belmont	4,430
Belmont-Morgan	532—108,464
Independent	37,977

The constituent lines in the several combinations or groups are:

I—VANDERBILT GROUP.

	Miles.
New York Central lines	10,016
Delaware, Lackawanna and Western	951
Chicago and Northwestern	8,550
Total	19,517

II—MORGAN GROUP.

Southern railway	6,807
Mobile and Ohio	879
Queen and Crescent	1,115
Central of Georgia	1,835
Georgia Southern and Florida	255
Macon and Birmingham	97
Philadelphia and Reading	1,891
Lehigh Valley	1,104
Erie	2,271
Central of New Jersey	677

BIG TELEPHONE TRUST.

Plan to Organize a $90,000,000 Combination.

John I. Sabin, president of the Pacific States Telephone and Telegraph company, is in New York concluding negotiations for the organization of a $90,000,000 telephone trust, according to information which came from San Francisco the other night, says a Chicago dispatch to the Philadelphia Press.

It is said that Mr. Sabin is to be the president of a telephone combination which will not only control the companies which operate in all the large cities, but will take the active management of their affairs out of the hands of local officers and operate the various companies as branches of the trust.

The American Telephone and Telegraph company is understood to have controlling interest in the stocks of the telephone companies in Chicago, New York, Philadelphia, Boston, Buffalo, St. Louis, Pittsburg, Cincinnati, Denver, Duluth, St. Paul, Minneapolis, Milwaukee, Detroit and scores of other cities. The new trust, it is estimated, will own 1,901,000 miles of wire, connecting 101,000 telephones.

THE RIVER RISING.

A Barge Stage Is Possible And Much Coal Is Awaiting Shipment.

There may be a good barge stage in the Ohio tomorrow, as heavy rains have been falling in the upper valleys for the past two days. The water was rising slowly at Pittsburg this morning, but it is not known how much water will come. It will be appreciated by the river men, as there are 5,000,000 bushels of coal loaded and a number of tows are there awaiting the rise. The marks at the wharf today registered 7 feet and stationary. The Greenwood and Lorena passed up last night, the Queen City will go up tonight and the Greenwood will go down. The towboat Hornet passed up yesterday with a tow of empties.

The government is removing the dike at dam No. 3 on the Ohio river at the foot of the trap, and pilots say that the place will prove a dangerous one to steamboats. The taking away of the dike will cause a strong current and may be the cause of accidents.

MADE MAN AND WIFE.

Miss Iva E. Campbell Wedded to Mr. Benjamin Hodgson.

Miss Iva Estella Campbell, daughter of Mr. and Mrs. Samuel Campbell, of Avondale street, was married Wednesday evening to Benjamin Hodgson, son of B. H. Hodgson, of Norton street. Rev. Clark Crawford performed the ceremony at the home of the bride's parents.

At the conclusion of the ceremony the wedding party was invited to the dining room, where an elaborate supper was spread. A crowd of young people gathered on the outside of the house and indulged in a charivari of an ear-splitting nature.

Thursday evening a reception was tendered the newly wedded couple at the home of the groom's parents, and was a most enjoyable function. Mr. and Mrs. Hodgson will reside in this city. Both are prominent in social circles.

FORTY MILLIONS MORE.

Ohio Bank Deposits Show a Great Gain Over Last Year.

Columbus, O., May 10.—The total deposits of the banks of Ohio, exclusive of the national banks, as ascertained by Auditor of State Guilbert, are now $163,539,055.30, against $123,986,542.84 last year — a gain of $39,552,602.84. The sum total of deposits is for this year unprecedented. During the year there was an increase of banks to the number of 20, the total of banks now in the state being 201.

CIVIL WAR CHARGES.

THE ASSAULT AT GETTYSBURG AND KENESAW MOUNTAIN.

A Veteran's Opinion of the Two Brilliant And Exciting Engagements.

"Shortly after the battle of Chickamauga," said Captain Fitch, "I was appointed chief quartermaster of the signal corps of the department of the Cumberland, stationed at Chattanooga. On taking account of the quartermaster's stores I found that I was in need of some light wagons to be used in the mountainous country, and the only way to get them was to go to Nashville and have them made, so I went to Nashville and had five light wagons made by the quartermaster's department. When I got back to Chattanooga with the wagons, I put a citizen teamster in charge of the wagons and mules.

"The teamster, being a green hand, did not know that mules would eat anything within their reach and innocently tied them to the wheels of the wagons. Not long after that I got an order to be ready to march, and on going out to inspect my outfit I found that the mules had eaten the spokes of the wheels nearly off, so that the wagons were ready to fall down of their own accord. As I could not use them I had no recourse but to drop them from my returns, and, being obliged to assign a reason for so dropping them, I gave the true one—viz, 'Eaten by mules.'

"Shortly afterward I got a letter from the quartermaster general sarcastically inquiring if Lieutenant Fitch had observed whether the mules had eaten the tires or not. I replied that I presumed they had, as they seemed to be thoroughly tired the next day. The quartermaster general wrote back, 'Any further trifling with this department on the part of Lieutenant Fitch will probably result in his being retired to private life.' Thereupon I dropped the subject, but my first report was correct."

"At Chickamauga," said the major, "Longstreet's men ran over our headquarters teams. Every mule in one of the teams went down, and the wagon stood an obstruction in the road. Five minutes later every mule was on its feet, and a wounded teamster yelled at them to pull out. They started without more ado, swept along the road after our broken regiments and, turning at just the right point, came into our new lines and stopped where the headquarters flag had been stuck in the ground. The driver reported later and drove into Chattanooga.

"One of these mules the night before had pulled the blanket off our division commander, had run over the lines of soldiers sleeping in close battle order, had raided the Confederate pickets and had returned to our bivouac under a furious fire. The men of the brigade took a solemn vow to shoot the mischievous mule at daylight, but when daylight came they had other things to shoot at, and the mule was forgotten until he came in at the head of the team attached to the headquarters wagon. Then the boys who had witnessed the charge and the escape of the driverless team counted the mule's deviltry as nothing."

"That charge of Longstreet, by the way," said the colonel, "was one of the great charges of the war, and it was as successful as any as a breaker of lines. Of course we think of Pickett's charge at Gettysburg in a class to itself, but I have often wondered whether the Union assault on the Confederate position at Kenesaw mountain June 27, 1864, should not be put in the list with the Confederate charge at Gettysburg. Pickett's charge was of course the more spectacular, and the assaulting force was more compact, but while it broke the Union line at one point it was driven back in disastrous retreat.

"The direct assault on the fortified line on Kenesaw was made by three brigades, no better troops than Pickett's Virginians, but it must be remembered that while they failed to pierce the Confederate line they held their position and did not retreat. Their loss was correspondingly as heavy as Pickett's at Gettsburg. Sherman's idea was to show his own army as well as the Confederate army that he could make a frontal attack. If the assault had been made and the assaulting column had retired, as did Pickett's column at Gettysburg, the effect on the army would not have been as it was when the regiments that led the assault clung to their position not more than 30 paces from the Confederate parapets.

"The attack failed except in that it was an illustration of the spirit of the Union troops in assault. Lee's purpose at Gettysburg was undoubtedly to drive Pickett's 16,000 men like a wedge through the Union lines. The failure of the attempt led to the retreat of the whole Confederate army. Sherman's purpose at Kenesaw was to capture the Confederate fortifications. The attack led to the retreat not of Sherman's army, but of the Confederate army, and I have always held that the ground over which the Union regiments of that day swept forward ought to be as precious to the men of McCook's, Harker's and Mitchell's brigades as is the ground at Gettysburg to the men of Pickett's brigades."—Chicago Inter Ocean.

MAY BUILD AT MONACA

Rival to the Crucible Steel Co. Is Making Arrangements for Building a Plant.

The Colonial Steel company of America is the name of the latest rival to the Crucible Steel company of America. It is the company formed by James W. Brown, formerly of Howe, Brown & Co., who recently retired from the combination. Mr. Brown will have associated with him in the new venture George A. Howe, who was secretary of Howe, Brown & Co., Limited. In the latter company, which sold its property to the crucible combine, Mr. Brown was chairman.

The Colonial Steel company of America will start with a capital of $1,000,000, which subsequently is to be increased, possibly seven fold. Papers for application for a charter will be filed at Harrisburg. Besides Mr. Brown and Mr. Howe others of the former partners of Howe, Brown & Co., Limited, are associated in the new venture. Plans for the plant of the company are being completed by a Pittsburg engineer and architect.

The new plant will likely be located at South Monaca, Pa., about 25 miles from Pittsburg on the Lake Erie railroad. An option on 150 acres of river frontage has been secured. The property is known as the Cooper farm, which is owned by a syndicate represented by H. C. Fry, former president of the National Glass company.

SUMMER TERM
FOR
Teachers
COMMENCES
June 3, 1901
AT
The Ohio Valley Business College,
E. LIVERPOOh, O.

LEGAL.

OFFICE OF CITY CLERK,
EAST LIVERPOOL, OHIO,
May 2, 1901.

SEALED PROPOSALS will be received at this office until 12 o'clock, noon, of Thursday, June 6, 1901, for the purchase, with accrued interest at delivery, of the following street improvement bonds of said city:

PENNSYLVANIA AVENUE AND KOSSUTH STREET IMPROVEMENT BONDS.

One bond for Eight Hundred Sixteen ($816.00) Dollars, dated July 1, 1901, due July 1, 1902.

One bond for Eight Hundred and Sixty-four, ($864.00) Dollars, dated July 1, 1901, due July 1, 1903.

One bond for Nine Hundred Eighteen ($918.00) Dollars, dated July 1, 1901, due July 1, 1904.

One bond for Nine Hundred and Seventy-two ($972.00) Dollars, dated July 1, 1901, due July 1, 1905.

One bond for Ten Hundred Twenty-nine ($1029.00) Dollars, dated July 1, 1901, due July 1, 1906.

WEST MARKET STREET IMPROVEMENT BONDS.

One bond for One Hundred Ten ($110.00) Dollars, dated July 1, 1901, due July 1, 1902.

One bond for One Hundred Seventeen ($117.00) Dollars, dated July 1, 1901, due July 1, 1903.

One bond for One Hundred and Twenty-five ($125.00) Dollars, dated July 1, 1901, due July 1, 1904.

One bond for One Hundred and Thirty-two ($132.00) Dollars, dated July 1, 1901, due July 1, 1905.

One bond for One Hundred Thirty-nine ($139.00) Dollars, dated July 1, 1901, due July 1, 1906.

These bonds are issued in anticipation of the collection of the special assessment for the improvement of the above named streets and may be reduced in amount by the payment of assessment before the date of issue. They will bear interest at the rate of six (6) per cent per annum, payable annually, both principal and interest payable at the office of the City Treasurer.

Bidders will be required to state in writing and in figures, the gross amount they will pay for the bonds bid for in addition to the accrued interest at the date of delivery, and no bid will be accepted for less than the par and accrued interest at date of delivery.

Each proposal must be accompanied by a certified check on some national bank for two (2) per cent of the amount of the bid, check to be made payable to the order of the clerk of said city, as a guarantee that if the bid is accepted, the bonds will be promptly paid for when delivered, otherwise said deposit to be forfeited to said city.

The City Council reserves the right to reject any or all bids.

Proposals should be addressed to
J. N. HANLEY,
City Clerk.

Published in the EVENING NEWS REVIEW for five weeks, commencing May 2, 1901.

Found At Last.

A sure cure for dandruff and all itching scurf on the scalp, will also prevent premature gray hair. It was discovered by M. Sebourand, the noted French scientist and specialist on skin diseases, that dandruff and falling hair were caused by the existence of microbes in the scalp, and this preparation has been tested and proven a perfect microbe exterminator. No washing of the head required. **One 50c bottle will remove all dandruff, and two bottles will permanently cure. A cure guaranteed or money refunded.**

BOLTON'S LAST YEAR.

The Way He Spent It Preparing For His Death.

"Billy Bolton, the Lansingburg brewer, was a very rich man and one with a host of friends," said an up state man to the New York Sun. "His brewery in Lansingburg was a profitable concern, and he practically owned about all the saloons in that town.

"One day after a consultation his physicians told him that he had Bright's disease and that he surely would not live more than a year. Billy took their word for it and made up his mind to make the fur fly while life was left. He had never traveled much, and so he decided to go around the world.

"He took with him a congenial friend and plenty of money, and away they went. They left a trail of fire and ashes through all the capitals of Europe and the queer and strange places of Asia and Africa. After nine months they came back, and Bolton brought with him the most marvelous collection of souvenirs and presents that any man not a professional collector ever brought into this country. The duties amounted to $3,000.

"Arrived in Lansingburg, Billy hired the town hall, sent his packing boxes filled with these oriental and European treasures up to the hall and had them all taken out and put on exhibition as though for a church fair. Upon each article he marked the name of some friend whom he wished to remember with a gift. There were hundreds in this category, but Billy had presents for them all.

"On the day appointed for the presentation he invited his army of friends to the town hall. To each he turned over the present selected for him, and amid the cheers of his grateful and admiring fellow townsmen the hall was stripped of its beautiful things.

"When the last present had been placed in the hands of its recipient, Billy went back to his home and lay down to die. Within the year his physicians' prophecy came true, and the town gave him the finest funeral that any man ever had."

The shirt waist man can be accommodated with shirt waists at THE SURPRISE CLOTHING HOUSE. 282-i

OUR QUAIL FOR SWEDEN.

Over 5,000 American Birds to Be Shipped This Spring.

Consul Nelson, at Bergen, reports to the state department at Washington that the import of American quail into Sweden by Count Claes Lewenhaupt of Fosstorjo has awakened lively interest. More than 5,000 quail, representing a sum of about $3,500, have been ordered for the spring, and still more orders are expected. The birds will be sent in cages, 50 in each cage, constructed especially for this purpose.

The small lot of American quail which was set free on Count Lewenhaupt's estate at Claestorp last spring has endured the winter very well, and it appears that Sweden has good prospects of an increase in its game birds.

VICTIMS OF CANNIBALS.

Rev. James Chalmers and Rev. Oliver Tomkins Met an Awful Fate.

Brisbane, Queensland, May 10.—A searching party, which has returned from New Guinea, discovered the half eaten remains of the Rev. James Chalmers and the Rev. Oliver Tomkins, of the London Missionary society, and their followers, who were massacred in April by natives of Fly River, New Guinea, after a tribal fight.

Similar, but Different.

"Do you think I am capable of acting a part?" asked the stagestruck youth.

"I do," replied the busy manager, "and the farther apart we are when you act the better it will suit me."—Chicago News.

ATTRACTIONS OF Y. M. C. A. ROOMS

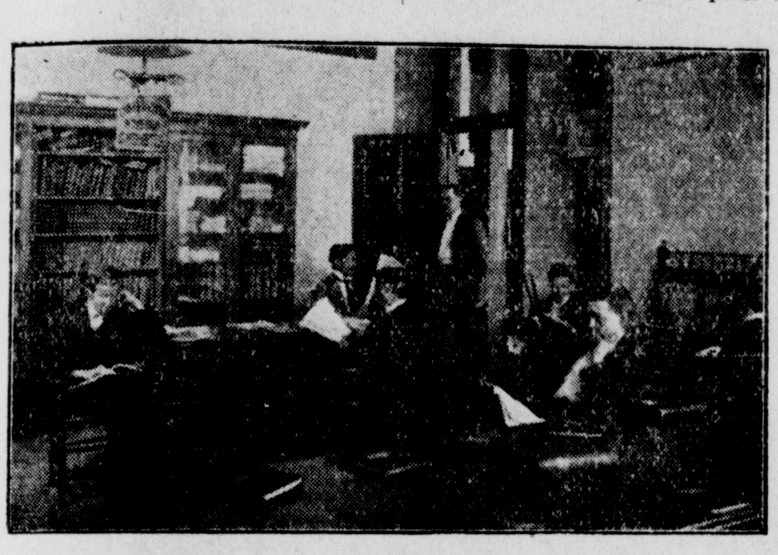
Great Improvements Wrought Throughout the Building In a Brief Time.

GENEROUS CITIZENS HAVE AIDED

Thorough Renovation at Considerable Cost—The Organization Prospering As Never Before—Important Plans for Good Work.

During the past two months a very noticeable activity has been apparent at the Young Men's Christian Association rooms in this city, and the change in appearance of the outside of the building seemed to warrant a closer inspection and inquiry into the work which, after being closed for some months, had apparently taken on new and very vigorous life.

It was found that the entire work was being done by donation; that, when Mr. M. C. Wright, the present general secretary, was engaged it was the opinion of the friends of the association that the rooms must be made attractive and the only practical way in which this could be attained was by donations. Mr. A. H. Bulger offered to pay for the papering and painting of the parlor and afterwards give combination drop chandeliers for parlor and hall. The D. M. Ogilvie Co. donated the cost of the papering and painting and chandelier for the reading room; W. A. Hill, paper for hall and J. Corey labor; Joseph W. Manor paper, paint and labor for office and labor of wainscoting game room; W. F. and J. T. Smith lumber for wainscoting game room; W. A. and Louis Weaver paper and labor for game room; Robert Hall, A. H. Bulger, D. M. Ogilvie Co., S. P. Ankrim, L. Gray, Dr. Clarke, George Heiss, C. Bence and John McShane inlaid linoleum for reading room; Robert Hall lumber and labor of new platform and for dropping floor in front of both and in dressing room, also cement for the floor; the S. G. Hard Co. shades for parlor and reading room. The Y. S. C. E. of the First Presbyterian church body Brussels carpet for parlor; W. A. Hill carpet for office; S. Ankrim and Enoch Elden awnings; V. Harris jardiniere and pedestal; C. Peterson palm; the Milligan Hardware and Supply company paint for exterior of building; G. T. Brunt $10 toward painting. The young men donated the money for putting down



A CORNER OF THE READING ROOM.

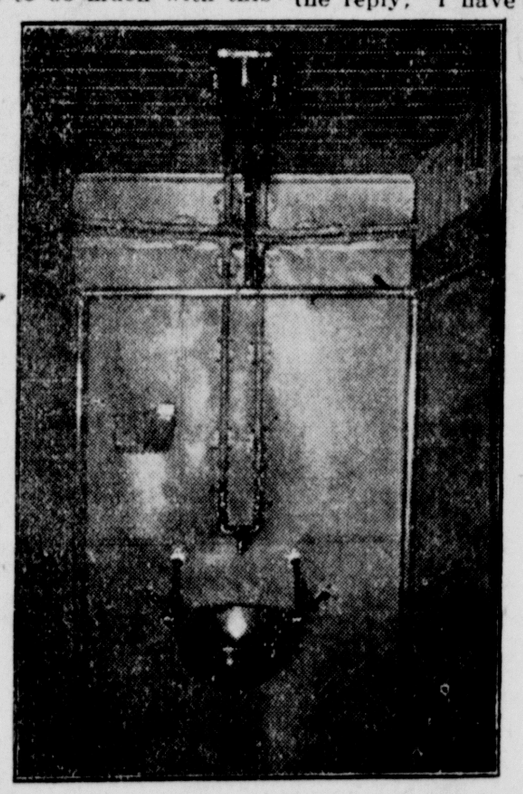
carpet in front of baths and in dressing room. From this list it will be seen that the work done has been considerable, in fact it represents about $575, and the general secretary says that there is still considerable to do, that he expects a cork carpet for the hall and already has in sight nice furniture for the parlor.

The rooms are very attractive. On account of a reputation for dirt which the baths possessed they were all thoroughly cleaned, enameled white, and the woodwork painted white and varnished and the entire locker room and bath room woodwork is now being painted the same color. This with the beautiful tile floor makes the bath rooms and accessories clean and attractive. The secretary is evidently a good housekeeper.

The reading room is well supplied with current literature, trade journals and daily papers, and, like the rest of the rooms, is kept beautifully clean.

There has been no work done in the gymnasium outside of thorough cleansing. The gym is fairly well equipped and the boys are making constant use of it. In the fall some necessary repairs will be made, but they are not extensive.

The plans for the future are still immature, but they include evening classes and a series of socials, literary and otherwise, the plan being to make the upper room a sort of social center for the young men—and their girls—during the fall and winter. The nucleus of a glee club is also in sight, and (probably) an orchestra, but the secretary is too busy filling up the membership list to do much with this at present.



THE NEEDLE BATH.

The association, whatever its mistakes in the past, certainly deserves the hearty support of the public at the present time, and the friends of the movement look forward to a time when East Liverpool will have an association building fully equipped for the needs of the town and doing a vigorous work among the young men—especially the homeless young men of town.

That the present general secretary is the "right man in the right place" is confidently believed by the board of directors and by those who have met him. He has been here but two months, and, if his past is an earnest of his future work, the fact is proven. With a strong personality he impresses those with whom he is brought in contact, and not only the young men, but the boys speak of him in the warmest terms. His "Boys' Band" has grown from 16 to 49 in four weeks and 12 of the boys have professed conversion in the past six weeks; 43 men, in the Sunday meetings, have signified a desire to lead a better life. Considering the fact that the work had to be built anew, the result so far has been marvelous, especially when it is considered that $3,265 was raised in two days and collected in the next two. Citizens must have an unbounded confidence in the future of the work to make such a subscription.

A GLYMPSE OF THE GYMNASIUM.

Tale of a Frugal Bishop.

"There used to be in a city in which I lived," said a Cleveland man, "a certain bishop who, while possessed of the highest principles and whose aims and ambitions in life were of the highest character, at the same time united with these a penuriousness in money matters that caused innumerable stories illustrative of this failing to be tacked upon him. One of these related to a certain church conference which the bishop and other dignitaries of the church at one time attended.

"At one of the meetings the bishop in endeavoring to open a letter neatly with his penknife was so unfortunate as to allow the latter to slip and to cut a finger severely. The injured member bled profusely, and a hasty search for court plaster ensued. There being none forthcoming, a clergyman standing by fished out his cardcase and, extracting from it a 5 cent stamp, the smallest priced stamp he had, offered it to the bishop to use as a substitute for the much needed court plaster.

"The bishop accepted it gratefully and in his turn took out his own card case. In it he placed the 5 cent stamp and then, producing a 1 cent specimen of his own, he pasted it over the still bleeding wound."—New York Tribune.

Mulcting Wagner.

Wagner when a young man wrote a sonata which had a fair success, but in after life he made every effort to suppress it. Going to the publisher, he said, "Have you any copies of that miserable thing still unsold?" "Yes," was the reply; "I have quite a number of them in stock." "Send them to me at once, with a bill," said the composer. A thousand copies were soon afterward delivered at his door. The bill was a big one, but it was paid, somewhat grudgingly, and Wagner thought he had done with the thing. What was his surprise, then, at receiving two or three months later on another consignment, this time of 500 copies.

"I thought you had only a thousand of these things," he protested. "That was all I had in stock," explained the dealer, "but these have been returned by my agents, to whom I wrote that you wished to have the sonata suppressed." Wagner winced, but there was nothing for it but to pay the bill. And thereafter whenever business was dull with this crafty publisher a few hundred copies of the sonata would be struck off on shopworn paper and delivered at the composer's door, with a memorandum to the effect that they had just come back from remote places where they had been sent for sale.

John Allen's Pair.

When the house voted to prohibit liquor selling in army canteens, John Allen of Mississippi was not recorded. Some good women of Mississippi noted the fact that he did not vote and called on him for an explanation, knowing that Mr. Allen had been at one time quite active in the Congressional Temperance society. Mr. Allen replied that he was paired on the canteen question. "You see, ladies," he said, "the situation was this: My wife thinks very much as you do about this legislation in regard to the canteen. I have some doubts as to whether congress will really promote temperance among soldiers in this way. So I paired my judgment with my wife's conscience and decided not to vote."—St. Louis Globe-Democrat.

A BATTLE ROYAL FOUGHT BY GIANTS OF WALL STREET

Yesterday an Eventful and Trying Day in the Stock Market.

A PANIC ON THE EXCHANGE

The Cornering of Northern Pacific the Impelling Cause of the Crisis.

THE GAMBLERS WERE HIT HARD.

Many In Obulent Circumstances Reduced to Penury In About 15 Minutes—Many Were Outside People Who Had Invested Their Small Hordings—Hysterical and Fainting Women Driven Away in Cabs. Bankers Finally Tried to Protect the Market by Loaning $16,000,000 at 6 Per Cent—$25,000,000 to $30,000,000 Loaned on Private Account at That Rate—The Situation Thursday Was Due to Struggle For Control of the Northern Pacfic, Large Blocks of Which Stock Were Under Speculative Control by a Third Party—Each Side Was Afraid to Loan to the Shorts.

New York, May 10.—Last night closed upon the eventful trying day in the stock market without definite settlement as to the Northern Pacific, the central figure in the fierce struggle. It was anticipated that there would be an agreement for settlement with the shorts, but it was evidently not finally concluded. Shortly after the market closed it was semi-officially announced that a basis of settlement had been practically agreed upon and that it would be clinched before nightfall. About 5 o'clock, however, Kuhn, Loeb & Co., whom the street accepts as masters of the situation, announced that nothing could or would be said as to the stock that day. There was a spirit of compromise and conciliation in the air, but until it should bear the fruit of definite settlement the situation in Northern Pacific was felt to be a menace to the whole market. Kuhn, Loeb & Co., and the men enlisted with them in the Harriman syndicate, seemed disposed to a reasonable peace, and on the outside the strongest influences of the financial world were moving determinedly for a truce that will protect the market, avert panic and restore confidence. In addition to an arrangement with the shorts, it is believed the settlement of the fight will also involve the future relations of the Union Pacific, Northern Pacific, Great Northern and Burlington. Men close to the Harriman-Kuhn, Loeb & Co. group insisted that the deal for the sale of the Burlington to the Great Northern would be carried through. Granting that Harriman-Kuhn, Loeb & Co. and their associates are dominant in Northern Pacific, it is assumed that they will claim and win a voice in Burlington future. It is believed that the settlement with the shorts in Northern Pacific will be made at 200 or under. Kuhn, Loeb & Co. say they deprecate the policy of the third interest in taking enormous profits from the shorts, and their friends avow regret that outsiders suffered. A settlement with the shorts would clear the situation materially, but there would still remain the greater problem in railroad politics of the future of the road itself. On that point the following statement from a member of the Harriman syndicate is significant:

"Northern Pacific is in control of Kuhn, Loeb & Co. The only thing that can affect this control will be the possible inability of certain people to deliver the stock to them. J. P. Morgan & Co. are in the same position."

Some Details of the Market.

New York, May 10.—The threatening condition of affairs which developed in the stock market Wednesday culminated Thursday in a severe twist in Wall street. The corner in Northern Pacific was the impelling cause of the crisis, owing to the threat contained in the ruinous terms forced upon the shorts in that stock that disastrous liquidation would be forced at other points. Strenuous efforts were made by powerful financial interests in the country to avert the threatened trouble, and almost unlimited supporting orders were placed in the market for the opening, in anticipation of the heavy selling which was to come. Reassuring expressions were disseminated from the principal parties in interest to the Northern Pacific controversy, designed to dissuade alarmed holders from precipitate selling of their stocks, but all these precautions proved unavailing in face of the unmistakable index afforded by the price of Northern Pacific that the common in that stock was intact and therefore that the bitter controversy over the control of the property was still unsettled.

When Northern Pacific began selling at 200 and 300 and 500, and even as high as 700 on regular transactions and at 1,000 for cash, the appalling possibilities of the forced covering of the largest shortages at those terms weakened the whole market, and prices crumbled away with the utmost violence during the second hour.

Reckless Regard of Price.

The volume of blocks unloaded and the reckless disregard of the price which they brought were without precendent in the memory of the oldest trader. Before any check had come to the tremendous liquidation Delaware and Hudson had lost 59 points, Manhattan 39, Union Pacific 38, Rock Island 35½, Atchison 32½, St. Paul 30½, Missouri Pacific 32 and a long list of other stocks from 5 to 30 points. The predominance of the Northern Pacific corner on the situation was demonstrated by the quick rally in the market when announcement was made that the contending interests in Northern Pacific would not require deliveries of stock Thursday. Pretty broad intimations were also thrown out that such delivery would not be required so long as present conditions last. The exemption of Northern Pacific from the usual clearing house requirements of delivery still further allayed apprehension.

The quotations of the stock fell back to 300, both for cash and on regular transactions, after these annauncements, and there was a scramble to cover on the part of professional shorts. There were large numbers of bargain hunters also in the market. The combined effect of this buying was reflected in rallies extending in Delaware and Hudson to 55, Manhattan 34, Rock Island 33, Atchison 30, United States Steel preferred 20, actually carrying the stock 2⅛ points over Wednesday's close; Missouri Pacific 28, Louisville 23, Amalgamated Copper 22, St. Paul 21, and a large number of other stocks from 5 to 20 points. This rally was not fully held. The market became much quieter during the latter part of the day, but the extreme feverishness and nervousness continued. Even the action of the bankers by agreement in lending $16,000,000 on the exchange at 6 per cent failed to relieve the close from such very erratic movements and renewed bad breaks in prices. The extension of shrinkage in the value of securities and the corresponding increase in credits made money very stringent, and 60 per cent was bid at one time by those seeking accommodation. The action of the associated banks forced the rate down to 6 per cent. The feverish tone of the market at the close and the fact that the controversy which has precipitated the trouble was still unsettled, left the feeling of uneasiness retaining large force in the financial district.

Heavy Loans by Individual Banks.

There were very heavy loans placed also by individual banks, ranging in some cases to $25,000,000 and $30,000,000. Through the early part of the day bankers enacted the market rate for loans. But with the growing need to suppress the panic they offered the rate down to 6 per cent. Old customers of the banks were not charged over 6 per cent at any time, but when outsiders came in asking for new loans the law of supply and demand was allowed to run its course. The state of excitement was very apparent all through the financial district during the period of the panic, but there were few sensational scenes. Now and then a white faced woman would peer from a cab outside a broker's office and would be driven off in a fainting condition after receiving a message from the interior. Wherever any near approach could be made to a ticker or to a board on which quotations were posted there were great throngs of excited spectators scrambling for a view of the course of the market. But the real stress of the occasion came upon men who were shut up in either their private offices or those of brokers who were struggling and even fighting on the floor of the exchange. The outside country could obtain little idea of the actual occurrences on the exchange, as the brokers are remote from the public galleries in their temporary quarters in the Produce Exchange and are half shut off from view by the 16 foot wall. In the brokers' offices sat many men who were reduced to absolute ruin as a result of about 15 minutes' proceedings on the exchange. Some of these have been made opulent within a few weeks past as a result of the unparalleled rise of prices. With the true gambling spirit they have replaced all their winnings in new ventures on each successful turn. Thursday's drop therefore wiped them all out. In many cases one could see the gambler's fortitude with which the chances of gain were accepted. But the glittering attraction of this market has brought into it a constantly increasing assortment of more staid and inexperienced speculators; men and women who have brought long standing hordes from secret places and from saving bank deposits with the determination to make one successful stroke and then retire with the proceeds. The demonstrations from this class, which includes many women speculators, furnished the hysterical scenes and sensations of the day.

The Casualties Were Great.

The casualties were great and the field of battle was strewn with the wounded and may be with the dying. But of actual fatalities none was recorded of importance during the day. During the height of the panic rumors of insolvencies were bandied about more quickly than they could be reported. But no confirmations could be had of the intimations of financial wrecks.

The indications at the close of the day were strong that the principal damage had been wrought upon the speculative class or upon holders of securities on margin for whatever purpose.

Announcements by J. P. Morgan & Co. and Fuhn, Loeb & Co., who respectively represent the two contesting parties in Northern Pacific, that they would not require deliveries of the stock Thursday, meant a respite of one day at least from ruin for the shorts in the stock. Later in the day Street & Noron announced that they also would not require deliveries of the stock. This firm has been credited with acting for James R. Keene and bought 200,000 shares of Northern Pacific on Monday last, loaning 150,000 shares that night and calling in the greater part of it the next day, thus disclosing the corner in the stock. The theory that Mr. Keene's campaign had been directed towards a squeeze of the shorts was somewhat shaken by this leniency towards his victims.

Selling of bonds to protect stock holdings made that department of the market weak in sympathy with stocks.

U. S. new 4s advanced ¼ on the last call.

He Hacked Off His Leg.

Caught in a bear trap on the banks of the Athabasca, near Milford, Me., John McLeod, a lumber scaler, was obliged to take out his jackknife and cut off his leg. The trap was too heavy to move and was sprung in such a way that he could not reach over and release it. He was far from any human being, and the only way out of it seemed to be to cut off the leg.

That was done easily, because the leg upon which he operated was of wood. But when he stumped back to camp it made him mad to hear the jeers of the French-Canadian cook of the lumber crew.

"Why you no take off you whole wood laig, ah? You get out um thrap and no spile you wood laig 'tall, ah?"

Such a way out of his difficulty had not occurred to McLeod before.

Skill In Throwing Off Mail Bags.

The busiest clerk in any crew or car is the one who is detailed to receive and throw off the sacks and pouches. To lift a heavy mail sack and throw it from a car moving at the rate of a mile a minute is a matter of good target shooting. "Looks easy enough," commented one of the veteran clerks at the letter case, "and it does seem as if a man should be able to hit a station platform without much difficulty, but you see that station is passed and gone in about one second. Then, the suction of a train running at this speed is something terrific, and until the knack of throwing a pouch is learned a man is liable to feed the wheels with a few letters."—Saturday Evening Post.

Origin of the Word Sterling.

The origin of the word "sterling" is very curious. Among the early minters of coin in northern Europe were the dwellers of eastern Germany. They were so skillful in their calling that numbers of them were invited to England to manufacture the metal money of the kingdom. The strangers were known as "easterlings." After a time the word became "sterling," and in this abbreviated form it has come to imply what is genuine in money, plate or character.

WILSON WAS ROBBED

Secretary of Agriculture Lost His Pocket Book to a Western Thief.

MAN WHO GOT IT CAUGHT

The Purse Recovered—Another Member of Presidential Party Had Like Experience—President Reviewed a Floral Parade at Los Angeles.

Los Angeles, Cal., May 10.—The president and members of his party returned in their train last night and were to leave about 3 o'clock today for Delmonte, where they will spend Sunday. Stops were to be made on the way at Ventura, Santa Barbara and San Luis Obispo.

From a broad, blue canopied pavilion, surrounded by the members of his cabinet, the governor of Ohio and notables from many states, President McKinley Thursday reviewed the floral parade of the Los Angeles carnival. There were enormous crowds many coming from neighboring towns.

Mrs. McKinley did not witness the show, but she drove along Briadway and received the plaudits of the multitude just before the procession appeared. The president rode at the head of the parade in a carriage drawn by six spirited white horses with yellow satin harness. At the head of each horse walked a Spanish cabillero in green velvet and much gold braid. The carriage was a mass of white carnations and yellow coreopisis blossoms. A troop of cavalry, with yellow horse hair plumes waving above their helmets and wreaths of flowers across their shoulders, and blanke trolls of red carnations behind their saddles, headed by a band playing the Star Spangled Banner, preceded the carriage of the chief magistrate to the reviewing stand. As each carriage reached the reviewing stand the ladies in it arose and smilingly saluted the president with deep courtesies. The president was kept on his feet most of the time returning these greetings. He apparently enjoyed the experience hugely. Each lady carried a bag of rose leaves for use as confetti, and after saluting the president she threw a handful of the soft petals into his box. Before the parde was over he was ankle deep in rose leaves.

In the morning, previous to the floral parade, the president and his party were driven through the resident section of Los Angeles. In the afternoon the ladies of the president's party went to Passadena and took a drive there, while the president made a trip to the National Soldiers' home near Santa Monica. It is about 18 miles distant and he made the journey in electric cars. About 3,000 of the president's old comrades of the Civil War greeted him there. The old soldiers gave the president a remarkable demonstration. He was introduced by the governor at the home and made a speech.

Considerable excitement was caused by the discovery after the speaking that a pickpocket who had been at work in the crowd had relieved Secretary Wilson and Colonel Charles A. Moore of their pocket books. Later the thief was arrested. Several pocketbooks were found on his person, a gold nugget that Mr. Moore's son had obtained at the Congress mine in Arizona, and Secretary Wilson's pocketbook, which contained $175. The thief proved to be a pickpocket well known to the police.

Upon his return to Los Angeles late in the afternoon the president received Governor Nash and the Ohio congressional delegation at the hotel. There was no public function in the evening. The president and Mrs. McKinley dined at the residence of Homer Laughlin.

RESIGNATION ACCEPTED.

Heresy Charges Were Not Pressed Against Gilbert.

Chicago, May 10.—Heresy charges will not be established against Prof. George H. Gilbert, of Chicago Theological seminary, but he will no longer be connected with that institution. His resignation, which was tendered more than a year ago, was accepted by the board of of directors of the seminary. He gets half pay for one year. No action was taken on the heresy charge. It was not mentioned in the report made public by the board of directors, which is as follows:

"Your committee to whom was referred the resignation of Prof. George H. Gilbert respectfully recommends that the resignation be accepted as on the whole for the best interests of Prof. Gilbert and the seminary.

"In taking this action we desire to place on record our sense of appreciation of the eminent ability of Prof. Gilbert in the line of study he has made his own, his reverent spirit, his unaffected piety, his whole-hearted devotion to his work, his conscientious loyalty to truth as it has been permitted to him."

SOME NEWS IN BRIEF.

William Libengood, of Chestnut ridge, Westmoreland county, went insane and tried to kill his family.

Captain John F. Merriam was fatally stricken with paralysis during the excitement in a Wheeling bucket shop. He died two hours after the stroke.

The smallpox quarantine of Cumberland against the infected district of Bedford county, Pa., is being made more rigid. Mayor Warren C. White has ordered guards placed on the Valley road, the Bedford road and the Baltimore pike.

A meteor fell near Hyndman, Pa., and exploded when within 200 feet of the ground. Windows in the upper part of the town were rattled, and the explosion was heard several miles. The explosion accurred a short distance above the Close planing mill.

The new Cumberland Presbyterian church at Bentleyville, Pa., has been rebuilt and made almost new and has been rededicated. Among those taking part was the Rev. W. F. Silveus, of Pittsburg.

WARNED BY A BISHOP.

Gambling, Whether at the Club or In Stock Market, Leads to Downfall, Said Lawrence.

Boston, May 10.—"What will you give," asked Bishop Lawrence at the diocesan convention here, "for the future of the boy whose pin money is the gain at his father's game at the club?"

The bishop was uttering a solemn warning against national sins. He said:

"What we have got to keep ever before us is this, that if this nation is to be a moral force, if it is to have character, if, indeed, it is to survive at all, the spiritual powers must keep pace with the material increase. The fundamental virtues—truth, honesty, purity, obedience and charity—must be in control. The giant without the power of self-mastery will be the cause of his own downfall.

"One has only to listen for a moment to the shouts in the stock market during the past few weeks to be impressed with the danger in which our young men and women, our boys and girls, stand—the temptation to gamble, to get something for nothing, to try to make money fast, to hazard what is of value simply for the pleasure of the hazard. You see that I am not drawing fine distinctions, much less am I making the stock market the scapegoat for an increasing popular danger and vice."

After discussing gambling the bishop animadverted on impure literature. He said:

"The disintegration of mind and character that takes place in a young woman who goes to doubtful plays and reads doubtful novels unfits her for worship and for high and enobling thoughts."

APPEAL TO CATHOLICS.

Asked to Help the Chuch and Members at Jacksonville, Fla.

Jacksonville, Fla., May 10.—Right Rev. John Moore, bishop of St. Augustine, and Very Rev. William J. Kenny, vicar general of the diocese, issued an appeal to the Roman Catholic people of the United States and Canada, calling upon them to aid the Catholics of this place. The appeal recites the destruction of the church of the Immaculate Conception, the only one in the city; the parochial residence, St. Mary's orphanage and St. Joseph's convent, representing a total loss of about $125,000, and stated that today the Catholics of this city find themselves without a place to worship in; without a home for the priests; without a home for the sisters, and without a home for the orphans or a school for the children, and that in view of the utter impoverisnment and destitution of the Catholics here, unless they receive help from the outside Catholic world, it will be impossible to continue the work of Catholic progress of this community.

They called upon the Catholic people of the United States to help them out in this greatcalamity, and asked that contributions be sent to Very Rev. William J. Kenney, vicar general of this diocese, Jacksonville, Fla.

THE DEMAND ON CHINA.

Indemnity Claim of 450,000,000 Taels Was to Be Presented.

Pekin, May 10.—An indemnity claim of 450,000,000 taels was to be presented to the Chinese plenipotentiaries last evening. Official Chinese throughout the empire had been communicating with the court and giving advice. Most of them seemed to favor a loan guaranteed by the foreign powers. Others, prominent among whom is Chang Chi Tung, believed in raising the money in every possible way without a loan, and in paying off the entire demand within five years.

The court considered methods of raising 20,000,000 extra annually and provisionally approves the plan, but the Chinese plenipotentiaries have instructions to obtain a reduction of the indemnity demand as far as possible.

Whatever the final demands of the powers may be it was not believed that the opposition will be much more than a matter of form.

The ministers of the powers met Thursday morning and decided that the Chinese should be given to understand that the amount did not constitute the claim, but was the total of the expenses, including private claims considered fair, and was meant more to obtain an opinon from official sources as to China's ability to pay and also as to what means she would employ.

The News Review for the news.

POWER OF IMAGINATION.

A Druggist's Story of How It Worked In One Case.

"The power of imagination," said a New York druggist, "is past comprehension. Not long since a domestic in the employ of a prominent family came into the store in great haste with a prescription which called for two grains of morphine in two ounces of aqua pura—that is, distilled water—the accompanying direction reading, 'A teaspoonful every hour until the pain is allayed.' The patient for whom it was intended was the head of the family, who was suffering from a severe attack of nervous neuralgia.

"Now, it so happened that the family physician who had written the prescription was behind the counter when the messenger arrived, having dropped in, as was his wont, on the way to his office. While I was putting up the prescription we chatted and laughed and joked and passed the time of day as only professional men are capable of doing. I filled the bottle, corked it carefully and labeled it properly, and when the retreating form of the domestic had disappeared out of the store door returned to my companionable physician visitor. As I did so I saw to my amazement the two grains of morphine reposing upon the prescription scales.

"'Doctor,' I ejaculated, 'I've given that girl nothing but distilled water. The morphine is here; look at it. What shall I do?'

"'Do?' he replied, with admirable sang froid. 'Do? Why, nothing at all. I'll wager you that the aqua pura will work as well without the opiate as with it.'

"'Agreed,' said I. And do you know," concluded the pharmacist, "the doctor was right, and the patient with the nervous neuralgia—an exceptionally intelligent and college bred man—was sleeping as peacefully as a babe after the second dose of the 'mixture.' Faith is everything where medicine is concerned."—Exchange.

STALKED BY VULTURES.

While a Man Was Trailing a Buck the Birds Followed the Man.

I met with a curious and not altogether pleasant experience, writes an Anglo-Indian correspondent who has done a good deal of large and small game shooting in India, when I was one day stalking a black buck. Between me and my quarry lay a large flat field of black cotton soil bordered by a very low, straggling and thinly growing hedge of small babul trees. My only way to get a shot was to cross this, keeping the bushiest tree between me and the buck, who had not much to browse on and was therefore seldom motionless. I proceeded to do the hundred yards on the flat of my stomach. This on loose, hard baked black cotton soil was no joke. I pushed my rifle on ahead; then, wriggling past it until the muzzle was near my knee, I would pass it on in front again, and so on.

Progress was slow, and I was so absorbed that I failed to observe shadows crossing and recrossing my path and circling round until I had gone some 50 yards. Then the whirring of wings attracted my ears, and almost at the same moment a vulture landed on the ground not 20 yards away. I looked up. The air was alive with these repulsive looking birds. Then it flashed across me that I was being stalked! Doubtless these birds were attracted by my extraordinary method of procedure and mistook me for a wounded or dying man making a final effort to reach some shady spot. This was especially possible, as the experience occurred in a famine district where deaths by the wayside were not infrequent. By looking up I had evidently shown myself to the buck, for he was now off at full tilt. I therefore took pot shot at the vulture at 20 yards, but did not allow for the sighting sufficiently and missed him. The thought of being waited for by a flock of vultures while very much alive and well was, to say the least, uncanny.—Pall Mall Gazette.

Burden Bearers of the East.

In the east the camel today, as in the days of Solomon, is the principal beast of burden in peace and in war. Across the pitiless desert he strides, his great pack nodding as he swings along. Down the old, old trail that winds through the hills of Lebanon, blinking, they come in pairs, bringing cedars to the sea. But the most remarkable of all freighters is the eastern hamal, the human burden bearer. All or nearly all the freight of Constantinople is handled by the hamal. He wears on his back a regular pack saddle, thin at the top, where it rests on his shoulders, and thick at the bottom, where it ends at his hips. A broad band circles his forehead, and when he leans forward the saddle presents a flat, level surface.—Munsey's Magazine.

Comparing Notes.

Mrs. Slowboy—My husband's so lazy that if it wasn't for me I don't believe he would get up in time to go to bed.

Mrs. Rounder—My husband's different. He scarcely goes to bed in time to get up.—Chicago News.

When Lot's wife was turned to salt he probably started to look for a fresh one.—Kansas City Star.

LULLABY.

We've wandered all about the upland fallows,
We've watched the rabbits at their play,
But now good night, goodby to soaring swallows,
Now good night, goodby, dear day.

Poppy heads are closing fast, pigeons circle home at last;
Sleep, liebchen, sleep, the bats are calling;
Pansies never miss the light, but sweet babes must sleep at night;
Sleep, liebchen, sleep, the dew is falling.

Even wind among the quiet willows
Rests, and the sea is silent too.
See soft white linen, cool, such cool white pillows
Wait in the darkling room for you.

All the little chicks are still; now the moon peeps down the hill;
Sleep, liebchen, sleep, the owls are hooting.
Ships have hung their lanthorns out; little mice dare creep about;
Sleep, liebchen, sleep, the stars are shooting.
—Ford M. Hueffer in Littell's Living Age.

THE OCEAN SCORCHER.

He Who Brags About How Many Times He Has "Crossed."

The ocean scorcher, the woman or man who was forever bragging about how many times he had "crossed," is, thank heaven, on the decrease. Fashion has at last set the seal of her disapproval on him, and he is rapidly becoming obsolete. The fashion is now never to mention the number of times one has been to Europe. "The last time I was over" is the way to refer to an over the water experience if you wish to be in the vogue. Of course you may, if you truthfully can, say "the time before last I was over" or "the tenth time I crossed" or "during my seventh trip through Europe," but a great majority, you will find, say "the last time I was over." It is safer—when one has been over but once.

Pin many of these travelers so fond of relating their European experiences down to the figures, and you will find that "the last time I was over" bears close relation to the little boy who said he was next to the head of his class, to have it transpire later that the class consisted of himself and a little girl. "The last time I was over" may, like as not, have been the first. Still anything is better than the ocean scorcher and his bragging. To him it didn't matter where he hadn't been or what he hadn't seen or anything, but simply how many times he had crossed.

The one time on record that any one was known to get ahead of these scorchers was when a lot of them were sitting swapping lies on a certain steamship deck and a nonscorcher, having learned that the star scorcher's record was 188 runs, remarked, "There's a man on board who has crossed 566 times." Then, as the excitement caused by the news somewhat subsided: "He's never been anywhere except to the two ports Liverpool and New York. He's never seen anything, he's never done anything, but just cross the ocean 566 times—he's the ship's barber."—New York Sun.

Captain John Smith never during his lifetime succeeded in convincing the English that Virginia was not an island. In vain he wrote home, "Virginia is no isle, as many doe imagine."

RAMSEY AT THE HEAD

Gould Interests Elect Him President of the Wheeling and Lake Erie.

RUMOR OF A PENDING DEAL

Negotiations Asserted to Be Under Consideration Retween W. & L. E. and Pennsylvania—Gould Representatives Refused to Discuss It.

New York, May 10.—The board of directors of the Wheeling and Lake Erie railroad, which was taken in charge by the Gould interests last week, met and elected officers for the ensuing year. Joseph Ramsey, Jr., was chosen president, as determined upon by the Gould combine. Alvin W. Krecht is made vice president; H. B. Hensen, treasurer, and Myron T. Herrick, of Cleveland, chairman of the board. The executive committee will consist of George J. Gould, Alvin W. Krecht and W. E. Connor. One of the directors who was seen after the meeting said that no matter affecting the policy of the road had been brought up for discussion. It was persistently rumored in Wall street that an understanding exists between the Pennsylvania and the Wheeling and Lake Erie, regarding a traffic arrangement from the Toledo Terminal. One news bureau printed the announcement Wednesday as authoritative. Representatives of the Gould syndicate emphatically refused to discuss the proposition when seen Thursday afternoon. In another quarter, however, it was declared that negotiations were pending between the Wheeling and Lake Erie and the Pennsylvania. This informant said: "I do not believe the Wabash will build into Pittsburg."

VOTE WAS INVESTIGATED.

Bill That Was Reported Passed Failed In Pennsylvania House.

Harrisburg, May 10.—The roll call on the final passage in the house Wednesday of the Presque Isle bill was investigated at Thursday's session and showed that of the 106 members recorded in the affirmative four had not voted and that the vote of another was not recorded. The bill was then reconsidered and beaten by 98 to 62, 103 votes being necessary to passage. The measure gave to the city of Erie the land and water front on the southern shore of Presque Isle bay and on the shores of the peninsula forming the northern side of the bay.

There were also other proceedings.

The house adjourned, about 3 p. m. being the time selected to meet.

Among the senate bills passed finally was this one:

Extending to cities of the second and third class the act of May 24, 1887, authorizing the city of Philadelphia to appropriate not more than $500 annually for the support and maintenance of each company of the national guard using and occupying an armory building, rooms or quarters within that city, in addition to the annual appropriation by the legislature.

There were also other proceedings.

Adjourned, about 8 p. m. being the time selected to meet.

Because of the small attendance at last night's session of the house the order of business, which was senate bills on third reading, was dispensed with and the calendar of second reading bills, except appropriation bills, was taken up for consideration.

Several bills on second reading were passed. There were also other proceedings.

Adjourned until this morning, about

Contests of Eggs.

From the remotest ages the egg has been looked upon as the symbol of creation, or new birth. According to the Persians, the world was hatched from an egg at that season of the year which corresponds to the vernal equinox. Hence the Parsees still exchange gifts of colored eggs at the new year festival, which they celebrate at this date. Among the Jews the egg entered into all the mysterious ceremonies called apocalyptic and occupied a prominent position on the household table during the paschal season. Christianity invested the paschal egg with a new significance—namely, that of the resurrection of Christ, and it was colored red in allusion to his blood shed for sinners on the cross.

A curious custom in mediæval churches, for priests and choristers to join in a game of ball at Eastertide, took its rise from the Easter egg, which was thrown from one to the other of the choristers in the nave of the church while an anthem was being sung. As a missed egg meant a smashed egg, the more durable handball was substituted.

But the smashing of eggs continued as a form of outdoor sport. Survivals are to be found among all Teutonic and Anglo-Saxon people. A popular game in England and Germany consists in hitting one egg against another, the egg that survives uncracked winning for its owner the weaker antagonist, until an entire basket of eggs may have changed ownership. Another game is to trundle eggs down a hill or slope, those which reach the bottom uncracked being similarly victorious over the others.

DE WET'S ESCAPE.

How the Boer Commander Slipped Through the British Cordon.

A correspondent in Cape Colony gives an amusing account of how General De Wet slipped through the cordon which the British had drawn around him and recrossed the Orange river on his return from his last raid into the Colony, says the New York Sun.

A British column, it seems, was camped at a place called Woepsfontein, about ten miles from Colesberg, and an outpost of five men was stationed away on the right flank on a farm about ten miles nearer the Orange river. The officer commanding the outpost with two men took up a position on a kopje commanding the road coming through a drift on the Sea Cow river, while three men remained below. The night was cloudy, but moonlit—just the night for De Wet.

Presently the silence was broken by the sound of a voice in the distance singing "Daisy, Daisy, give me your answer true," and a number of voices joined in the chorus of the well known ditty. But who were the singers? "They must surely be some of our own men belonging to another column," said one of the outpost. The sound of the hoofs of many horses was heard drawing nearer. Then they passed along the road below the kopje toward Colesberg bridge. The three men at the foot lay quiet, and so did those on the kopje, but presently one of the passersby came straight to the men below and nearly tumbled over one of them.

"Hello!" he exclaimed. "What are you doing here? Why, he's a Britisher! Hands up!"

The Britisher's hands went up, and in a moment he and his companions were prisoners. Then those on the hills were discovered, and one of the Boers called out:

"Come down out of that! You have nothing to fear! We are British!"

"Are you?" replied the officer. "Then send a couple of unarmed fellows to fetch me."

Firing then began, and the captured men, who were let go after the Boers had crossed the Orange river at Leliefontein just below Colesberg bridge, told when they got back how one of the British bullets nearly struck De Wet, who was speaking to them at the time. De Wet sprang to one side and said, "Stand a little this way" as he changed his position.

The writer says that a dozen colonels and about 25,000 men would have given anything to be where that outpost was that night. The officer did not remain long on the kopje with his two men when he found what was happening, but mounted and galloped back to camp at Woepsfontein to report. In due time the sun rose, and the column started westward to Hamelfontein, where it arrived at midday, by which time De Wet, in the opposite direction, was probably crossing the Orange river at Leliefontein.

A conference was held by the commanders of the two columns, after which the Woepsfontein column with its cumbersome convoy returned to its camping place by the same way it had come in the morning. By the time it got back the report was brought in that De Wet had crossed the river.

A Rabelais Hoax.

Rabelais, being out of money, once tricked the police into taking him from Marseilles to Paris on a charge of treason. He made up some packages of brick dust and labeled them "Poison for the royal family." The officers took Rabelais 700 miles, only to be told at the end of their journey that it was April 1 and the affair was a hoax. Of course, as Rabelais was the privileged wit of the royal family, he was forgiven.

CHINA'S PLOT WITH RUSSIA.

Yung Lu Planned to Break Up the Concert of the Powers.

Advices received at Victoria by the steamer Tosa Maru include a private dispatch from a high Chinese official with the Chinese court at Hsian or Singan to a Chinese of Shanghai, a translation of which is published in The North China Daily News. It throws some new light on the Manchurian intrigues and the proceedings between Russia and China, which, according to the dispatch, were carried out by Chinese officials with the hope of provoking a European war. The translation of a portion of the dispatch reads:

"Although it is well known that Li Hung Chang has always been a Russophile, still, for the sake of impartiality, I must say from my personal knowledge of the affair, that the accusation which rumor has spread about, that Li Hung Chang was the chief mover in the Russo-Chinese intrigues about the cession of Manchuria to Russia, is incorrect. In this matter Li Hung Chang was merely obeying the orders of the reactionists at Hsian under the direction of the arch intriguer and anti-foreigner, Yung Lu. It seems that when Yung Lu found Manchuria at the mercy of the Russians and very likely to be annexed by them at the end of the present troubles with foreign powers, he conceived the idea of luring the Russians away from the concert of the powers by promising the Muscovite special privileges in all the Manchurian provinces if Russia would take the lead in withdrawing her troops from Peking and Chi-li provinces."

A famous ink long used in Germany was made of a combination of chromate of potash with a solution of logwood in the proportions of one part of the former to 1,000 parts of the latter.

Going Into a Safer Business.

It was Cassidy's first morning as newspaper carrier. From side to side of the avenue he hurried, dropping the moist sheets in vestibules and running them in the space between the door and sill. Finally he came to a house that was separated from the sidewalk by an urn studded yard. Cassidy opened the iron gate and walked up the stone path. He knelt in the vestibule and started running the paper under the door. An upper window was raised, and a woman's voice called:

"Is that you, Harry? You are awful late. I hear the milk carts rattling."

Cassidy thought it best to remain quiet. The voice continued:

"You needn't think I'm coming down at such an hour! The idea of you, a married man, coming home at such a time! Lost your key, as usual? Well, catch this one."

A heavy piece of brass shot two stories. There was a heavy fall, and the vestibule resembled a pressroom.

Some one found Cassidy smoking his pipe in the "accident ward."

"Going back to the carrier route?" they asked.

"Niver once more," responded Cassidy. "Oi'm goin back to wur-ruk in th' quarry. Thor's no fallin kaes thor; only dynomited rocks."—Chicago News

A Startler.

A gentleman whose hearing is defective is the owner of a dog that is the terror of the neighborhood in which he lives.

The other day he was accosted by a friend, who said:

"Good morning, Mr. H. Your wife made a very pleasant call on us last evening."

"I'm very sorry," came the startling reply. "I'll see that it don't occur again, for I'm going to chain her up in future."—London Telegraph.

SUPPLEE'S REAL ESTATE AGENCY,

East End, East Liverpool, Ohio.

Four-roomed house on Pennsylvania Avenue, lot 40x100 feet. Price $1,000.
